STARMARK®
CABINETRY

CHECKLIST FOR ACCURATE 2020 PRICING.

○ Are all the cabinets and parts you are ordering from StarMark Cabinetry included on the Quote you are presenting to your client?

○ Are there cabinets on the order which are modified or customized? If so, are you sure you have priced them correctly? If you are not certain, did you get a quote from our Technical Department at 800.551.3404? Did you include the quoted price AND the quote number on your order?

○ Are you upcharging for Spattering on a Stain?	10%
○ Are you upcharging for Light Chain Distressing on a Stain?	10%
○ Are you upcharging for Glaze on a Stain?	10%
○ Are you upcharging for Tinted Varnish?	5%
○ Are you upcharging for Tinted Varnish with Glaze?	15%
○ Are you upcharging for Amaretto?	15%
○ Are you upcharging for Antiquity?	15%
○ Are you upcharging for Chateaux?	15%
○ Are you upcharging for Cottage Stain with Glaze?	15%
○ Are you upcharging for Cottage Tinted Varnish with Glaze?	15%
○ Are you upcharging for Homestead?	15%
○ Are you upcharging for Old World Distressing?	15%
○ Are you upcharging for Villa?	15%
○ Are you upcharging for Walnut?	25%
○ Are you upcharging for Weathered/Weathered Snow?	15%
○ Are you upcharging for Matte Top Coat*?	5%

○ Did you discuss the optional 5-piece header option with your Client? If so, are you upcharging for 5-piece headers? ($93 List/drawer) We have found it works best to include the 5-piece header charge automatically when you are doing the pricing, as most clients request 5-piece headers on their orders.

○ Are you selecting Finished Ends for exposed cabinet ends? Select the Stained End option (block 9010) instead of Finished Ends when the end is "buried" and only a small amount of the end panel will be visible, such as next to an appliance. Stained Ends are no charge, unless 7 or more Stained Ends are specified. Then Finished End charges will apply.

○ Are you using a current StarMark 2020 Electronic Catalog? Check OneTouch for the latest 2020 catalog.

○ Did you remember to include and price all necessary moulding, especially Toe Board Trim (block 12200)?

○ Did you include the $300 or $400 Job Site Delivery net fee if the order is delivered directly to your Client's residence?

○ To indicate styling options, use a current StarMark Cabinetry Order Form as a cover sheet. A Cabinetry Order Form template is posted on OneTouch in Forms, within the Orders section.

○ If you are designing in Inset, did you select the desired hinge style?

○ If you are ordering a hood, did you also include the liner and ventilator?

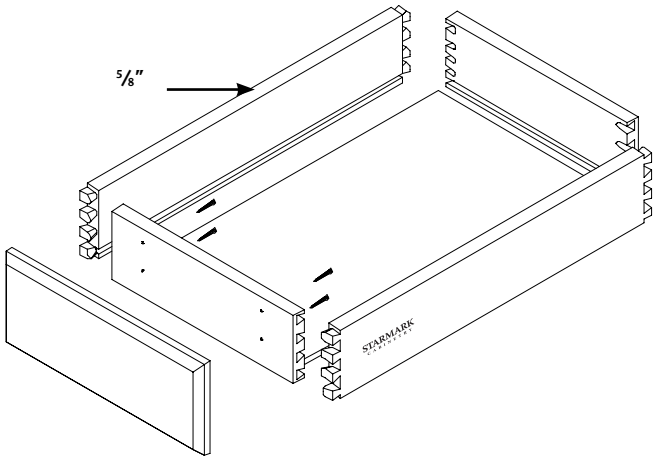
○ If you are ordering a Custom Stain or Custom Tinted Varnish, did you add a $900 net setup fee if the order does not total $20,000 list?

* There is no upcharge for Matte Top Coat on a Stain with Glaze or on any finish with an upcharge already applied.

DRAWER BOX CONSTRUCTION

All wood, very durable.

The four-sided drawer box is constructed of ⅝" hardwood with dovetail corner joints. All surfaces are sealed and topcoated. A captive nominal ¼" plywood drawer bottom is surfaced with durable, easy-to-clean melamine.



The perfect complement to full extension undermount runners, soft close steers even fully loaded drawers to a smooth, silent closure. No rattle of silverware. No crash and thud each time the utensil drawer shuts. **Just a smooth, silent operation where the drawer closes itself the final two inches and rests securely in place.**

DRAWER GLIDE SYSTEM

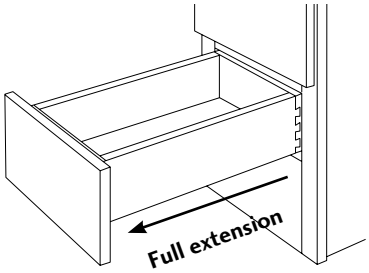
Full extension, self-closing, and so-o-o quiet.

Drawer glides are soft close, featuring full extension and quiet, self-closing track system. The drawer glides are undermounted to the drawer box to virtually eliminate any drawer hardware from being visible.

Each glide includes ball-bearing movement and an automatic closing feature to ensure smooth and positive operation. Glides are mounted to the rear of each cabinet with mounting sockets, automatically centering the drawer for proper drawer alignment. Release triggers are located under the drawer box for detaching a drawer from the glides.

Each drawer glide system is rated at 100 pounds.

undermount full extension
⅝" drawer material
soft close



FULL EXTENSION ROLL TRAYS

The four-sided roll tray is constructed of nominal ⅝" hardwood with dovetail corner joints. All surfaces are sealed and topcoated. A captive nominal ¼" plywood bottom is surfaced with durable, easy-to-clean melamine.

Roll tray glides are soft close, featuring full extension and quiet, self-closing track system. The roll tray glides are undermounted to virtually eliminate any hardware from being visible.

Each glide includes ball-bearing movement and an automatic closing feature to ensure smooth and positive operation. This roll tray system is rated at 100 pounds.

Trimmer pilasters means an inch more storage in each tray. Pilasters are predrilled every 1½" for adjustment with just a screwdriver.

© Copyright StarMark Cabinetry FEBRUARY 2022

1. END PANELS

¾" thick unfinished veneer core plywood glued and stapled into face frame dadoes for rigidity. Wall, base, and utility cabinets are bored to receive adjustable shelf supports. There is a ¼" reveal behind the frame: see top view diagram on page S-3.

OPTIONS

- Finished end panels: block 9020. When you specify a Tinted Varnish, a Tinted Varnish with glaze, and specialty colors that have a Tinted Varnish base, for example, Homestead or Amaretto, the end panel will have MDF crossband as the exterior ply. This material assures the best possible finish. To create a Finished end panel, in all species, we use an end panel that has MDF crossband as the secondary ply. This material assures the best surface for the exterior veneer to be applied to, and this in turn results in the best possible finish.
- Furniture end panels: block 9030. This eliminates the ¼" reveal. When you specify a Tinted Varnish, a Tinted Varnish with glaze, and specialty colors that have a Tinted Varnish base, for example, Homestead or Amaretto, the end panel will have MDF crossband as the exterior ply. This material assures the best possible finish.
- Flush end panels: block 9040. This eliminates the ¼" reveal. When you specify a Tinted Varnish, a Tinted Varnish with glaze, and specialty colors that have a Tinted Varnish base, for example, Homestead or Amaretto, the end panel will have MDF crossband as the exterior ply. This material assures the best possible finish.
- Beaded Flush end panels: block 9045. This modification replaces a cabinet's standard end panel with ¾" veneer MDF core to eliminate the ¼" reveal. The end panel features decorative beads.

2. TOPS & BOTTOMS

Cabinet tops and bottoms are nominal ½" veneer core plywood. They are surfaced with natural birch melamine (for added moisture resistance and cleanability) on the interior and exterior. They are glued to the face frame dado and end panel dado, then glued and stapled into the backrail for rigidity.

3. BACKS

Backs are nominal ¼" plywood with veneer exterior and natural birch melamine interior. Backs are secured to the backrail rabbet and end panel rabbet with staples and glue.

OPTIONS

- Finished Back block 9410. The standard back is replaced with a ¾" veneer core plywood panel that has been finished. Perfect for when the back of the cabinet will be visible, such as island and peninsula applications.
- Finished Panel Back block 9420. The standard back is replaced with an Authentic Desk Island panel (wainscot).

4. BACKRAIL

Backrails are nominal ½" thick veneer core plywood rabbeted to receive tops, bottoms and backs.

5. FACE FRAMES

Face frames are ¾" thick select solid hardwood. Rails and stiles are joined with concealed screws and glue. Rails and stiles are dadoed to receive end panels, tops and bottoms.

6. SHELVES

Wall and base shelves are ¾" thick hardwood plywood surfaced with natural birch melamine. Wall shelves are full depth. Base shelves are two-thirds depth.

All wall cabinet shelves and base cabinet shelves are adjustable. Matching edge banding is attached to front of shelf.

Cabinets ordered with Finished Veneer interiors receive ¾" thick plywood shelves with veneer on both sides. The shelves receive finish, sealer and top coat.

OPTIONS

- Full depth shelves: block 9460

7. TOE BOARDS

Toe boards are unfinished nominal ½" thick veneer core plywood, stapled to and located between the end panels. Plywood (veneer) toe board trim (block 12200) is recommended to cover the toe boards.

- Toe Kick height is 4"
- Toe Kick recess is 2⅝"

8. INTERIOR

Cabinet interiors are surfaced with natural birch melamine.

OPTIONS

- Cabinets ordered with Finished Veneer interiors (block 9480) have hardwood veneer on the interior. It is finished, sealed and topcoated. The shelves are plywood veneer.
- Cabinets ordered with Maple Natural Veneer Interior (block 9470) have maple natural veneer on all interior surfaces—top, bottom, shelves, side panels, back panel and drawer bottom. Tops and bottoms of wall cabinets have maple natural veneer on the exterior.

9. HINGES

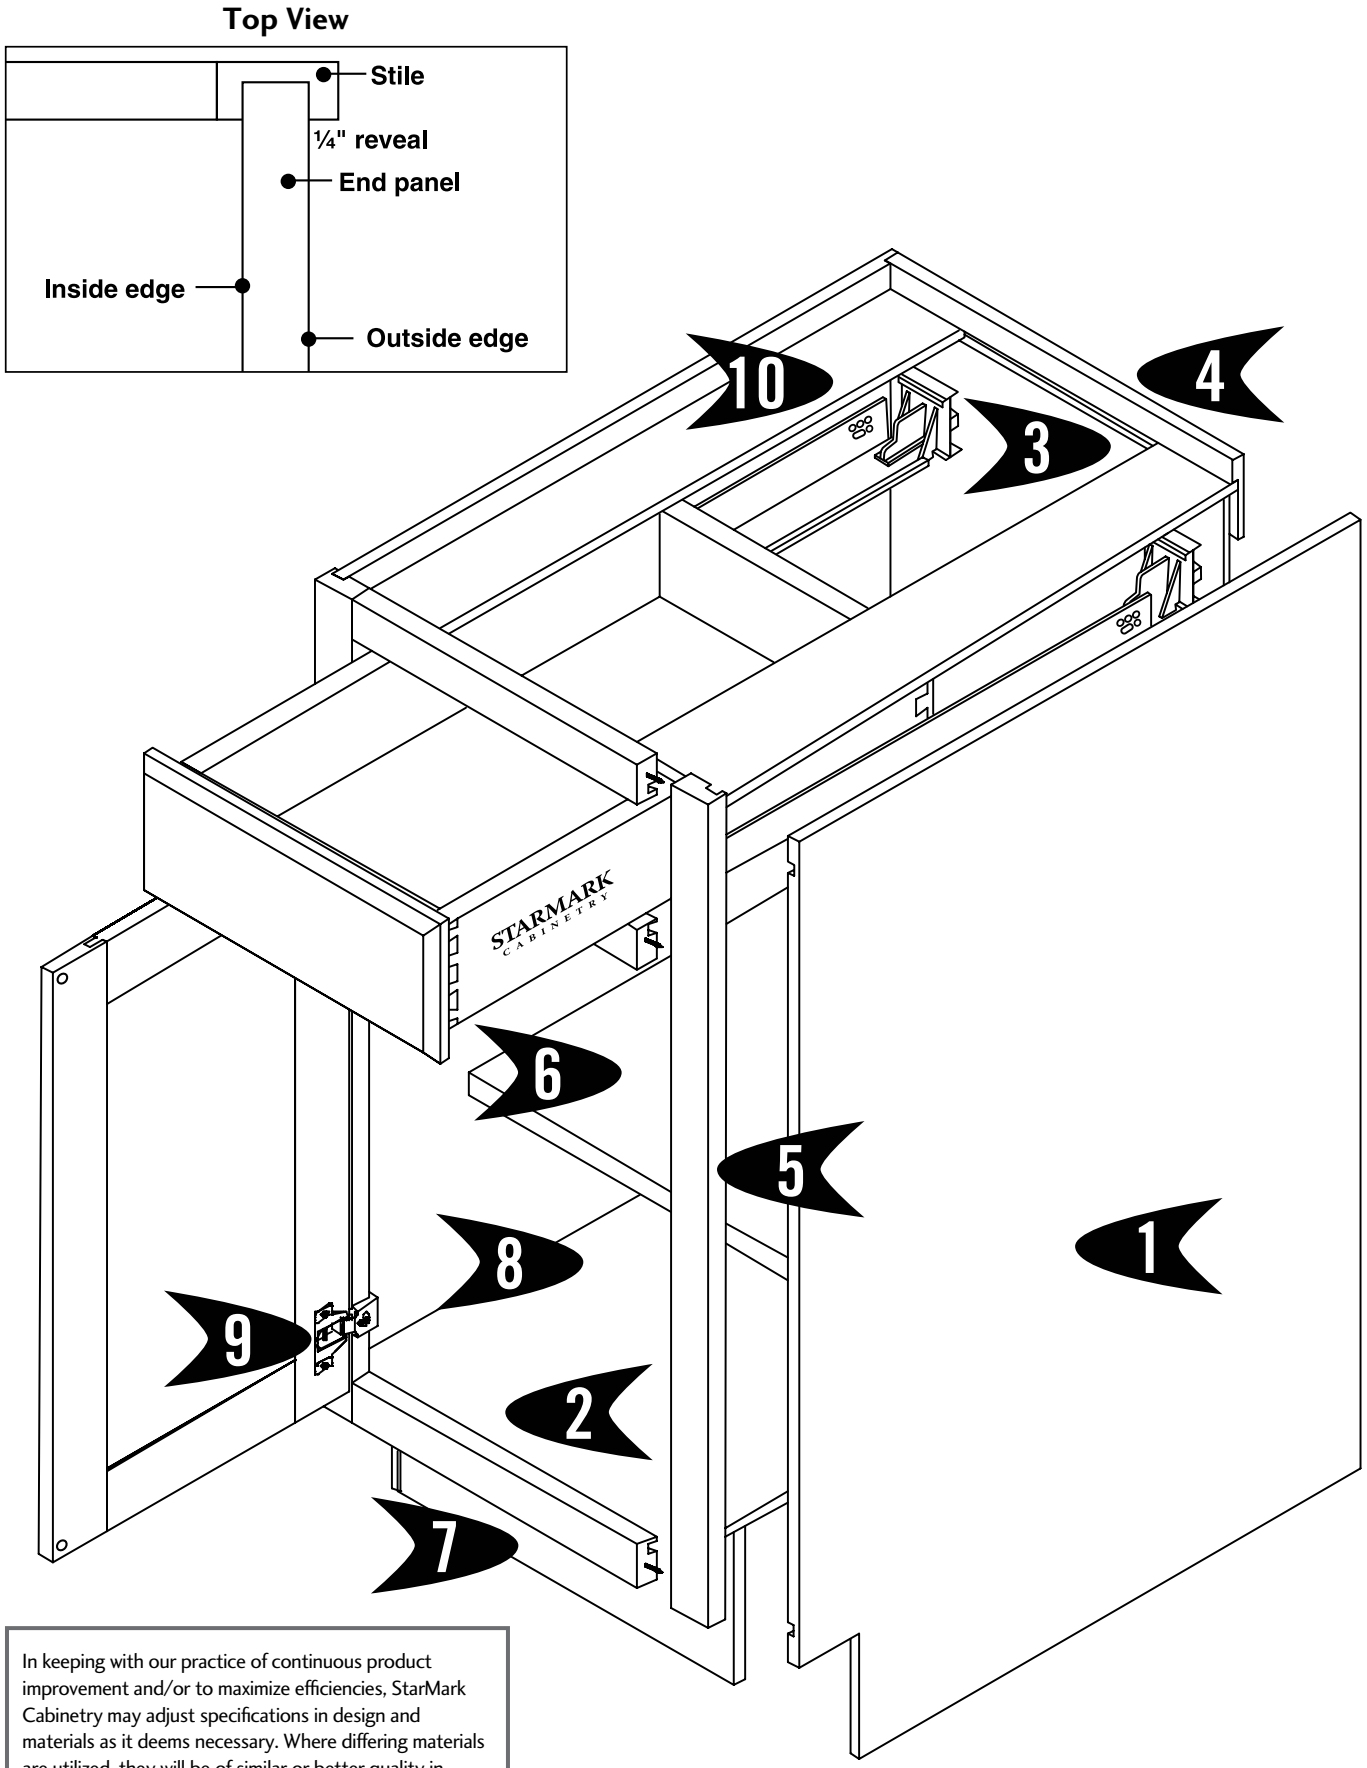
A six-way adjustable concealed hinge with soft close is standard on all Modern and Traditional overlay doors. The hinge has a quick and easy cam adjustment. It adjusts up and down, left and right, and in and out. The door will have a 106 degree swing.

10. SUPPORT RUNNERS

Support Runners (not corner blocks) are used on standard base cabinets for added stability.

StarMark Cabinetry uses veneer core hardwood plywood for end panels, tops and bottoms. Compare our material to other cabinetry companies.

© Copyright StarMark Cabinetry FEBRUARY 2022



In keeping with our practice of continuous product improvement and/or to maximize efficiencies, StarMark Cabinetry may adjust specifications in design and materials as it deems necessary. Where differing materials are utilized, they will be of similar or better quality in keeping with StarMark Cabinetry's commitment to quality.

SPECIES CHARACTERISTICS

All woods will darken and mellow with age. Also, variation is one of the inherent beauties of wood. Because of this, the grain, texture and color of any sample will vary from any other sample. Variations will be more apparent when viewing larger samples, displays, and entire rooms of cabinetry.

Alder

Alder is a soft hardwood with a fine, straight grain and even texture. Color is light brown with a yellow or reddish tinge. When you compare alder's heartwood with its sapwood, there is insignificant color difference. Alder does not evolve in color or darken when exposed to light or heat as other woods do. Alder takes stains and finishes well. It is one of the softest hardwoods so it can be damaged easily. Some small tight knots can be found with standard Alder.

Door Styles	See charts on pages S-145–147.
NOTE	See box below for information on Modifications and Accessories when used in an Alder order.

NOTE THIS ABOUT ALDER CABINETRY
Many accessories are available in Alder. If an accessory is not available in Alder, in many cases Cherry can be successfully substituted. We will note that in the DESIGN CONSIDERATIONS section of the item. In very few cases, there is no Alder option, and we don't recommend Cherry as a substitute.

Rustic Alder

Rustic Alder will have "character" spots (knot, burl, blemish, etc.) on the center panels, and they may also be on the stiles and rails of the door, and on the drawer header, which could impact hardware placement. Knots, if they appear, will be sound and will be closed. At certain angles, light could be visible through the knot. Alder is one of the softest hardwoods so it can be damaged easily.

Door Styles	See charts on pages S-145–147.
NOTE	See box above for information on Modifications and Accessories when used in a Rustic Alder order.

NOTES/CAUTIONS

1. A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.
2. PLEASE NOTE: On Rustic orders, the doors and drawer headers are Rustic. Cabinets without doors (including hoods and bookcases) are built with standard Alder.

Cherry

Cherry displays a distinctive grain pattern and warm color shadings, ranging from nearly white to dark reddish brown. Dark pockets, pin knots and random streaks are common. More than most woods, cherry will darken when exposed to light, especially in light stains.

Door Styles	See charts on pages S-139–140.

Hickory

Hickory is a heavy, strong hardwood known for flowing, vibrant grain patterns and dramatic color variation. Hickory can also exhibit random pecks, burls and mineral streaks. Hickory's color ranges across a wide spectrum, from nearly white to dark brown.

Door Styles	See charts on pages S-141–142.

Rustic Hickory

Doors created from Rustic Hickory will have "character" spots (knot, burl, blemish, etc.) on the center panels. Character spots may also be on the stiles and rails of the door, and on the drawer header, which could impact hardware placement. Knots, if they appear, will be sound and will be closed. At certain angles, light could be visible through the knot.

Door Styles	See charts on pages S-141–142.

NOTES/CAUTIONS

1. A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.
2. PLEASE NOTE: On Rustic orders, the doors and drawer headers are Rustic. Cabinets without doors (including hoods and bookcases) are built with standard Hickory.

© Copyright StarMark Cabinetry FEBRUARY 2022

Maple

Maple is a versatile hardwood with a fine, smooth grain. Maple varies in color from nearly white to a slightly reddish brown. Mineral or sugar streaks occur naturally in maple and can vary from piece to piece. This is more noticeable in lighter stains.

Door Styles	See charts on pages S-136–138.

MDF

NEW!

Medium-density fiberboard (MDF) is an engineered wood product made by breaking down hardwood or softwood residuals into wood fibers, often in a defibrator, combining it with wax and a resin binder, and forming it into panels by applying high temperature and pressure. MDF is generally more dense than plywood. It is made up of separated fibers, but can be used as a building material similar in application to plywood. It is stronger, and more dense, than particle board.

Door Style	Tama
	See chart on page S-156.

Oak

Oak is a strong hardwood with a long, linear grain, often displaying tiny rays. Oak, at times, has small pinholes and tight knots. Oak coloration can range from a golden blond to deeper tones. This is known as Flat Sawn, which shows a different grain pattern than Quarter Sawn Oak even though they are the same species.

Door Styles	See charts on pages S-148–151.

Quarter Sawn Oak

Quarter Sawn Oak is milled at an angle 60 to 90 degrees from the grain allowing rays and flecks to become visible, giving the wood unique character and dimension. Oak coloration can range from a golden blond to deeper tones.

Door Styles	See charts on pages S-152–154.
NOTE	See page S-7 for information on Modifications and Accessories when used in a Quarter Sawn Oak order

Walnut

Walnut is a strong, stable American hardwood known for wide color variation. It ranges in color from creamy white to a medium purplish brown. Walnut cabinetry will have both flowing grain and straight grain. This combination is a treasured characteristic of Walnut, and is showcased when Walnut is finished in Natural. However, Walnut takes all available stains well. Walnut is a favorite choice for furniture and furniture grade cabinetry, such as StarMark Cabinetry.

Door Styles	See charts on page S-155.
Upcharge	25%

NOTES/CAUTIONS

1. A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

CONSTRUCTION OF QUARTER SAWN OAK CABINETRY

- The cabinet will be built with Quarter Sawn Oak face frame.
- If Finished Veneer Interior (STIN, block 9480) is specified, an open cabinet will be built with Quarter Sawn Oak veneer on the inside of cabinet as well as on the shelves.
- Please make note of the construction of these cabinets:
  - on the Criss Cross Wine Rack, the lattice work will be Flat Sawn Oak
  - on the Plate Rack, the plate ladder will be Flat Sawn Oak

CABINET MODIFICATIONS IN QUARTER SAWN OAK CABINETRY

DESIGN CONSIDERATIONS

- If you modify a Quarter Sawn Oak cabinet with these options

MDP	9050
IMDP	9060
P	9280
Finished Ends	9020
Flush Ends	9040
Furniture Ends	9030
Beaded Flush End	9045

the modification will be manufactured in Quarter Sawn Oak.

- Any modification that is integral to the Face Frame will be accomplished with Quarter Sawn Oak. All of those modifications are found in section 9000. Examples include: WTR, WBR, VTR, ES, WS, TT, BESSD and FLV.

ACCESSORIZING QUARTER SAWN OAK CABINETRY

The following items will be built with Quarter Sawn Oak.

Nomenclature	Block #
ACCM8	12280
LC8	12410
LCCM8	12400
LFLAT8	12690
ACCORB	13450

Finish Characteristics

Palette Information

The Glaze palette is Chocolate, Ebony, Latte and Nickel.

The Tinted Varnish palette is Black, Blueberry, Bottle Green, Breeze, Buttercream, Capri, Creekstone, Crystal Fog, Currant, Dove, Frost, Graphite, Ivory Cream, Macadamia, Marshmallow Cream, Mineral Gray, Moon Bay, Moss Green, Mushroom, Pearl, Pebble Gray, Peppercorn, Portabella, Repose Grey, Sage, Shale, Simply White, Stone, White, Wild Honey and Wings.

The Antiquity palette is Fog, Driftwood, Oregano, Peppercorn and Slate.

The Chateaux palette is Brittany, Cappuccino, Nutmeg, Oregano and Toffee.

The Homestead palette is Blueberry and Fog.

The Villa palette is Black, Breeze Ebony, Capri Ebony, Green, Ivory, Marshmallow, Marshmallow Nickel, Mushroom and Pearl.

The Weathered/Weathered Snow palette is listed on page S-19.

Specialty finishes have characteristics that cannot be captured on a color chip, so color chips are not available in Amaretto, Antiquity, Chateaux, Cottage, Homestead, Old World Distressing, Villa and Weathered/Weathered Snow. Please request a door sample to view these unique, beautiful finishes.

Always review all finish characteristics. Pay close attention to those shaded in gray!

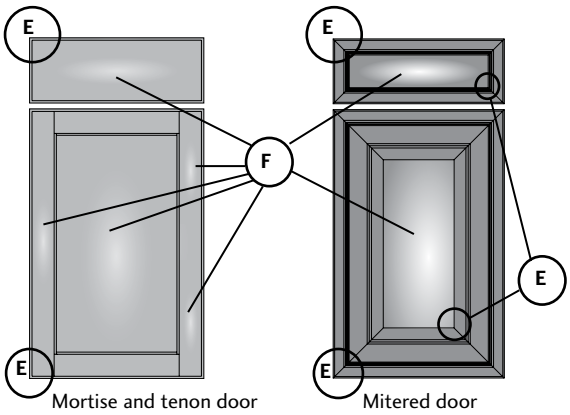
Finish Characteristics of Doors and Drawer Headers

Characteristics described below apply to these cabinetry products:

Doors, Drawer headers, Insert doors, Mission doors, Mullion doors, Prairie Mullion doors, Thornton doors, any door applied to a panel, and Appliance Panels.

Characteristic	**Application to door and drawer header**
A. Spattering	Randomly applied to the face and edges of doors and drawer headers.
B. Distressing	Light chain distressing is randomly hand-applied to the face and edges of doors and drawer headers.
C. Glaze	Hand-applied to the face and edges of doors and drawer headers.
D. Speckling	Randomly applied to the face and edges of doors and drawer headers.
E. Rounded Corners/ Worn Edges	The corners of doors and drawer headers and the edges of raised panel doors and five piece headers are sanded to expose wood and the base color. The effect and amount of sanding will vary according to the door's profile. A clear top coat is applied.
F. Rub Through on Flat Surfaces	Areas of the door's center panel, stiles and rails, and areas of the drawer header's center panel are randomly selected for sanding. The sanding will expose the base color. A clear top coat is applied.
G. Wire Brushing	Applied to the face of doors and drawer headers. Mullion strips on Mullion Doors do **not** receive wire brushing.



Mortise and tenon door

Mitered door

! A sample door remains the best way to illustrate door and drawer header finish characteristics.
We encourage you to order a 13x16 sample door, FF&D sample door or strapped sample door.

FINISH CHARACTERISTICS

Stains

Stains are a semi-transparent penetrating alkyd stain that is applied and hand-wiped into the wood. A high-solids, catalyzed sealer is applied. It is air-dried and oven-dried and hand-sanded to a smooth finish. A clear top coat is applied. The finish is oven cured for durability.

Species	Alder	Rustic Alder	
	Cherry		
	Hickory	Rustic Hickory	
	Maple		
	Oak	Quarter Sawn Oak	
	Walnut

	Spattering	10%	page S-13
	Matte Top Coat	5%	page S-13

NEW!

HOW TO ORDER A STAIN

- Specify the Stain in the Finish Box on the first page of the Order Form.
- To price, enter each upcharge as a separate line item and apply any upcharges to the entire order.
- Check the options you want in the STYLING OPTIONS box, found on the first page of the Order Form.

★ Spattering and Distressing are available with any stain. These options dramatically increase the number of "looks" you can offer your clients.

Glaze over a Stain

Glazes are hand-applied. Glazing is most apparent in contours where "hang-up" can occur. Doors with less detailed profiles will show less hang-up. A clear top coat is applied. The finish is oven cured for durability.

Compare our glazing coverage to other cabinet companies. We apply glaze to the ENTIRE door front, the face frame, drawer header, all finished ends and finished veneer interiors in the order for just one upcharge.

Chocolate Glaze Generally darker than unglazed wood, Chocolate Glaze creates warm brown tones and highlights the door's detailing.

Ebony Glaze Ebony Glaze provides a subtle unifying black tone in the grain, in door details and in moulding elements for the cool color palette.

Latté Glaze Latté Glaze washes the entire wood surface with a creamy taupe tone and highlights detailing with a taupe hang-up.

Nickel Glaze Nickel Glaze adds a cool, subdued pewter tone.

HOW TO ORDER A GLAZED STAIN

- Check the options you want in the STYLING OPTIONS box.
- Specify the Glazed Stain as a separate line item.
- To price, apply the upcharge to the entire order.
- A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

© Copyright StarMark Cabinetry FEBRUARY 2022

FINISH CHARACTERISTICS

Light Chain Distressing

Light chain distressing is randomly applied, primarily to fronts and edges of doors and drawer headers. Light chain distressing is done prior to applying finish. Light chain distressing promotes an "aged" look, and offers another place for glaze to hang up.

Species	Alder	Rustic Alder
	Cherry	
	Hickory	Rustic Hickory
	Maple	
	Oak	Quarter Sawn Oak
	Walnut	
Palette	All stains, all glazed stains, all Tinted Varnish and all Tinted Varnish glaze.	
Door Styles	Available on all wood door styles	
Upcharge	10%	
	There is no upcharge for Light Chain Distressing on a Tinted Varnish with Glaze.	

HOW TO ORDER DISTRESSING

- Check DISTRESSING in the STYLING OPTIONS box, found on the first page of the Order Form.
- Specify DISTRESSING as a separate line item.
- To price, apply the upcharge to the entire order.

Spattering

Spattering is a dark stain, hand applied randomly to the cabinet. The best way to describe the effect of spattering is to imagine lightly coating a toothbrush's bristles with dark paint, and then running your thumb over it to spatter the paint.

Species	Alder	Rustic Alder
	Cherry	
	Hickory	Rustic Hickory
	Maple	
	Oak	Quarter Sawn Oak
	Walnut	
Palette	All stains and all glazed stains	
Door Styles	Available on all wood door styles	
Upcharge	10%	
	There is no upcharge for Spattering on a Stain with Glaze.	

HOW TO ORDER SPATTERING

- Check SPATTERING in the STYLING OPTIONS box, found on the first page of the Order Form.
- Specify SPATTERING as a separate line item.
- To price, apply the upcharge to the entire order.

Matte Top Coat

NEW!

Matte Top Coat is a less reflective finish than our standard sheen. One way to describe Matte Top Coat is to use terms from the paint industry. A satin or flat option is comparable to Matte Top Coat, and semi-gloss is comparable to our standard sheen.

Species	Alder	Rustic Alder
	Cherry	
	Hickory	Rustic Hickory
	Maple	
	Oak	Quarter Sawn Oak
	Walnut	
Palette	Stains Stain with Glaze Stain with Glaze with Old World Distressing Stain with Glaze with Cottage Distressing Weathered Stain with Glaze combinations Chateaux Brittany Chateaux Cappuccino Chateaux Nutmeg Chateaux Oregano Chateaux Toffee Antiquity Driftwood Antiquity Oregano Antiquity Slate	
Door Styles	Available on all wood door styles	
Upcharge	5%	
	There is no upcharge for Matte Top Coat on a Stain with Glaze or on any finish with an upcharge already applied.	

HOW TO ORDER SPATTERING

- Check MATTE TOP COAT in the STYLING OPTIONS box, found on the first page of the order form.
- Specify MATTE TOP COAT as a separate line item
- To price, apply the upcharge to the entire order

© Copyright StarMark Cabinetry FEBRUARY 2022

FINISH CHARACTERISTICS

Tinted Varnish

Three tinted coats of catalyzed material are uniformly applied to Maple, Oak and Quarter Sawn Oak cabinetry. Light sanding between coats assures a smooth finish. The finish is oven cured for durability.

Species	Maple, Oak, Quarter Sawn Oak
Standard	No spattering
Options	No light chain distressing Light Chain Distressing
Palette	See charts on pages S-137, S-149, S-153, S-156
Door Styles	Available on Maple, Oak and Quarter Sawn Oak door styles.
Upcharge	5%

NOTES/CAUTIONS

1. To get the best possible finish, we use an end panel with an exterior layer of MDF crossband on Flush end panels (block 9040), Finished end panels (block 9020) and Furniture end panels (block 9030). In addition, veneered center panels in doors are replaced with HDO material, solid 3/8" reverse flat panels and solid 5/8" raised panels in doors are replaced with 100% MDF, and the Tabor door is constructed with 100% MDF. If you specify STIN (block 9480), the back panel will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish.

HOW TO ORDER TINTED VARNISH

- Specify the finish as a separate line item.
- To price, apply the upcharge to the entire order.
- A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

★ Compare our glazing coverage to other cabinet companies. We apply glaze to the ENTIRE door front, the face frame, drawer header, all finished ends and finished veneer interiors in the order for just one upcharge.

Glazes over Tinted Varnish

Glazes are hand-applied. Glazing is most apparent in contours where "hang-up" can occur. Doors with less detailed profiles will show less hang-up. A clear top coat is applied. The finish is oven cured for durability.

Chocolate Glaze Generally darker than unglazed wood, Chocolate Glaze creates warm brown tones and highlights the door's detailing.
Latté Glaze Latté Glaze washes the entire wood surface with a creamy taupe tone and highlights detailing with a taupe hang-up.
Nickel Glaze Nickel glaze adds a cool, subdued pewter tone.

Species	Maple, Oak, Quarter Sawn Oak
Standards	No spattering
Options	Light Chain Distressing No Light Chain Distressing
Palette	See charts on pages S-137–138, S-149–150, S-153–154
Door Styles	Available on Maple, Oak and Quarter Sawn Oak door styles.
Upcharge	15% There is no upcharge for Distressing on a Tinted Varnish with Glaze.

NOTES/CAUTIONS

1. To get the best possible finish, we use an end panel with an exterior layer of MDF crossband on Flush end panels (block 9040), Finished end panels (block 9020) and Furniture end panels (block 9030). In addition, veneered center panels in doors are replaced with HDO material, solid 3/8" reverse flat panels and solid 5/8" raised panels in doors are replaced with 100% MDF, and the Tabor door is constructed with 100% MDF. If you specify STIN (block 9480), the back panel will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish.

HOW TO ORDER TINTED VARNISH WITH GLAZE

- Specify the finish as a separate line item.
- To price, apply the upcharge to the entire order.
- Check the options you want in the STYLING OPTIONS box on the Order Form.
- A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

FINISH CHARACTERISTICS

AMARETTO

Amaretto is black tinted varnish. The finish is rubbed to expose the wood. A Butterscotch tone is applied to accent the wood and door profiles. There are rounded corners and worn edges on center panels. A clear top coat is applied. The finish is oven cured for durability.

Species	Maple
Standards	No spattering Light chain distressing Rounded Corners/Worn Edges Rub Through
Options	None available
Maple Door Styles	See charts on pages S-137–138 for doors styles available in Maple.
Upcharge	15%

NOTES/CAUTIONS

1. Because it's a hand-rubbed technique, there will be variations in the intensity of the rub-through and the distressing. To sell this finish, we recommend showing your customer a sample door. A color chip is not available.
2. There is an extended lead time for orders containing Amaretto. See your Cycle Ship for more information. We distribute Cycle Ship approximately every four weeks.
3. To get the best possible finish, we use an end panel with an exterior layer of MDF crossband on Flush end panels (block 9040), Finished end panels (block 9020) and Furniture end panels (block 9030). In addition, veneered center panels in doors are replaced with HDO material, solid 3/8" reverse flat panels and solid 5/8" raised panels in doors are replaced with 100% MDF. If you specify STIN (block 9480), the back panel will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish.

HOW TO ORDER AMARETTO

- Specify AMARETTO as a separate line item.
- To price, apply the upcharge to the entire order.
- A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

ANTIQUITY

Antiquity is available on Alder and Rustic Alder. Ebony glaze is applied, wiped by hand and brushed. A clear top coat is applied. This finish is oven cured for durability.

Species	Alder Rustic Alder
Standards	No distressing No spattering
Options	Matte Top Coat available on Antiquity Driftwood, Oregano and Slate.
Palette	Driftwood Fog Oregano Peppercorn Slate
Alder Door Styles	See chart on S-145 for door styles available in Alder.
Upcharge	15%

NOTES/CAUTIONS

1. Because it's a hand-applied technique, there will be variations in the intensity and look of the glazing. To sell this finish, we recommend showing your customer a sample door.
2. There is an extended lead time for orders containing Antiquity. See your Cycle Ship for more information. We distribute Cycle Ship approximately every four weeks.

HOW TO ORDER ANTIQUITY

- Specify ANTIQUITY as a separate line item.
- To price, apply the upcharge to the entire order.
- A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

© Copyright StarMark Cabinetry FEBRUARY 2022

FINISH CHARACTERISTICS

CHATEAUX

Chateaux is created by randomly applying several distressing techniques, softening all edges, padding the edges to create shadowing, and adding speckling to accentuate the distressing. A clear top coat is applied. The finish is oven cured for durability.

Species	Cherry
Standards	Dips Light Chain Distressing Knife Cuts Padding Rasping Rounded Corners/Worn Edges Speckling Worm Holes No spattering
Options	Matte Top Coat
Palette	Brittany Cappuccino Nutmeg Oregano Toffee
Cherry Door Styles	See chart on page S-139 for door styles available in Cherry.
Upcharge	15%

NOTES/CAUTIONS

1. Occasionally there will be a knife mark on a joint. The structural integrity of the joint is not affected by the knife mark.
2. There is an extended lead time for Chateaux orders. See your Cycle Ship for more information. We distribute Cycle Ship approximately every four weeks.

HOW TO ORDER CHATEAUX

- Specify the CHATEAUX finish in the Finish Box on the first page of the Order Form.
- To price, enter the CHATEAUX upcharge as a separate line item and apply to the entire order.
- Include a floor plan with your order. A floor plan will help us achieve the overall look of CHATEAUX in the room. See page S-11 for Chateaux Room Finish Characteristics.
- Because it's a hand-applied technique, there will be variations. To sell this finish, we recommend that you show your customer a door and header sample (Strapped or SAMPB) of the style and finish. Each sample door will contain all the distressing techniques; however, not every door in a kitchen will contain all the distressing techniques.
- A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

To speckle the Chateaux finish, a subtle stain in dark brown is randomly applied across the surface of the finish. These spots will be no larger than the diameter of a pencil eraser.

COTTAGE

Cottage is created by sanding through the finish to expose the raw wood underneath and adding glaze to bring out the wood's unique texture. There are rounded corners and worn edges on center panels. Cottage is available with or without light chain distressing and this must be specified on the Cabinetry Order Form. A clear top coat is applied. The finish is oven cured for durability.

Species	Alder Cherry Hickory Maple Oak Quarter Sawn Oak Rustic Alder Rustic Hickory	
Standards	No spattering Rounded Corners/Worn Edges	
Options	Light Chain Distressing No Light Chain Distressing Matte Top Coat available on Stain with Glaze.	
Palette	Tinted Varnish with Glaze Stain with Glaze	
Door Styles	Available on all wood door styles with the exception of Tabor.	
Upcharge	Tinted Varnish with Glaze Stain with Glaze	15% 15%

NOTES/CAUTIONS

1. Because it's a hand-rubbed technique, there will be variations in the intensity of the rub-through and the distressing. To sell this finish, we recommend showing your customer a sample door.
2. There is an extended lead time for orders containing Cottage. See your Cycle Ship for more information. We distribute Cycle Ship approximately every four weeks.
3. When specifying Cottage without a glaze, we highly recommend showing your customer a sample door, to illustrate the exposed raw wood look.

HOW TO ORDER COTTAGE

- Specify COTTAGE as a separate line item.
- To price, apply the upcharge to the entire order.
- On the Cabinetry Order form, you must specify Cottage with Distressing or Cottage w/o Distressing.
- A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

© Copyright StarMark Cabinetry FEBRUARY 2022

FINISH CHARACTERISTICS

HOMESTEAD

Homestead is available on Alder and Rustic Alder door styles. Several distressing techniques are applied randomly and heavily. A glaze is applied, wiped and brushed. Drawer and door corners are rounded. A clear top coat is applied. This finish is oven cured for durability.

Species	Alder Rustic Alder
Standards	Dips Light Chain Distressing Knife Cuts Chiseling Rasping Rounded Corners/Worn Edges Abundant Worm Holes No spattering
Options	None available
Palette	Blueberry Fog
Alder Door Styles	See chart on page S-147 for Alder door styles available in Homestead.
Upcharge	15%

NOTES/CAUTIONS

1. Occasionally there will be a knife mark on a joint. The structural integrity of the joint is not affected by the knife mark.
2. Please note that the amount of worm holes is considerably more than the amount found on Chateaux or Old World Distressing.
3. There is an extended lead time for Homestead orders. See your Cycle Ship for more information. We distribute Cycle Ship approximately every four weeks.
4. To get the best possible finish, we use an end panel with an exterior layer of MDF crossband on Flush end panels (block 9040), Finished end panels (block 9020) and Furniture end panels (block 9030). In addition, veneered center panels in doors are replaced with HDO material, solid 3/8" reverse flat panels and solid 5/8" raised panels in doors are replaced with 100% MDF. If you specify STIN (block 9480), the back panel will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish.

HOW TO ORDER HOMESTEAD

- Specify the HOMESTEAD finish in the Finish Box on the first page of the Order Form.
- To price, enter the HOMESTEAD upcharge as a separate line item and apply to the entire order.
- Because it's a hand-applied technique, there will be variations. To sell this finish, we recommend that you show your customer a door and header sample (Strapped or SAMPB) of the style and finish. Each sample door will contain all the distressing techniques; however, not every door in a kitchen will contain all the distressing techniques.
- A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section. For many homeowners, Homestead, because of the heavy distressing, would best be used as an accent color in a design (island, hood, etc), instead of being the main color. If it is being used as the main color, please note, a room of heavily distressed cabinetry is a rustic/primitive look, and may not be what the homeowner wants to achieve.

FINISH CHARACTERISTICS HOMESTEAD

To achieve the appearance of randomly worn cabinetry, not all components will receive all of the available distressing techniques.	Distressing Techniques

OLD WORLD DISTRESSING

Old World is created by randomly applying several distressing techniques, softening all edges, and adding a glaze to accentuate the distressing. A clear top coat is applied. The finish is oven cured for durability.

Species	Alder Cherry Hickory Maple Oak Quarter Sawn Oak Rustic Alder Rustic Hickory
Options	Matte Top Coat available on Stain with Glaze.
Standards	Dips Knife Cuts Light Chain Distressing No spattering Rasping Rounded Corners/Worn Edges Worm Holes
Palette	See charts on pages S-138, S-140, S-142, S-144, S-146, S-151, S-154
Door Styles	Available on all wood door styles, with the exception of Tabor
Upcharge	15%

NOTES/CAUTIONS

1. Occasionally there will be a knife mark on a joint. The structural integrity of the joint is not affected by the knife mark.
2. There is an extended lead time for Old World Distressing orders. See your Cycle Ship for more information. We distribute Cycle Ship approximately every four weeks.

HOW TO ORDER OLD WORLD DISTRESSING

- In addition to specifying a finish, write OLD WORLD DISTRESSING in the Finish Box on the first page of the Order Form.
- To price, enter the OLD WORLD DISTRESSING upcharge as a separate line item and apply to the entire order.
- Include a floor plan with your order. A floor plan will help us achieve the overall look of Old World in the room. See page S-11 for Old World Distressing Room Finish Characteristics.
- Because it's a hand-applied technique, there will be variations. To sell this finish, we recommend that you show your customer a door and header sample (Strapped or SAMPB) of the style, finish and wood specie. Each sample door will contain all the distressing techniques; however, not every door in a kitchen will contain all the distressing techniques.
- A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

VILLA

The process used to create the Villa finish results in a look that suggests brush strokes along the face of the doors and drawers and any other finished part of the order. Variation of color and brush stroke technique will appear from door to door and will blend throughout the kitchen. To create Villa, the base coat is tinted varnish and a coat of glaze is applied in such a way to suggest brush strokes. A clear top coat is applied. The finish is oven cured for durability.

Species	Maple
Standards	No distressing No spattering
Options	None available
Palette	Black Breeze Ebony NEW! Capri Ebony NEW! Green Ivory Marshmallow Marshmallow Nickel Mushroom Pearl
Maple Door Styles	See chart on page S-137 for doors styles available in Maple.
Upcharge	15%

NOTES/CAUTIONS

1. Because it's a hand-applied technique, there will be variations in the intensity and look of the brush stroke. To sell this finish, we recommend showing your customer a sample door.
2. There is an extended lead time for orders containing Villa. See your Cycle Ship for more information. We distribute Cycle Ship approximately every four weeks.
3. To get the best possible finish, we use an end panel with an exterior layer of MDF crossband on Flush end panels (block 9040), Finished end panels (block 9020) and Furniture end panels (block 9030). In addition, veneered center panels in doors are replaced with HDO material, solid 3/8" reverse flat panels and solid 5/8" raised panels in doors are replaced with 100% MDF, and the Tabor door is constructed with 100% MDF. If you specify STIN (block 9480), the back panel will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish.
4. Brush stroke is horizontal on slab drawer headers and on the center panel of five-piece drawer headers. Brush stroke is vertical on Hampton and Lafayette five-piece drawer header center panels.

HOW TO ORDER VILLA

- Specify VILLA as a separate line item.
- To price, apply the upcharge to the entire order.
- A Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

© Copyright StarMark Cabinetry FEBRUARY 2022

WEATHERED/ WEATHERED SNOW

NEW!

Weathered is available on Oak, on select door styles. Weathered is a wire brush technique that removes soft grain, resulting in substantial texture on the door and drawer header. The Weathered texture is applied to the face of doors, drawer headers and finished end panels. When a Stain with Glaze or Tinted Varnish with Glaze is specified, glaze is applied and wiped by hand. A clear top coat is applied. The finish is oven cured for durability.

Species	Oak		
Standards	Wire brushing No spattering No distressing		
Options	Matte Top Coat		
Palette	See charts on pages S-150 and S-156		
Oak Door Styles	Accord Breckenridge Coralville Hanover Lehigh Ridgeville Stockton Ventura	Bonita Clifton Fullerton Harrison Renwick Roanoke Tipton	
MDF Door Style	Tama (available in Weathered only)		
Mouldings	ACCM STOP MCM MBRM BCE LSCRS LFLAT	CM MBMB MBFM DCE FLAT LSCRL MTBT	TACM LCM SHOE LSMBD LSMPW LSML
Upcharge	15%		

NOTES/CAUTIONS

- When a Stain with Glaze or Tinted Varnish with Glaze is specified, glazing is hand applied, so expect artistic variations in the intensity and look when glaze is applied in conjunction with the Weathered texture. To sell this finish, we recommend showing your customer a sample door.
- When applied to moulding, wire brushing results depend on the type of moulding. Wire brushing will be visible on the flat surface of moulding such as Arts & Craft Crown Moulding (ACCM). On moulding that has raised profiles, such as Crown Moulding (CM), wire brushing will be evident on the raised portions, but not on the scooped portions.
- Some installations include a variety of Finished Ends and Panels. Wire brushing is applied to some, not all, Finished Ends and Panels. Please refer to the list above and make sure to educate your homeowner that not all components will have visible wire brushing texture. In addition, 48" is the maximum panel width to receive wire brushing texture.

HOW TO ORDER WEATHERED/WEATHERED SNOW

- Specify WEATHERED/WEATHERED SNOW as a separate line item.
- To price, apply the upcharge to the entire order.
- A Finish Expectations Form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use. The Finish Expectations form is found on OneTouch in Forms, within the Orders section.

CUSTOM STAIN

WITH OR WITHOUT GLAZE

BEFORE YOU BEGIN, YOU NEED TO KNOW:

1. Custom stain is available on all wood species.
2. Custom stain is on standard Cycle Ship, unless there are extended lead time items on the order. The time period starts at the time we enter the order (STEP FIVE). It does not start at STEP ONE.
3. There are costs.
   - Absolutely no custom finish cabinetry order is entered until we have a door sample on file that has been approved by the homeowner. A minimum of two door samples is required for order processing. The cost to finish a 13x16 door sample in a custom color is $200 Net. The cost to finish a FF&D door sample in a custom color is $300 Net.
   - Note that more than one door sample may be produced until the homeowner approves the color. We charge for every door sample produced.
   - If the cabinetry order does not total $20,000 list, a set up fee of $900 Net will apply.
   - When the cabinetry order is placed, applicable finish upcharges apply to the entire cabinetry order:

Custom Stain Upcharge	**10%**	**Custom Chateaux**	**25%**
Custom Stain with Glaze Upcharge	**20%**	**Custom Weathered (Oak only)**	**25%**
Custom Cottage on Stain with Glaze Upcharge	**25%**		
Custom Old World on Stain with Glaze Upcharge	**25%**		
Custom Distressing Upcharge	**Call**		

STEP ONE

Prepare a Sample.

Work with the homeowner to create a sample that depicts the color they desire. Color matching a stain or stain with glaze is a manual process completed by humans, not machines. This affects how useful your submitted sample will be when we use it to produce a door sample for the homeowner to approve.

❏ The optimum sample is a 3"x3" (minimum size) piece of the desired wood species finished in the desired stain. The first door sample our color technicians produce will most likely reflect what the homeowner desired. Occasionally a second door sample is needed. We charge for each door sample.

❏ Any other color samples—fabric, wallpaper, non-wood substrates, paper, flooring, tile—are open to interpretation. The first door sample our color technicians produce may accurately reflect what the homeowner desired, but more likely, it won't. Multiple door samples may be necessary to achieve what the homeowner has in mind. We charge for each door sample.

❏ Specify which of StarMark Cabinetry's glazes is to be used.

❏ Chocolate ❏ Latte
❏ Nickel ❏ Ebony ❏ **No** glaze

❏ Specify which finish is to be used.

❏ Standard ❏ Matte Top Coat

THIS IS IMPORTANT TO KNOW and to COMMUNICATE TO THE HOMEOWNER

Color matching a stain or stain with glaze is a manual process completed by humans, not machines. This affects how useful your submitted color sample will be when we use it to produce a door sample for the homeowner to approve. Multiple door samples may be necessary to achieve what the homeowner has in mind. We charge for each door sample.

STEP TWO

Determine the distressing techniques the homeowner wants.

❏ No distressing

❏ Cottage Distressing

Cottage Distressing includes 1. worn edges and 2. rounded corners. Light chain distressing is optional with Cottage Distressing. If Cottage Distressing is the homeowner's choice, please check **one** below:

❏ Light chain distressing
❏ **No** light chain distressing

❏ Old World Distressing

Old World Distressing includes 1. rounded corners 2. rasping 3. dips 4. knife cuts 5. worm holes 6. worn edges 7. light chain distressing

❏ Custom distressing. Apply only certain distressing characteristics from the list below.

❏ Dips
❏ Chiseling* (as seen in Homestead)
❏ Knife cuts
❏ Light chain distressing
❏ Padding (as seen in Chateaux)
❏ Rasping
❏ Rounded Corners/Worn Edges
❏ Rub through on flat surfaces
❏ Spattering
❏ Speckling (dark brown, as seen in Chateaux)
❏ Worm holes
❏ Wire brushing (as seen in Weathered)

* Chiseling is only available on Alder and Rustic Alder doors styles with a solid wood center panel.

CUSTOM STAIN

WITH OR WITHOUT GLAZE

STEP THREE

Communicate with us.

Please ship to us these two items:

1. The color sample from STEP ONE, and indicate glaze choice and distressing instructions. The shipping address is:
   TECHNICAL ASSISTANCE
   StarMark Cabinetry
   600 E. 48th Street North
   Sioux Falls, SD 57104

Shipping label files are available for print are posted on OneTouch in Forms, within the Orders section.

2. A completed Custom Quote Request Form (posted on OneTouch in Forms, within the Orders section.)

Now StarMark Cabinetry has work to do.

3a When StarMark receives your color sample and completed Custom Quote Request Form, we create a Custom Quote Number. Technical Assistance then shares that Custom Quote Number with you, so you can include it on your sample door order.

You can order either

- 13x16" sample doors ($200 Net)

–OR–

- FFD Face Frame and Door sample doors ($300 Net)

3b StarMark formulates a stain and toner.
3c StarMark will produce two door samples.
3d StarMark signs and dates two door samples.
3e StarMark ships one door sample to you. The other is retained in our color library for future reference.

NOTE: Steps 3a through 3e take two weeks from receipt of your color sample.

STEP FOUR

Review the sample door with the homeowner and have them sign the Custom Color approval form. Send the form in with the cabinetry order.

- We do not process the order until we receive the signed Custom Color approval form.
- The form must be signed and returned within 90 days of sample date.
- Due to the natural aging process of wood and finishes, Custom Color samples are only retained in our library for six months. After six months, a new sample is required.

STEP FIVE

StarMark Cabinetry enters the order. Finish upcharges are applied (see chart below), and if the order was less than $20,000 list, a custom finish set up fee of $900 Net applies.

- Promotional discounts cannot be applied to a custom finish order.
- Custom finish orders cannot be placed on rush.

Custom Stain Upcharge	**10%**
Custom Stain with Glaze Upcharge	**20%**
Custom Cottage on Stain with Glaze Upcharge	**25%**
Custom Old World on Stain with Glaze Upcharge	**25%**
Custom Chateaux	**25%**
Custom Distressing Upcharge	**Call**
Custom Weathered (Oak only)	**25%**

STEP SIX

We formulate the custom stain after the cabinetry order is released into production. StarMark Cabinetry then produces and ships the order.

Use this chart to review the characteristics you can add to your custom color.	CUSTOM COLORS

CUSTOM TINTED VARNISH

WITH OR WITHOUT GLAZE

BEFORE YOU BEGIN, YOU NEED TO KNOW:

1. Custom Tinted Varnish is available on all wood species.
2. Custom Tinted Varnish is on standard Cycle Ship, unless there are extended lead time items on the order. The time period starts at the time we enter the order (STEP FIVE). It does not start at STEP ONE.
3. There are costs.
   - Absolutely no custom finish cabinetry order is entered until we have a door sample on file that has been approved by the homeowner. A minimum of two door samples is required for order processing. The cost to finish a 13x16 door sample in a custom color is $200 Net. The cost to finish a FF&D door sample in a custom color is $300 Net.
   - Note that more than one door sample may be produced until the homeowner approves the color. We charge for every door sample produced.
   - If the cabinetry order does not total $20,000 list, a set up fee of $900 Net will apply.
   - When the cabinetry order is placed, applicable finish upcharges apply to the entire cabinetry order:

Custom Tinted Varnish Upcharge	**15%**	**Custom Villa**	**25%**
Custom Tinted Varnish with Glaze Upcharge	**25%**	**Custom Distressing Upcharge**	**Call**
Custom Cottage on Tinted Varnish with Glaze Upcharge	**25%**	**Custom Weathered (Oak only)**	**25%**
Custom Homestead (Alder and Rustic Alder only)	**25%**		
Custom Old World on Tinted Varnish with Glaze Upcharge	**25%**		

STEP ONE

Obtain a color number or prepare a sample.

❏ Indicate paint brand _____
and color number _____

❏ It's highly unlikely, but a homeowner's retail paint color choice may not be stored in our computer. In that case, send the actual swatch from the fan deck. Make sure it is in good condition.

❏ If the desired color is not an existing paint, the best sample for us to work from is a 3"x3" (minimum size) piece of the desired species finished in the desired color. The first door sample our color technicians produce will most likely reflect what the homeowner desired. Occasionally a second door sample is needed. We charge for each door sample.

❏ Any other color samples—fabric, wallpaper, non-wood substrates, paper, flooring, tile—are open to interpretation. The first door sample our color technicians produce may accurately reflect what the homeowner desired, but more likely, it won't. Multiple door samples may be necessary to achieve what the homeowner has in mind. We charge for each door sample.

❏ Specify which of StarMark Cabinetry's glazes is to be used.

❏ Chocolate ❏ Latte
❏ Nickel ❏ Ebony ❏ **No** glaze

THIS IS IMPORTANT TO KNOW and to COMMUNICATE TO THE HOMEOWNER

Any color sample that is not a paint color or fan deck swatch—fabric, wallpaper, non-wood substrates, paper, flooring, tile—is open to interpretation. The first door sample our color technicians produce may accurately reflect what the homeowner desired, but more likely, it won't. Multiple door samples may be necessary to achieve what the homeowner has in mind. We charge for each door sample.

STEP TWO

Determine the distressing techniques the homeowner wants.

❏ No distressing

❏ Cottage Distressing
Cottage Distressing includes 1. worn edges and 2. rounded corners. Light chain distressing is optional with Cottage Distressing. If Cottage Distressing is the homeowner's choice, please check **one** below:
❏ Light chain distressing
❏ **No** light chain distressing

❏ Old World Distressing
Old World Distressing includes 1. rounded corners 2. rasping 3. dips 4. knife cuts 5. worm holes 6. worn edges 7. light chain distressing

❏ Custom distressing. Apply only certain distressing characteristics from the list below.
❏ Brush stroke (as seen in Villa)
❏ Chiseling* (as seen in Homestead)
❏ Dips
❏ Knife cuts
❏ Light chain distressing
❏ Rasping
❏ Rounded Corners/Worn Edges
❏ Rub through on flat surfaces
❏ Spattering
❏ Worm holes

* Chiseling only available on Alder and Rustic Alder door styles with a solid wood center panel.

PLEASE NOTE

The gloss/sheen level of the sample produced by StarMark Cabinetry may differ from the sample submitted by the homeowner.

FINISH EXPECTATIONS

StarMark Cabinetry is committed to the satisfaction of our customers. Therefore, it is important to us that you have realistic expectations of StarMark's fine wood cabinetry and fashion finishes, and fully understand the characteristics of the species and finishes outlined below. Your StarMark Cabinetry Dealer will review the following wood species and finish characteristics with you.

FACTORS that affect ALL WOODS and FINISHES

- **Hygroscopicity:** Wood is hygroscopic, meaning it absorbs and gives off moisture according to the humidity surrounding it, even when a finish has been applied. Because of moisture, wood shrinks and swells; this process may cause hairline fractures in the finish at the joints. (This is especially apparent with Tinted Varnish finishes.) This shrinking and swelling is normal and does not affect the structural stability or integrity of the joint construction.
- **Mellowing:** When exposed to light, most woods darken and mellow with age. Some species, especially cherry, change in color more than others. Mellowing changes the look of cabinetry. When your new cabinetry arrives for installation, the color will vary from the samples viewed in the showroom due to this aging process. Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

WOOD SPECIES CHARACTERISTICS

- The building blocks of StarMark Cabinetry products are select hardwoods and veneers in Alder, Rustic Alder, Oak, Quarter Sawn Oak, Maple, Cherry, Hickory, Rustic Hickory and Walnut. Each species has its own beauty and elegance, and, as it is machined, joined and finished into fine cabinetry, each piece reveals its individual appeal.
- Just as no two trees are alike, no two pieces of wood are alike. How and where the tree grows can affect the frequency of mineral deposits, light and dark wood, and grain patterns. This natural process will result in variations in grain and color throughout your cabinetry. The grain, texture and color of any sample will vary from another sample. Variations will be more apparent when viewing larger samples, such as entire rooms of cabinetry.
- Some species have more variation than others. Please see the descriptions for more details.
- If you desire total uniformity and perfect grain patterns, we recommend not purchasing solid wood cabinetry. If it is character, warmth and unique effects you prefer, then traditional wood cabinetry from StarMark Cabinetry should be your choice.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. If your order contains a Finished end panel (dealer, this is block 9020), we use an end panel with a layer of MDF. This is a superior substrate for achieving a consistent, quality finish. If you have questions about the materials used in StarMark Cabinetry, we encourage you to discuss with your dealer.

RUSTIC WOOD SPECIES ACKNOWLEDGEMENT

Rustic Alder will have "character" spots (knot, burl, blemish, etc.) on the center panels, and they may also be on the stiles and rails of the door, and on the drawer front, which could impact hardware placement. Knots, if they appear, will be sound and will be closed. At certain angles, light could be visible through the knot.

Rustic Hickory has a wide variation in color, ranging from nearly white to dark brown. There will be "character" spots (knot, burl, blemish, etc.) on the center panels, and they may also be on the stiles and rails of the door, and on the drawer front, which could impact hardware placement. Knots, if they appear, will be sound and will be closed. At certain angles, light could be visible through the knot.

StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

SPECIES ACKNOWLEDGEMENT

Alder is a soft hardwood with a fine, straight grain and even texture. Color is light brown with a yellow or reddish tinge. When you compare alder's heartwood with its sapwood, there is insignificant color difference. Alder does not evolve in color or darken when exposed to light or heat as other woods do. Alder takes stains and finishes well. It is one of the softest hardwoods so it can be damaged easily. Some small tight knots can be found with standard Alder.

Cherry displays a distinctive grain pattern and warm color shadings, ranging from nearly white to dark reddish brown. Dark pockets, pin knots and random streaks are common. More than most woods, Cherry will darken when exposed to light, especially in light stains.

Hickory is a heavy, strong hardwood known for flowing, vibrant grain patterns and dramatic color variation. Hickory can also exhibit random pecks, burls and mineral streaks. Hickory's color ranges across a wide spectrum, from nearly white to dark brown.

Maple is a versatile hardwood with a fine, smooth grain. Maple varies in color from nearly white to a slightly reddish brown. Mineral or sugar streaks occur naturally in Maple and can vary from piece to piece. This is more noticeable in lighter stains.

Medium-density fiberboard (MDF) is an engineered wood product made by breaking down hardwood or softwood residuals into wood fibers, often in a defibrator, combining it with wax and a resin binder, and forming it into panels by applying high temperature and pressure. MDF is generally more dense than plywood. It is made up of separated fibers, but can be used as a building material similar in application to plywood. It is stronger, and more dense, than particle board.

Oak is a strong hardwood with a long, linear grain, often displaying tiny rays. Oak, at times, has small pinholes and tight knots. Oak coloration can range from a golden blond to deeper tones.

Quarter Sawn Oak is milled at an angle 60 to 90 degrees from the grain allowing rays and flecks to become visible, giving the wood unique character and dimension.

Walnut is a strong, stable American hardwood known for wide color variation. It ranges in color from creamy white to a medium purplish brown. Walnut cabinetry will have both flowing grain and straight grain. This combination is a treasured characteristic of Walnut, and is showcased when Walnut is finished in Natural. However, Walnut takes all available stains well. Walnut is a favorite choice for furniture and furniture grade cabinetry, such as StarMark Cabinetry.

LIGHT STAINS and NATURAL FINISHES FINISH ACKNOWLEDGEMENT

- Light stains and natural finishes—those with no stain applied—are translucent and magnify the natural characteristics of wood. The infinite variation in grain patterns, color and particular markings are inherent to wood and its different species. These variations are a product of nature and comprise the fundamental beauty of real wood.

DARK STAINS FINISH ACKNOWLEDGEMENT

- Dark stains—like Java and Mocha—have heavily pigmented toners that reflect light. This draws attention to finishing inconsistencies, substrate inconsistencies and the infinite variety of grain patterns and markings inherent to all species of wood.

GRAY STAINS FINISH ACKNOWLEDGEMENT

- Gray stains—like Driftwood and Slate—have heavily pigmented toners that reflect light. This draws attention to finishing inconsistencies, substrate inconsistencies and the infinite variety of grain patterns and markings inherent to all species of wood.

UNFINISHED WOOD FINISH ACKNOWLEDGEMENT

- StarMark Cabinetry will supply, upon request, unfinished product with no stain, sealer or top coat applied. We will not warranty any unfinished parts, including claims made for warpage, finish and color variation. StarMark Cabinetry and authorized StarMark Cabinetry dealers cannot be held responsible for any unfinished materials supplied.
- Even though we do not warranty unfinished items, this document does not invalidate our standard warranty for all other items on your order.

GLAZE FINISH ACKNOWLEDGEMENT

- The process of glazing begins with the hand-application of stain to bring out the beauty of the wood grain. After curing, the glaze compound is applied to several components of the cabinets in your order.
- Because of the techniques used in achieving this special finish, glaze buildup will occur around the door and drawer front edges, door panels, end grain and, to a lesser extent, flat surfaces such as some drawer overlays and center panels.
- The buildup of the glazing compound will vary from one piece to another and the variations may be dramatic. The broad variations inherent to glaze finishes are considered to be the beauty of this finish.
- Glazing is most apparent in contours where “hang-up” can occur. Doors with less detailed profiles will show less hang-up.
- We call your attention to the characteristics of glazed finishes because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common in glazed finishes and will not be reason for replacement.

TINTED VARNISH FINISH ACKNOWLEDGEMENT

- Tinted Varnish finishes are distinctly different from standard finishes you may be familiar with. The best way to describe Tinted Varnish is to say it gives a painted finish. When applied to fine maple cabinetry, the grain of the wood will not show through. When applied to oak and quarter sawn oak cabinetry, the grain of the wood is visible, especially when a glaze is applied. Tinted Varnish is available on Maple, Oak and Quarter Sawn Oak door styles.
- Like other finishes, tinted varnish finishes have a coating of catalyzed varnish.
- Tinted Varnish finishes are susceptible to wear and tear from normal residential use. Solid color finishes intensify nicks, chips, dents and rub-through especially on sharp corners and edges.
- As the wood expands and contracts, hairline cracks will appear at the joints of the cabinets. The Tinted Varnish finish will also crack. (The integrity of the joints is not affected by expansion and contraction.) This cracking is a normal characteristic of Tinted Varnish finishes and will not be considered a reason for product replacement.
- Joint separation may be extreme on mitered doors and applied moulding doors, therefore Tinted Varnish finishes are not recommended for use in environments of high humidity.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. To get the best possible finish quality when creating cabinetry finished in Tinted Varnish, we use an end panel with a layer of MDF to create Flush end panels (dealer, this is block 9040), Finished end panels (dealer, this is block 9020), and Furniture end panels (dealer, this is block 9030). This is a superior substrate for achieving a consistent, quality finish. In addition, if the door you selected has a veneered center panel, it is replaced with a center panel made of HDO material and the Tabor door is constructed with 100% MDF. If you specify that the interior back panel of a cabinet should receive color (dealer, this is modification STIN, block 9480), the material used will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish. If you have questions about the materials used in StarMark Cabinetry, we encourage you to discuss with your dealer.

TINTED VARNISH WITH GLAZE FINISH ACKNOWLEDGEMENT

- Tinted Varnish finishes are distinctly different from standard finishes you may be familiar with. The best way to describe Tinted Varnish is to say it gives a painted finish. When applied to fine maple cabinetry, the grain of the wood will not show through. When applied to oak and quarter sawn oak cabinetry, the grain of the wood is visible, especially when a glaze is applied. Tinted Varnish is available on Maple, Oak and Quarter Sawn Oak door styles.
- Like other finishes, tinted varnish finishes have a coating of catalyzed varnish.
- Tinted Varnish Glaze finishes are susceptible to wear and tear from normal residential use. Solid color finishes intensify nicks, chips, dents and rub-through especially on sharp corners and edges.
- As the wood expands and contracts, hairline cracks will appear at the joints of the cabinets. The Tinted Varnish Glaze finish will also crack. (The integrity of the joints is not affected by expansion and contraction.) This cracking is a normal characteristic of Tinted Varnish Glaze finishes and will not be considered a reason for product replacement.
- Joint separation may be extreme on mitered doors and applied moulding doors, therefore Tinted Varnish Glaze finishes are not recommended for use in environments of high humidity.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. To get the best possible finish quality when creating cabinetry finished in Tinted Varnish with Glaze, we use an end panel with a layer of MDF to create Flush end panels (dealer, this is block 9040), Finished end panels (dealer, this is block 9020), and Furniture end panels (dealer, this is block 9030). This is a superior substrate for achieving a consistent, quality finish. In addition, if the door you selected has a veneered center panel, it is replaced with a center panel made of HDO material and the Tabor door is constructed with 100% MDF. If you specify that the interior back panel of a cabinet should receive color (dealer, this is modification STIN, block 9480), the material used will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish. If you have questions about the materials used in StarMark Cabinetry, we encourage you to discuss with your dealer.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

AMARETTO FINISH ACKNOWLEDGEMENT

- The Amaretto finish is created by 1) light chain distressing of the wood and 2) sanding and distressing through the finish to expose the raw wood underneath and rounding corners
- Because it is a hand-rubbed technique, there will be variations in the intensity of the rub-through and the distressing.
- The Amaretto finish is susceptible to wear and tear from normal residential use. Nicks, chips, dents and rub-through will be more obvious, especially on sharp corners and edges.
- We call your attention to the characteristics of Amaretto because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Amaretto change significantly from door style to door style.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. To get the best possible finish quality when creating cabinetry finished in Amaretto, we use an end panel with a layer of MDF to create Flush end panels (dealer, this is block 9040), Finished end panels (dealer, this is block 9020), and Furniture end panels (dealer, this is block 9030). This is a superior substrate for achieving a consistent, quality finish. In addition, if the door you selected has a veneered center panel, it is replaced with a center panel made of HDO material. If you specify that the interior back panel of a cabinet should receive color (dealer, this is modification STIN, block 9480), the material used will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish. If you have questions about the materials used in StarMark Cabinetry, we encourage you to discuss with your dealer.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

ANTIQUITY FINISH ACKNOWLEDGEMENT

- Antiquity is available on Alder and Rustic Alder. Ebony glaze is applied, wiped by hand and brushed. A clear topcoat is applied. The finish is oven-cured for durability.
- Because of this unique hand applied glaze technique, there will be variations in the intensity of the glazing and color.
- The Antiquity is susceptible to wear and tear of normal residential use.
- We call your attention to the characteristics of Antiquity because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Antiquity can change significantly from door style to door style.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

CHATEAUX FINISH ACKNOWLEDGEMENT

- Chateaux is created by randomly applying several distressing techniques, softening all edges, padding the edges to create shadowing, and adding speckling to accentuate the distressing. A clear top coat is applied. The finish is oven-cured for durability.
- To achieve the appearance of randomly worn cabinetry, not all components in a room of cabinetry will receive all of the available distressing techniques. These techniques are:

  Light Chain Distressing
  Rounded Corners/ Worn Edges
  Worm Holes
  Rasping
  Dips
  Knife Cuts

- Because each component is distressed by hand, each component will exhibit variances in the intensity of the characteristics used on the component.
- Knife Cuts may be located at joints to simulate cracks. Structural integrity of the joint is maintained.
- We call your attention to the characteristics of Chateaux because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a door sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Chateaux change significantly from door style to door style.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

COTTAGE FINISH ACKNOWLEDGEMENT

- The Cottage finish is created by 1) optional light chain distressing of the wood, 2) sanding and distressing through the finish to expose the raw wood underneath and rounding corners and then 3) adding glaze to bring out the wood's unique textures.
- Because it is a hand-rubbed technique, there will be variations in the intensity of the rub-through and the distressing.
- The Cottage finish is susceptible to wear and tear from normal residential use. Nicks, chips, dents and rub-through will be more obvious, especially on sharp corners and edges.
- We call your attention to the characteristics of Cottage because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Cottage change significantly from door style to door style.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

HOMESTEAD FINISH ACKNOWLEDGEMENT

For many homeowners, Homestead, because of the heavy distressing, would best be used as an accent color in a design (island, hood, etc), instead of being the main color. If it is being used as the main color, please note, a room of heavily distressed cabinetry is a rustic/primitive look, and may not be what the homeowner wants to achieve.

- Homestead is available on Alder and Rustic Alder door styles. Several distressing techniques are applied randomly and heavily. A glaze is applied, wiped and brushed. Drawer and door corners are rounded. A clear top coat is applied. This finish is oven cured for durability.
- To achieve the appearance of randomly worn cabinetry, not all components in a room of cabinetry will relieve all of the available distressing techniques. These techniques are:

  Light Chain Distressing
  Rounded Corners/ Worn Edges
  Abundant Worm Holes
  Rasping
  Dips
  Knife Cuts
  Chiseling

- Because each component is distressed by hand, each component will exhibit variances in the intensity of the characteristics used on the component.
- Knife Cuts may be located at joints to simulate cracks. Structural integrity of the joint is maintained.
- The amount of worm holes is considerably more than the amount found on Chateaux or Old World Distressing.
- We call your attention to the characteristics of Homestead because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a door sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Homestead change significantly from door style to door style.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. To get the best possible finish quality when creating cabinetry finished in Homestead, we use an end panel with a layer of MDF to create Flush end panels (dealer, this is block 9040), Finished end panels (dealer, this is block 9020), and Furniture end panels (dealer, this is block 9030). This is a superior substrate for achieving a consistent, quality finish. In addition, if the door you selected has a veneered center panel, it is replaced with a center panel made of HDO material. If you specify that the interior back panel of a cabinet should receive color (dealer, this is modification STIN, block 9480), the material used will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish. If you have questions about the materials used in StarMark Cabinetry, we encourage you to discuss with your dealer.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

OLD WORLD DISTRESSING FINISH ACKNOWLEDGEMENT

- Old World is created by randomly applying several distressing techniques, softening all edges, and adding a glaze to accentuate the distressing. A clear top coat is applied. The finish is oven-cured for durability.
- To achieve the appearance of randomly worn cabinetry, not all components in a room of cabinetry will relieve all of the available distressing techniques. These techniques are:

  Light Chain Distressing
  Rounded Corners/ Worn Edges
  Worm Holes
  Rasping
  Dips
  Knife Cuts
  Rub Through (on Amaretto finish only)

- Because each component is distressed by hand, each component will exhibit variances in the intensity of the characteristics used on the component.
- Knife Cuts may be located at joints to simulate cracks. Structural integrity of the joint is maintained.
- We call your attention to the characteristics of Old World because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a door sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Old World change significantly from door style to door style.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

NOTE: The conditions described in this FINISH EXPECTATIONS form are NOT considered defects or reasons for replacement.

Dealers, a copy of this form (with signature fields) is found on OneTouch in Forms, within the Orders section.

© Copyright StarMark Cabinetry FEBRUARY 2022

VILLA FINISH ACKNOWLEDGEMENT

- The Villa finish is created with a combination of tinted varnish, glaze and a unique hand rubbed technique.
- Because of this unique hand rubbed technique, there will be variations in the intensity of the "brush marks" and color.
- Brush stroke is horizontal on slab drawer headers and on the center panel of five-piece drawer headers. Brush stroke is vertical on Hampton and Lafayette five-piece drawer header center panels.
- The Villa finish is susceptible to wear and tear of normal residential use. This finish intensifies nicks, chips and dents, especially on sharp corners.
- We call your attention to the characteristics of Villa because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Villa can change significantly from door style to door style.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. To get the best possible finish quality when creating cabinetry finished in Villa, we use an end panel with a layer of MDF to create Flush end panels (dealer, this is block 9040), Finished end panels (dealer, this is block 9020), and Furniture end panels (dealer, this is block 9030). This is a superior substrate for achieving a consistent, quality finish. In addition, if the door you selected has a veneered center panel, it is replaced with a center panel made of HDO material and the Tabor door is constructed with 100% MDF. If you specify that the interior back panel of a cabinet should receive color (dealer, this is modification STIN, block 9480), the material used will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish. If you have questions about the materials used in StarMark Cabinetry, we encourage you to discuss with your dealer.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

WEATHERED/WEATHERED SNOW FINISH ACKNOWLEDGEMENT

- Weathered is available on Oak, on select door styles. Weathered is a wire brush technique that removes soft grain, resulting in substantial texture on the door and drawer header. Wire brushing is applied to the face of doors and drawer headers and to finished end panels. When a Stain with Glaze or Tinted Varnish with Glaze is specified, glaze is applied and wiped by hand. A clear top coat is applied. The finish is oven cured for durability.
- When a Stain with Glaze or Tinted Varnish with Glaze is specified, the glazing is hand applied, so expect artistic variations in the intensity and look when glaze is applied in conjunction with the Weathered texture.
- Weathered is susceptible to wear and tear of normal residential use.
- We call your attention to the characteristics of Weathered because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Weathered can change significantly from door style to door style.
- When applied to moulding, wire brushing results depend on the type of moulding. Wire brushing will be visible on the flat surface of moulding such as Arts & Craft Crown Moulding (ACCM). On moulding that has raised profiles, such as Crown Moulding (CM), wire brushing will be evident on the raised portions, but not on the scooped portions.
- Some installations include a variety of Finished Ends and Panels. Wire brushing is applied to some, not all, Finished Ends and Panels. Refer to the list in this section and make sure to educate your homeowner that not all components will have visible wire brushing texture. In addition, 48" is the maximum panel width to receive wire brushing texture.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

NOTE: The conditions described in this FINISH EXPECTATIONS form are NOT considered defects or reasons for replacement.

Dealers, a copy of this form (with signature fields) is found on OneTouch in Forms, within the Orders section.

REVEAL
TWO LOOKS FOR WALL, TALL AND BASE CABINETS

StarMark overlay doors will have one of two styles:

- Modern
- Traditional, also called "partial" and "half inch."

The "reveal" measures how much of the cabinet's face frame shows when the doors/drawers are in a closed position.
A Modern door style will show less of the face frame than a Traditional door style. A Traditional door style shows the most of the cabinet's face frame.

DOOR STYLE OPTIONS

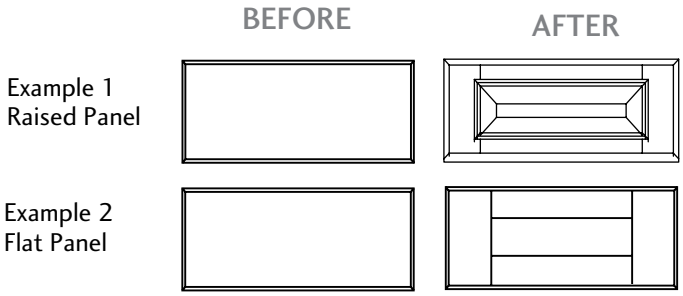
FIVE PIECE HEADER

This modification replaces the standard slab header with a five-piece header.

Door Styles	See door styles for availability pages S-132–135.
Upcharge	$93 per drawer header
Block	9840

NOTES/CAUTIONS

1. DKV (block 7280), POK (block 7285) and VDD (block 8025) have a drawer that cannot receive a five piece header. See blocks for details.



HOW TO ORDER A FIVE PIECE HEADER

- Check FIVE PIECE HEADER in the STYLING OPTIONS box, found on the first page of the Order Form.
- Specify FIVE PIECE HEADER in the Special Information section.
- To price, total the drawers and drawer fronts in the order. Multiply by the FIVE PIECE HEADER charge. Specify the total in the price column.
- This option is applied to the entire order. Every drawer opening 4½" tall and greater will receive a five-piece header.

© Copyright StarMark Cabinetry FEBRUARY 2022

DOOR STYLE OPTIONS

EDGE TREATMENTS

The Edge Treatments dramatically increases the number of door styles you can offer your clients, and there is no charge for an optional edge.

Door Styles	See chart on pages S-132–135.
Upcharge	No charge
Block	9790

HOW TO ORDER AN EDGE TREATMENTS

- Check OPTIONAL EDGE in the STYLING OPTIONS box, found on the first page of the Order Form.
- Specify EDGE TREATMENT in the Special Information section.

DOOR STYLE OPTIONS

FURNITURE PEGS

A 5/16" square wooden peg is driven into a 3/8" diameter drill hole. The gaps between the peg and the hole are visible and are not filled.

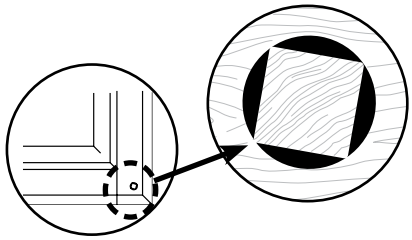
Door Styles	See chart on pages S-132–135.	
Upcharge	Single pegs	$16 per door and 5-piece header
	Double pegs	$32 per door and 5-piece header
Block	9800	

NOTES/CAUTIONS

1. This is a rustic look. We recommend viewing a sample door to determine desirability.
2. When DECORATOR EDGE is specified, only SINGLE PEGS can be ordered.
3. Not available on Aero, Altamonte, Arlington, Bell Gardens, Bethany, Brisbane, Calais, Ellington, Gallant, Glendale, Griffon, Monroe, Peabody, Prescott, Princeton, Redcliff, Regal, Roman, San Dimas, Sundance, Syracuse, Tabor, Tama, Tempo, Valliant, Venice, Ventura, Verona, Viola or on slab headers, profiled headers and Regent profiles.

HOW TO ORDER FURNITURE PEGS

- Check SINGLE PEGS or DOUBLE PEGS in the STYLING OPTIONS box, found on the first page of the Order Form.
- Specify nomenclature SPEGS or DPEGS in the SPECIAL INFORMATION column.
- To price, determine the number of doors and drawer headers that will receive the pegs, multiply by the SPEG or DPEG charge, and add to the cost of the cabinet.



Single peg

Double pegs

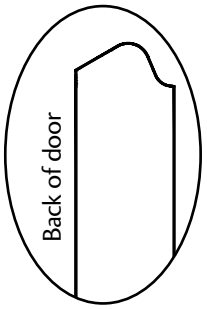
BEVEL PULL

This modification results in doors and drawer headers that have bevel pulls on the top and bottom, so hardware is not necessary.

Door Styles	Alite, Ashford, Bedford, Salem, Tudor
Upcharge	None
Block	9760

HOW TO ORDER BEVEL PULLS

- Check BEVEL PULL in the STYLING OPTIONS box, found on the first page of the Order Form.
- Specify nomenclature **BP** as a separate line item.
- Not available with Decorator Edge
- There is no charge for this option.



FINGER ROUTES

This modification results in doors and drawer headers that have finger routes so hardware is not necessary.

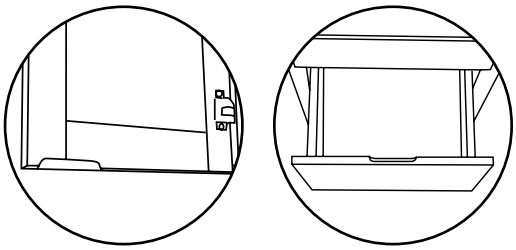
Door Styles	Alite, Ashford, Bedford, Salem, Tudor
Upcharge	$13 per door and drawer header
Block	9750

NOTES/CAUTIONS

1. Cabinets wider than 24" will have two finger routes per drawer header.
2. Not available on pocket doors.

HOW TO ORDER FINGER ROUTES

- Check FINGER ROUTES in the STYLING OPTIONS box, found on the first page of the Order Form.
- Specify nomenclature **FR** as a separate line item.
- To price, total the doors and drawer headers in the order, multiply by the FINGER ROUTE charge, and specify the total in the price column.



© Copyright StarMark Cabinetry FEBRUARY 2022

DOOR STYLE OPTIONS

REGENT PROFILE

The Regent Profile is a convenient, inexpensive way to increase the number of "looks" you can offer your clients.

This modification replaces the standard slab header with a routed profile. The Regent Profile has three graduated steps, which provides more opportunity for glaze to "hang up." The grain runs horizontally.

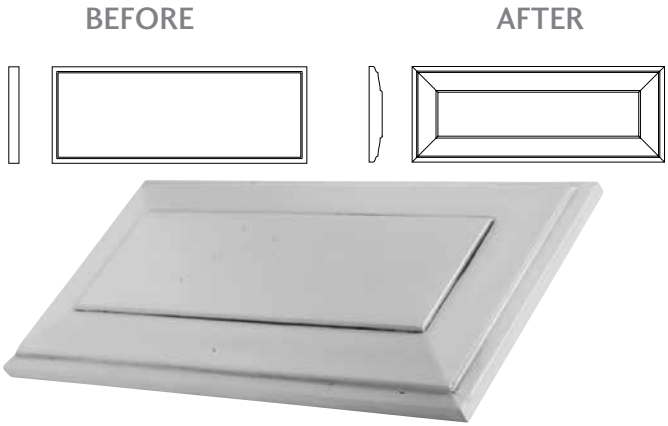
Door Styles	Accord, Alite, Ashford, Avendale, Breckenridge, Chesapeake, Clifton, Coralville, Cosmopolitan, Georgetown, Harbor, Huntingford, Lehigh, Medina, Melbourne, Renwick, Richland, Ridgeville, Roanoke, Roseville, Salem, Stockton, Stratford, Taft, Tipton, Tucson, Tudor
Upcharge	$27 per drawer header
Block	9830

NOTES/CAUTIONS

1. If you specify a REGENT PROFILE, the five piece-header, furniture pegs, bevel pull, finger route and locks are not available.
2. A Regent Profile on a desk drawer (DKV) reduces the center panel to about one inch high. Larger styles of decorative hardware may not fit in this area.
3. A flip down header (Blocks 2310, 2315, 2340) is not available with a REGENT PROFILE.
4. Drawer header with a Regent Profile is ¾" thick at center and approximately ⅜" thick at outer step, near edge.

HOW TO ORDER A REGENT PROFILE

- Check REGENT PROFILE in the STYLING OPTIONS box, found on the first page of the Order Form.
- Specify REGENT PROFILE as a separate line item
- To price, total the drawers and drawer headers in the order, multiply by the REGENT PROFILE charge, and specify the total in the price column.
- This option is applied to the entire order.



PROFILED HEADER

This modification replaces the standard slab header with a profiled header. The grain runs horizontally.

Door Styles	Accord, Alite, Arlington, Bell Gardens, Breckenridge, Ellington, Georgetown, Glendale, Hanover, Huntingford, Lehigh, Melbourne, Peabody, Prescott, Redcliff, Ridgeville, Sundance, Syracuse, Tudor, Venice, Verona, Westerly
Upcharge	$33 per drawer header
Block	9835

NOTES/CAUTIONS

1. If you specify a PROFILED HEADER, the five piece-header, optional edges, furniture pegs, bevel pull and finger route options are not available.
2. A Profiled Header on a desk drawer (DKV) reduces the center panel to about one inch high. Larger styles of decorative hardware may not fit in this area.
3. Rolled profile coordinates with doors with a rolled center panel profile. Scooped profile coordinates with a scooped or H center panel profile. See block 9835 for more details.

HOW TO ORDER A PROFILED HEADER

- Check PROFILED HEADER in the STYLING OPTIONS box, found on the first page of the Order Form.
- Specify PROFILED HEADER as a separate line item
- To price, total the drawers and drawer headers in the order, multiply by the PROFILED HEADER charge, and specify the total in the price column.
- This option is applied to the entire order.

WHAT TO EXPECT WHEN YOU ORDER CABINETS WIDER THAN 24" IN HAMPTON

The center panel in Hampton doors are beaded. When we manufacture them for a cabinet that is wider than 24", the drawer header is built with seven-piece construction so the beads on the drawer header will align with the beads on the doors' center panel, as pictured in illustration A.

To align the beading in drawer bases, we also use seven-piece construction, plus a wide center stile. This is illustrated below in B, C and D.

Illustration A.

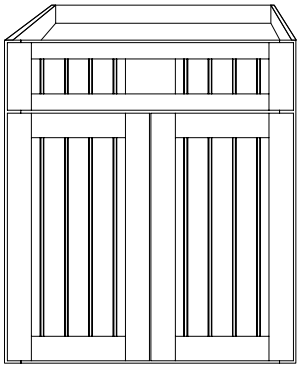

Illustration B.
DB36

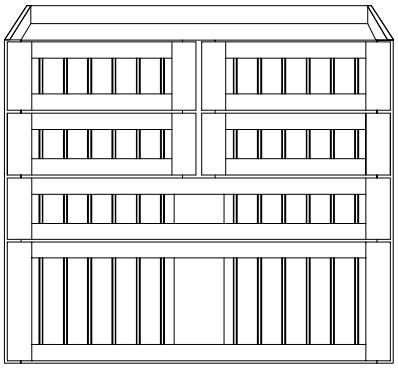

Illustration C.
3DB27, 3DB30, 3DB33 and 3DB36

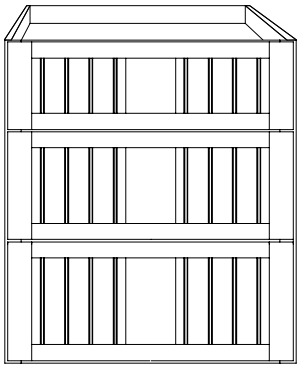

Illustration D.

NOTES/CAUTIONS

1. **CAUTION:** Door may expand in humid climates. See Policies & Procedures: Climate Considerations.
2. Door and drawer hardware required.
3. Glaze hang-up may not be noticeable on this door style, but the glaze will change the tone of the stain.
4. On Tip Up and Bifold Door cabinets greater than 24" in width, Monroe doors have horizontal grain.

Full Access for Modern door styles

A cabinet that is 24" to 42" wide can be manufactured without the face frame center mullion. To order, prefix the cabinet nomenclature with a **2.** Styling will be butt doors. This is a no-charge option.

Specialty

- Amaretto

! A sample door is the best way to illustrate Specialty finish characteristics. We encourage you to order a 13x16 sample door or FF&D sample door.

Old World Distressing is created by randomly applying several distressing techniques, softening all edges, and adding a glaze to accentuate the distressing. A clear top coat is applied. The finish is oven-cured for durability.

TECHNIQUES USED

No additions or deletions allowed:

- Dips
- Light Chain Distressing
- Knife Cuts
- Rasping
- Rounded Corners
- Worm Holes
- Worn Edges
- No Spattering

MATTE TOP COAT NEW!

Matte Top Coat is available on Stain with Glaze combinations with Old World Distressing. There is no upcharge for the Matte Top Coat when applied on Old World Distressing. The Old World Distressing upcharge still applies.

OLD WORLD DISTRESSING

Upcharge 15%

This upcharge is inclusive of all other upcharges associated with the finish you select. For example, when you specify Old World Distressing for Amaretto, the upcharge is 15%. It will not be 15% for Old World Distressing plus 15% for Amaretto.

Winterhaven	Allentown Amsdahl Ballinger NEW! Charlotte Danburg Evaro NEW! Gillette Lafayette Laforest Mackay Montico Rocheport Rutland NEW! Victor NEW! Xenon
Frame Styles	Beaded Flush	
Hinge Styles	Finial Concealed	

With Inset Cabinetry, you and the homeowner need to understand:

- Quality installation is a must. Inset cabinetry is manufactured with tight reveals. StarMark Cabinetry takes great care to create square, true cabinets. If cabinets are not installed properly, doors may appear warped even when they are not. Every homeowner should expect their walls and floors to have variations; a well-qualified installer can properly shim Inset cabinetry so it does not become out of square.
- Homeowners should be prepared to adjust their doors seasonally as temperatures change. Instructions are shipped with every order, and an adjustment instruction sheet is posted on OneTouch in Install & Care, within the Product Info + Resources section..
- The wall, utility wall and wall base inset cabinetry will be 12" deep. The standard inside storage dimension is 10¾". Unless the cabinetry depth is modified to a greater depth, the cabinet will not accommodate oversized plates or dinnerware. Depth can be modified from 12"-15" in ½" increments:
  Inset Wall Increased Depth INDIW No Charge
  Increases in depth beyond 15" is the standard upcharge.
- Inset cabinetry is on an eight week or longer Cycle Ship.

How to Order Inset Cabinetry

- Use the Inset Cabinetry Order Form
- To order sample doors, use the Inset Sample Order Form
- The Inset Product Awareness Agreement must be signed and sent in with the order.
- Inset order forms and the Inset Product Awareness Agreement are posted on OneTouch in Forms, within the Orders section.

How to Price Inset Cabinetry

1. Add cabinets, accessories, and modifications together.
2. Add upcharge for finish.

Cabinets	$	
Accessories	$	
Modifications	$	
	Subtotal	
Finish Upcharge	%	of subtotal
	Total	

How to determine which cabinets and accessories are available in Inset.

1. Make sure you select cabinets that are available in Inset. Then, use the Face Frame Alignment in this section for Inset face frame openings.
2. Look for the Inset icon within the block and also within the accessory and modifications catalog sections. If the block has the Inset icon, the cabinet, accessory, or modification is available in inset.
3. Pay close attention to any Inset Notes/Caution information within the individual blocks. **NOTE: a few cabinets are not available with the concealed hinge.**

Butt Doors: 2W2418, 2W2718, 2W3018, 2W3318, 2W3618, 2W3918, 2W4218

Fixed Mullion: W3018, W3318, W3618, W3918, W4218, W4518, W4818

DESIGN CONSIDERATIONS
18" High - 12" Deep
• No shelf
• In Modern Overlay 18" high wall cabinets will not align with WSCK cabinets. Use 19" high cabinets for proper alignment. 18" high cabinets will align with WSCK cabinets in Inset and Traditional Overlay.

HOW TO ORDER
• Specify **L** or **R** hinging on Single Door cabinet
• W13S__, W16S__,W19S__, W22S__, are half sizes. For example, W13S__ is 13½ wide.
• Pricing P-2

NOTES/CAUTION
• 9" wide cabinets are not available in inset.

STARMARK INSET

1. END PANELS

¾" thick unfinished veneer core plywood glued and stapled into face frame dadoes for rigidity. Wall, base, and utility cabinets are bored to receive adjustable shelf supports. There is a ¼" reveal behind the frame.

OPTIONS

- Finished end panels: block 9020. When you specify a Tinted Varnish, a Tinted Varnish with glaze, and specialty colors that have a Tinted Varnish base, for example, Homestead or Amaretto, the end panel will have MDF crossband as the exterior ply. This material assures the best possible finish. To create a Finished end panel, in all species, we use an end panel that has MDF crossband as the secondary ply. This material assures the best surface for the exterior veneer to be applied to, and this in turn results in the best possible finish.
- Furniture end panels: block 9030. This eliminates the ¼" reveal. When you specify a Tinted Varnish, a Tinted Varnish with glaze, and specialty colors that have a Tinted Varnish base, for example, Homestead or Amaretto, the end panel will have MDF crossband as the exterior ply. This material assures the best possible finish.
- Flush end panels: block 9040. This eliminates the ¼" reveal. When you specify a Tinted Varnish, a Tinted Varnish with glaze, and specialty colors that have a Tinted Varnish base, for example, Homestead or Amaretto, the end panel will have MDF crossband as the exterior ply. This material assures the best possible finish.
- Beaded Flush end panels: block 9045. This eliminates the ¼" reveal.
- Integrated Matching Decorator Panel: block 9060. This eliminates the ¼" reveal.
- Face Frame and Door on Cabinet End: block 9070. This eliminates the ¼" reveal.

2. TOPS & BOTTOMS

Cabinet tops and bottoms are nominal ½" veneer plywood and they are surfaced with natural birch melamine (for added moisture resistance and cleanability) on the interior and exterior, glued to the face frame dado and end panel dado, then glued and stapled into the back rail for rigidity.

3. BACKS

Backs are nominal ½" veneer core plywood with veneer exterior and natural birch melamine interior. Backs are secured to the top/bottom rabbet and end panel rabbet with staples and glue.

OPTIONS

- Finished Back block 9410. The standard back is replaced with a ¾" veneer core plywood panel that has been finished. Perfect for when the back of the cabinet will be visible, such as island and peninsula applications.
- Finished Panel Back block 9420. The standard back is replaced with an Authentic Desk Island panel (wainscot).

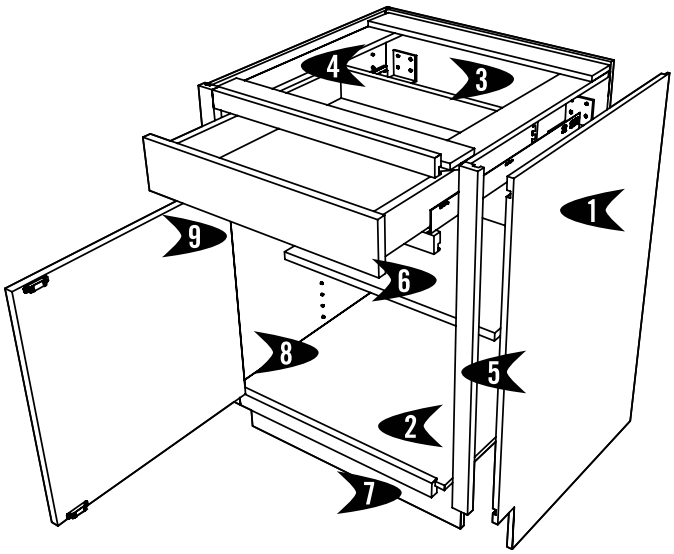
4. SUPPORT RUNNERS

Support runners are nominal ½" thick veneer core plywood that connect face frame, end panels and cabinet back on base cabinets. Horizontal supports are ½" thick veneer core plywood that provide extra support on base cabinets.

5. FACE FRAMES

Face frames are ¾" thick select solid hardwood. Rails and stiles are joined with concealed screws and glue. Rails and stiles are dadoed to receive end panels, tops and bottoms.

Inset cabinetry depth can be modified from 12" - 15" in ½" increments: **Inset Wall Increased Depth INDIW No Charge**



6. SHELVES

Wall and base shelves are ¾" thick hardwood plywood surfaced with natural birch melamine. Base shelves are two-thirds depth.
All wall cabinet shelves and base cabinet shelves are adjustable.
Matching edge banding is attached to front of shelf.
Cabinets ordered with finished veneer interiors receive ¾" veneer core plywood shelves with veneer on both sides. The shelves receive stain, sealer and top coat.

OPTIONS

- Full depth shelves: block 9460

7. TOE BOARDS

Toe boards are unfinished nominal ½" thick veneer core plywood, stapled to and located between the end panels. Plywood (veneer) toe board trim (block 12200) is recommended to cover the toe boards.

8. INTERIOR

Cabinet interiors are surfaced with natural birch melamine.

OPTIONS

- Cabinets ordered with Finished Veneer Interior (block 9480) have hardwood veneer on the interior. It is stained, sealed and topcoated. The shelves are plywood veneer.
- Cabinets ordered with Maple Natural Veneer Interior (block 9470) have maple natural veneer on all interior surfaces—top, bottom, shelves, side panels, back panel and drawer bottom. Tops and bottoms of wall cabinets have maple natural veneer on the exterior.

9. HINGES

A full-wrap finial hinge is standard on all Inset cabinetry doors. Finial hinges are in five colors; Dark Oil Rubbed Bronze, Matte Nickel, Black, Pewter and Copper Bronze. See Products in Color. With finial hinges, two magnets are attached to the top and bottom of each door.
Concealed inset hinges are an option on all Inset cabinetry doors. The swing of a door with a concealed inset hinge is 110-120 degrees. Additionally, the swing of the door may be restricted by adjacent cabinetry, decorative hardware and other items. Concealed hinges may limit some cabinet choices, shelf placement and may be visible through glass doors more than finial hinges. Concealed inset hinges include soft close.

StarMark Inset Cabinetry uses plywood for end panels, tops, bottoms, shelves and backs. Compare our material to other cabinetry companies.

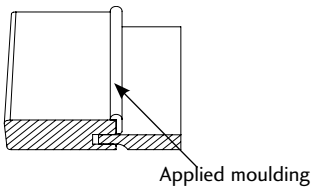
Vanity Cabinets	Yes			



NOTES/CAUTIONS

1. 5-piece drawer header only available on drawer headers 5½″ tall and greater.
2. Door and drawer hardware required.
3. No outside edge treatments available.
4. On Rustic Alder inset cabinetry, the doors and drawer headers are Rustic Alder and the face frames are standard Alder.
5. See Xavier for overlay option.
6. On Rustic doors, the door frame and the X crossmembers are rustic. The center panel is not rustic.
7. Doors less than 10⅜″ in width are built without X crossmembers.
8. The grain on the drawer header center panel runs horizontally.
9. The Xenon door style is not available in the Villa finish.

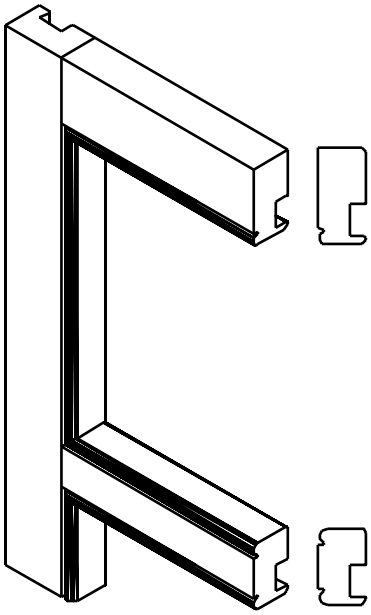
FACE FRAMES

There are two styles of face frames for Inset: Beaded Inset and Flush Inset.

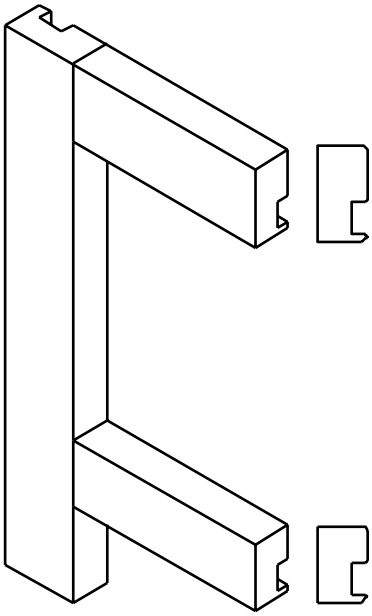
Beaded Inset Face Frame

Openings of face frame feature a ¼" machined integral bead.



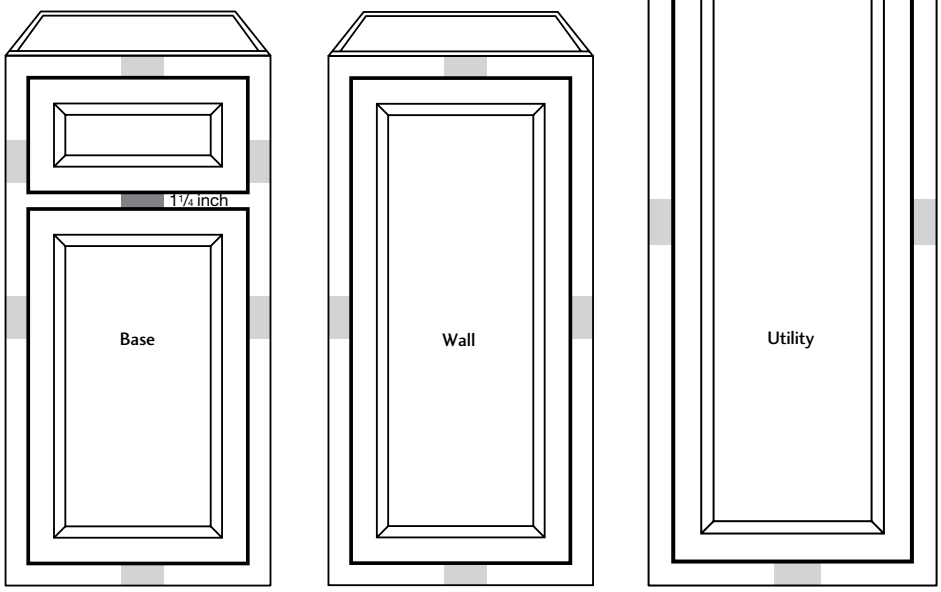
Flush Inset Face Frame

Openings of face frame are square.



FACE FRAME REVEAL

Inset face frame reveals are 1½" unless noted.



© Copyright StarMark Cabinetry **FEBRUARY 2022**

INSET CABINETRY, CONCEALED HINGES AND FACE FRAME AND DOOR CONSIDERATIONS

When specifying concealed hinges with a face frame and door on end configuration, please note the following:

- Concealed hinges cannot be hinged on the same corner as a face frame and door on end, without a wide stile of 4" or greater specified on either corner.
- Concealed hinges protrude into the face frame and door (FFD) opening on edge by approximately 2".
- Concealed hinges are very visible through glass doors.
- Concealed hinges affect where shelves can be placed.
- Concealed hinges limit cabinet availability.

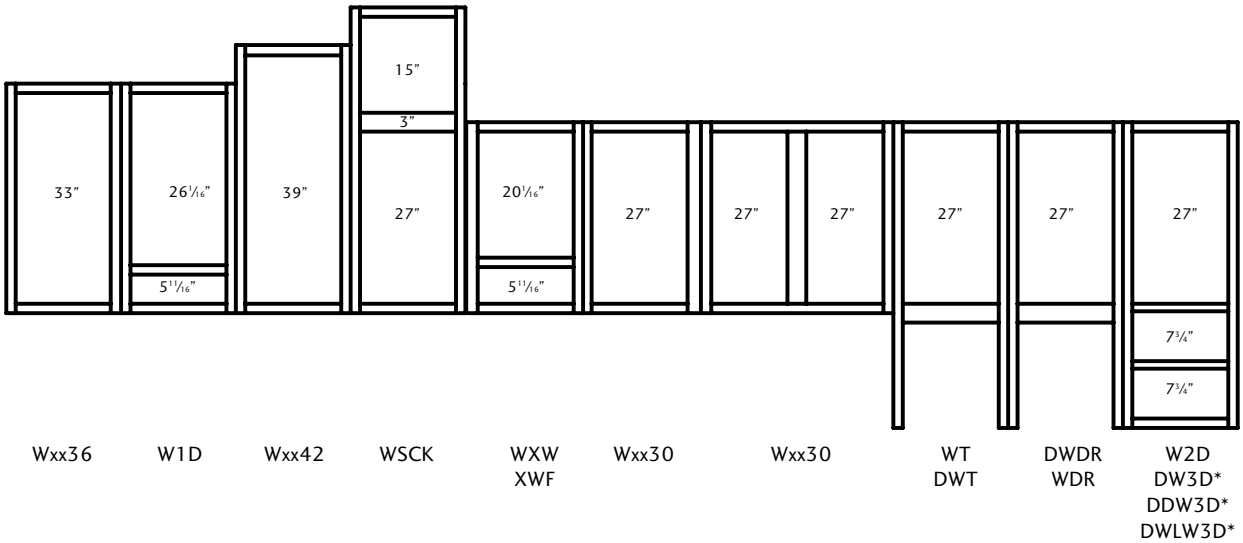
INSET WALL CABINET ALIGNMENT



* Two drawer cabinets in Inset construction

Inset wall cabinets are 12" deep. The standard inside storage dimension is 10¾". Unless the cabinetry depth is modified to a greater depth, the cabinet will not accommodate oversized plates or dinnerware. Depth can be modified from 12" to 15" in ½" increments:
Inset Wall Increased Depth INDIW No Charge
Increases in depth beyond 15" is the standard upcharge. See block 9080 for Dimensional Modifications.

Standards for Single Door Inset Wall Cabinets

- Wall Cabinets are not available 9" wide.
- Depth is 12".
- Vertical stiles on the cabinet frame are 1½".
- Outside horizontal rails on the cabinet frame are 1½".
- Intermediate horizontal rails on the cabinet frame are 1¼" unless noted.
- Subtract 3" from the cabinet width to obtain the width of the opening for any Single Door Inset wall cabinet.
- Subtract 3" from the cabinet height to obtain the height of the opening for any Single Door Inset wall cabinet.

I Inset cabinetry depth can be modified from 12" to 15" in ½" increments:
Inset Wall Increased Depth INDIW No Charge

Standards for Double Door Inset Wall Cabinets

- Depth is 12".
- Vertical stiles on the cabinet frame are 1½".
- Outside horizontal rails on the cabinet frame are 1½".
- Intermediate horizontal rails on the cabinet frame are 1¼" unless noted.
- Vertical center mullions are 3" wide.
- A prefix of "2" denotes a cabinet built with butt doors. The cabinet is considered "full access" because there is no center mullion.
- Butt doors are not available in cabinets that are wider than 42". Cabinets wider than 42" will have a fixed center mullion. A fixed center mullion is necessary for stability.
- To compute the width of the opening on a Double Door Inset wall cabinet, subtract 6" from the cabinet width and divide by 2.
- To compute the width of the opening on a Butt Door Inset wall cabinet, subtract 3" from the cabinet width.
- Subtract 3" from the cabinet height to obtain the height of the door opening.

Standards for Single Door Inset Base Cabinets

- Base Cabinets are not available 9" wide.
- Depth is 24".
- Height is 34½".
- Vertical stiles on the cabinet frame are 1½".
- Outside horizontal rails on the cabinet frame are 1½".
- Intermediate horizontal rails on the cabinet frame are 1¼".
- Toe kick height is 4".
- Toe kick depth is 2⅝".
- Door opening height is 20 9/16", below a drawer.
- Drawer opening height is 5 11/16".
- To compute the door/drawer opening width on a Single Door Inset base cabinet, subtract 3" from the cabinet width.
- For any Inset base cabinet with full height doors, the height opening is 27½". To compute the door/drawer opening width, subtract 3" from the cabinet width.

The wall base cabinetry will be 12" deep. The standard inside storage dimension is 10¾". Unless the cabinetry depth is modified to a greater depth, the cabinet will not accommodate oversized plates or dinnerware. Depth can be modified from 12"-15" in ½" increments:

Inset Wall Increased Depth INDIW No Charge

Increases in depth beyond 15" is the standard upcharge. See block 9080 for Dimensional Modifications.

Standards for Double Door Inset Base Cabinets

- Depth is 24".
- Height is 34½".
- Vertical stiles on the cabinet frame are 1½".
- Outside horizontal rails on the cabinet frame are 1½".
- Intermediate horizontal rails on the cabinet frame are 1¼".
- Toe kick height is 4".
- Toe kick depth is 2⅝".
- Door opening height is 20 9/16", below a drawer.
- Drawer opening height is 5 11/16".
- A prefix of "2" denotes a cabinet built with butt doors. The cabinet is considered "full access" because there is no center mullion.
- Butt doors are not available in cabinets that are wider than 42". Cabinets wider than 42" will have a fixed center mullion. A fixed center mullion is necessary for stability.
- Butt door cabinets have full width drawers.
- To compute the width of the opening on a Double Door Inset base cabinet, subtract 6" from the cabinet width and divide by 2.
- To compute the width of the opening on a Butt Door Inset base cabinet, subtract 3" from the cabinet width.
- For any Inset base cabinet with full height doors, the height opening is 27½". Width opening is calculated using the same formulas described above.

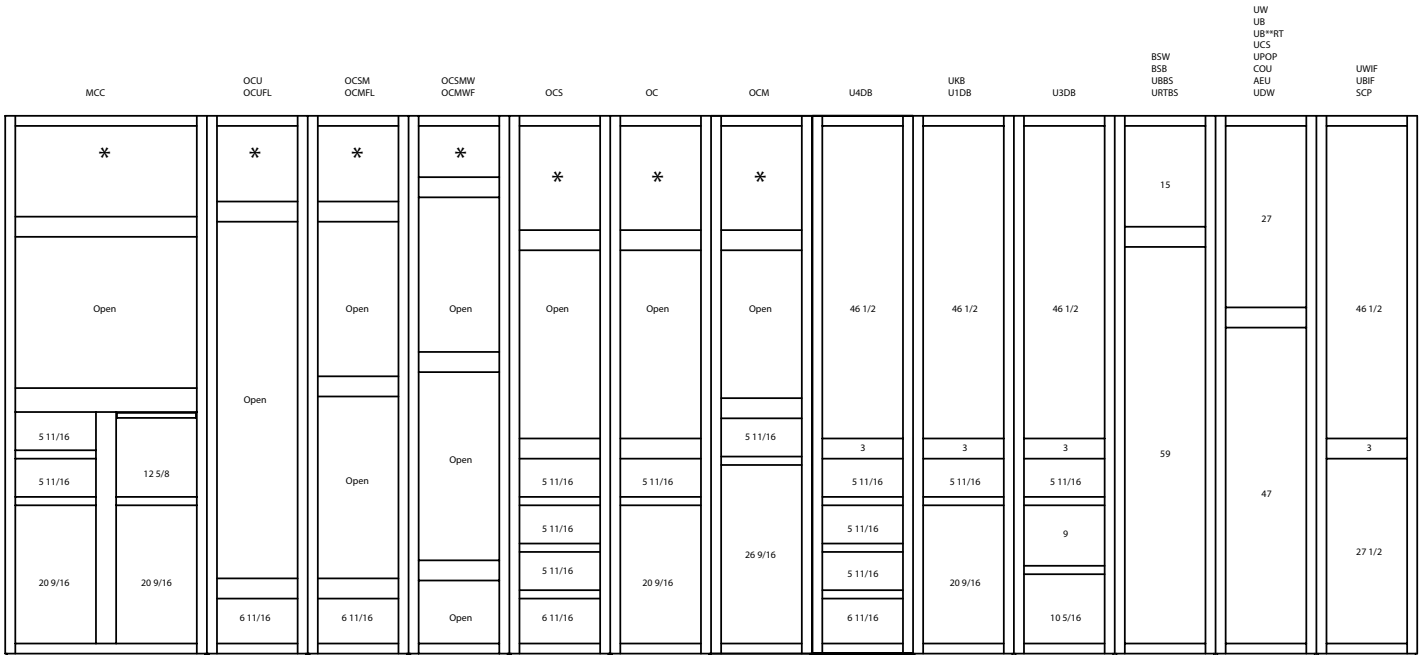
INSET UTILITY CABINET ALIGNMENT FRAME OPENINGS



Standards for Single Door Inset Utility Cabinets

- Utility Cabinets not available 9” wide.
- Depth is 12” and 24”.
- Vertical stiles on the cabinet frame are 1½”.
- Outside horizontal rails on the cabinet frame are 1½”.
- Intermediate horizontal rails on the cabinet frame are 1¼” and 3”.
- Toe kick height is 4”.
- Toe kick depth is 2⅝”
- The opening of the top door varies for cabinets higher than 84”.

  Top door opening increases
  - 12” for 96” tall cabinet
  - 9” for the 93” tall cabinet
  - 6” for the 90” tall cabinet
  - 3” for the 87” tall cabinet

  Top door opening decreases
  - 3” for the 81” tall cabinet.
- To compute the door opening width on a single door utility cabinet, subtract 3” from cabinet width.

The utility wall cabinetry will be 12” deep. The standard inside storage dimension is 10¾”. Unless the cabinetry depth is modified to a greater depth, the cabinet will not accommodate oversized plates or dinnerware. Depth can be modified from 12”-15” in ½” increments:

Inset Wall Increased Depth INDIW No Charge

Increases in depth beyond 15” is the standard upcharge. See block 9080 for Dimensional Modifications.

Standards for Double Door Inset Utility Cabinets

- Depth is 12” and 24”.
- Vertical stiles on the cabinet frame are 1½”.
- Outside horizontal rails on the cabinet frame are 1½”.
- Intermediate horizontal rails on the cabinet frame are 1¼” and 3”.
- Vertical center mullions are 3” wide.
- Toe kick height is 4”.
- Toe kick depth is 2⅝”.
- The opening of the top door varies for cabinets higher than 84”.

  Top door opening increases
  - 12” for 96” tall cabinet
  - 9” for the 93” tall cabinet
  - 6” for the 90” tall cabinet
  - 3” for the 87” tall cabinet

  Top door opening decreases
  - 3” for the 81” tall cabinet
- A prefix of “2” denotes a cabinet built with butt doors. The cabinet is considered “full access” because there is no center mullion.
- Butt doors are not available in cabinets that are wider than 42”. Cabinets wider than 42” will have a fixed center mullion. A fixed center mullion is necessary for stability.
- Butt door cabinets have full width drawers.
- To compute the width of the opening on a Double Door Inset utility cabinet, subtract 6” from the cabinet width and divide by 2.
- To compute the width of the opening on a Butt Door Inset utility cabinet, subtract 3” from the cabinet width. Subtract 3” from the cabinet height to obtain the height of the opening.

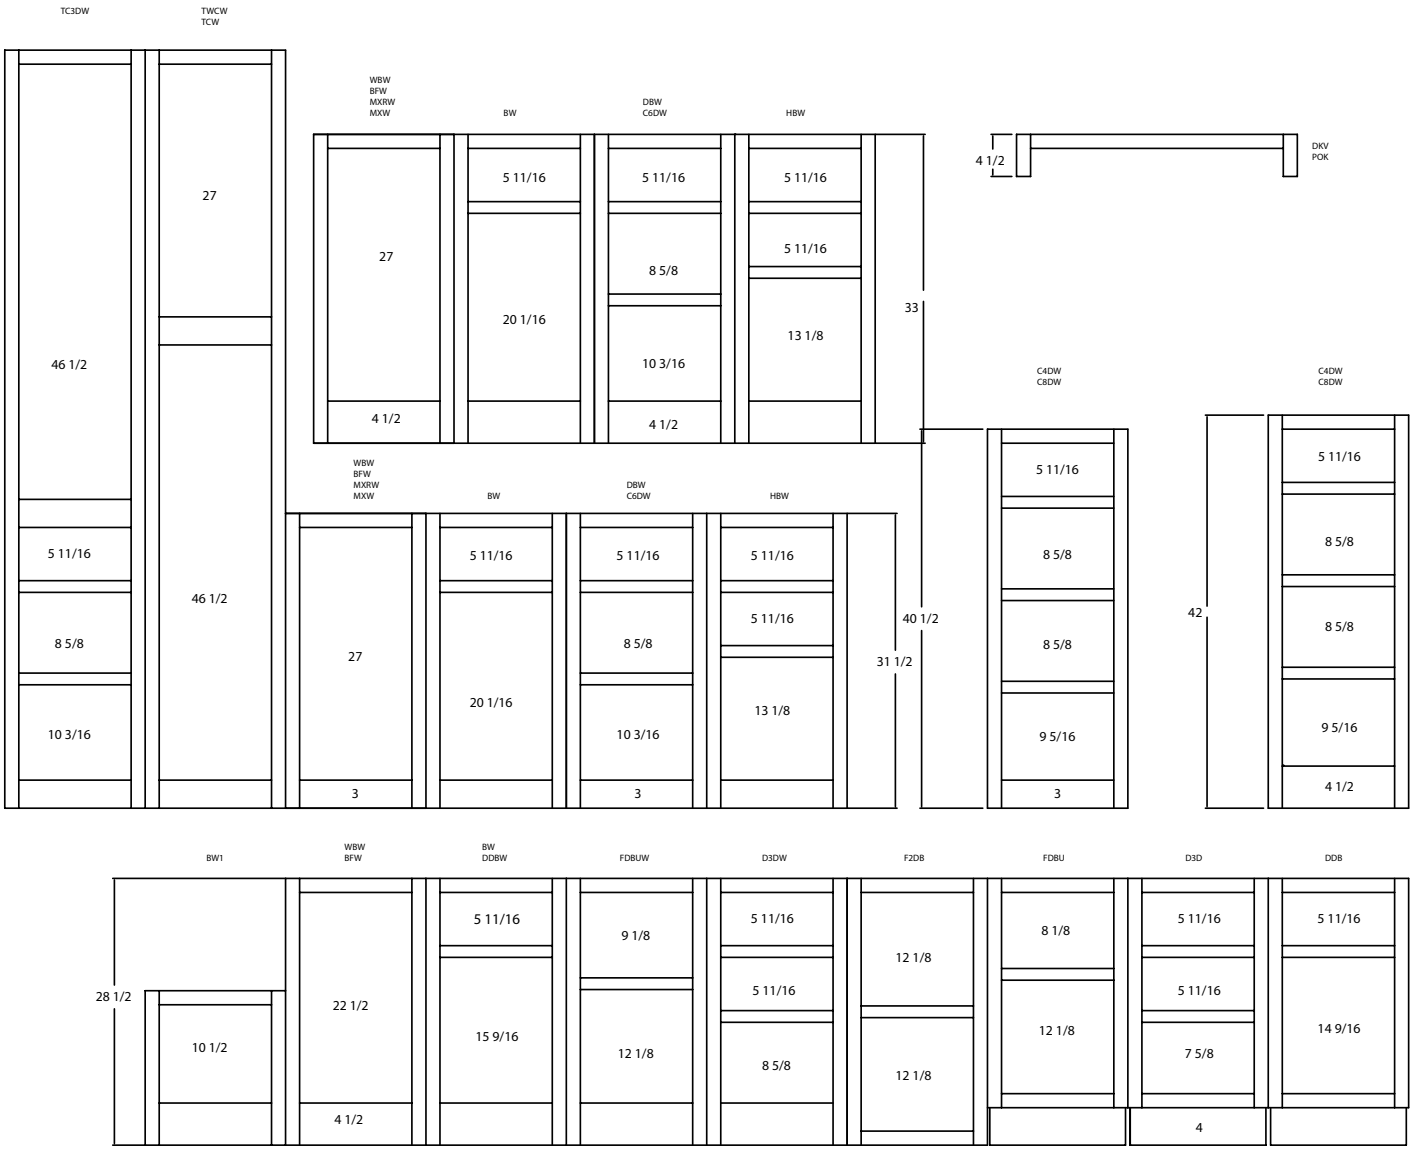
INSET OTHER ROOM CABINET ALIGNMENT FRAME OPENINGS



Standards for Single Door Inset Other Room Cabinets

- Depth is 21". Depths of 18" and 24" are available and must be specified.
- Height of tall cabinets is 81" or 82½".
- Height of base cabinets is 28½", 31½", 33", 40½" or 42".
- Wide bottom rails are 3" or 4½".
- Vertical stiles on the cabinet frame are 1½".
- Outside horizontal rails on the cabinet frame are 1½".
- Intermediate horizontal rails on the cabinet frame are 1¼" or 3".
- To compute the door/drawer opening width on a Single Door Inset Other Room cabinet, subtract 3" from the cabinet width.

Standards for Double Door Inset Other Room Cabinets

- Depth is 21". Depths of 18" and 24" are available and must be specified.
- Height of tall cabinets is 81" or 82½".
- Height of base cabinets is 28½", 31½", 33", 40½" or 42".
- Wide bottom rails are 3" or 4½".
- Vertical stiles on the cabinet frame are 1½".
- Outside horizontal rails on the cabinet frame are 1½".
- Intermediate horizontal rails on the cabinet frame are 1¼" or 3".
- Vertical center mullions are 3" wide.
- A prefix of "2" denotes a cabinet built with butt doors. The cabinet is considered "full access" because there is no center mullion.
- Butt doors are not available in cabinets that are wider than 42". Cabinets wider than 42" will have a fixed center mullion. A fixed center mullion is necessary for stability.
- Butt door cabinets have full width drawers.
- To compute the width of the opening on a Double Door Inset Other Room cabinet, subtract 6" from the cabinet width and divide by 2.
- To compute the width of the opening on a Butt Door Inset Other Room cabinet, subtract 3" from the cabinet width. Subtract 3" from the cabinet height to obtain the opening height.

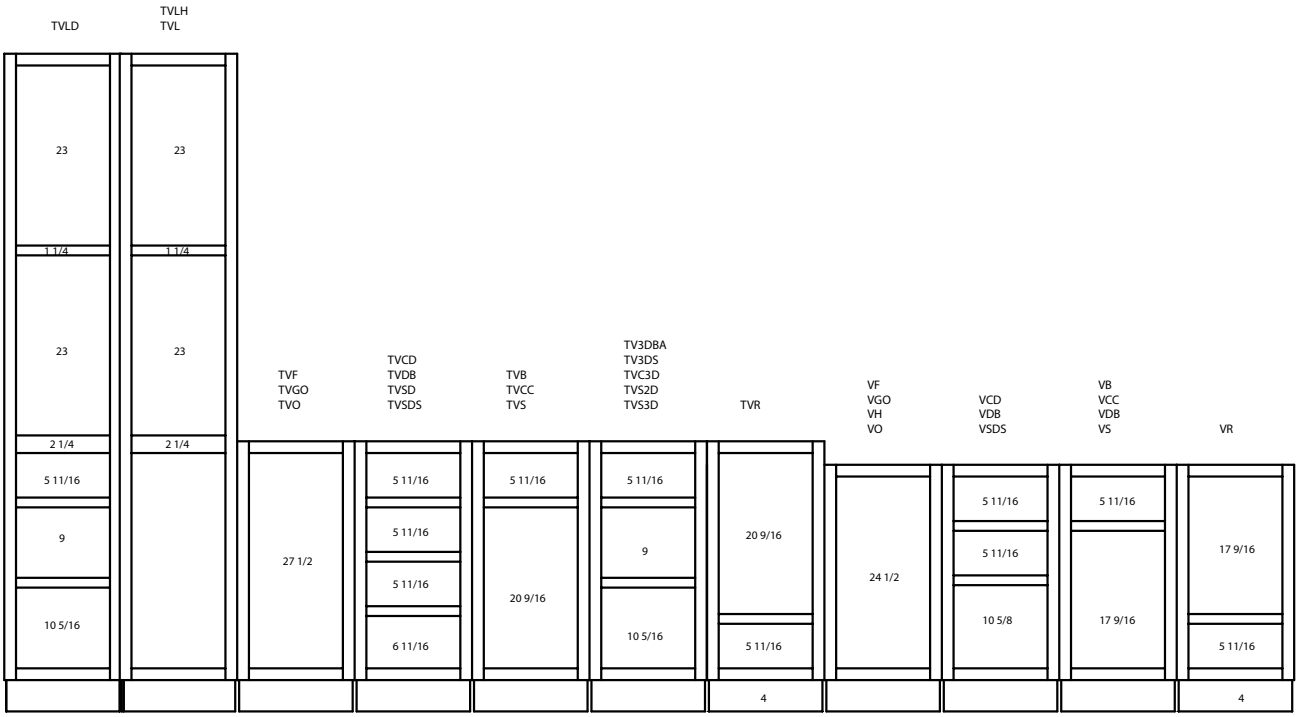
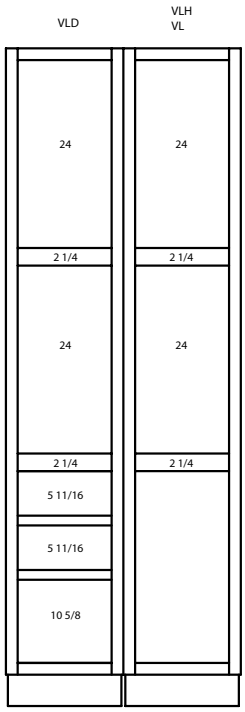
INSET VANITY CABINET ALIGNMENT FRAME OPENINGS





Standards for Single Door Inset Vanity Cabinets

- Heights are 31½", 34½" and 84"
- Depths are 18" and 21" unless noted.
- Vertical stiles on the cabinet frame are 1½".
- Outside horizontal rails on the cabinet frame are 1½".
- Intermediate horizontal rails on the cabinet frame are 1¼".
- Toe kick height is 4".
- Toe kick recess is 2⅝".
- Subtract 3" from the cabinet width to obtain the width of the opening for any Single Door Inset vanity cabinet.
- Door opening height is 17 9/16" or 20 9/16".
- Drawer opening height is 5 11/16".

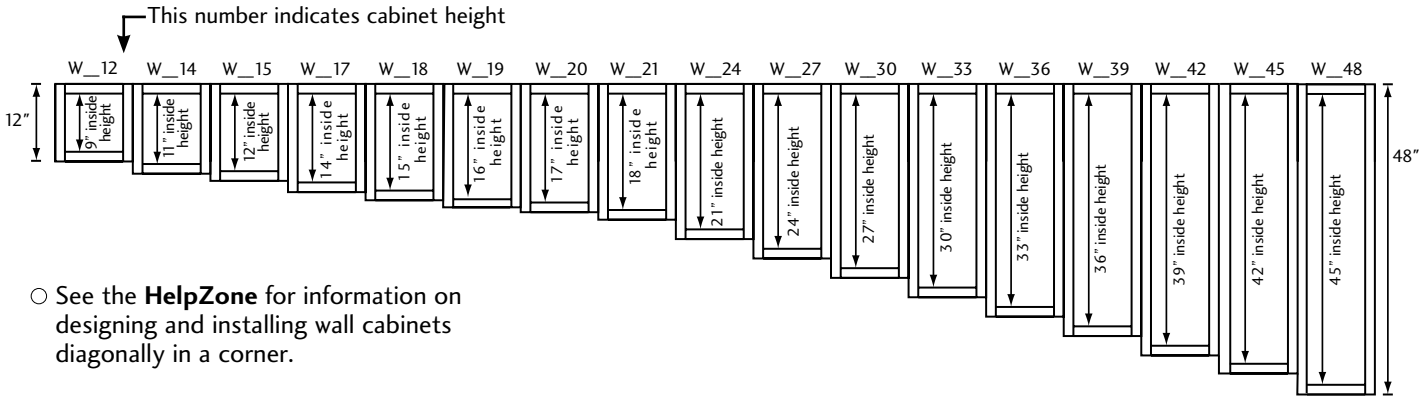
Wall Cabinet Alignment



○ See the **HelpZone** for information on designing and installing wall cabinets diagonally in a corner.

Standards for Single Door Wall Cabinets

○ Depth is 12".

○ Vertical stiles on the cabinet frame are 1½" wide.

○ Horizontal rails on the cabinet frame are 1½" high.

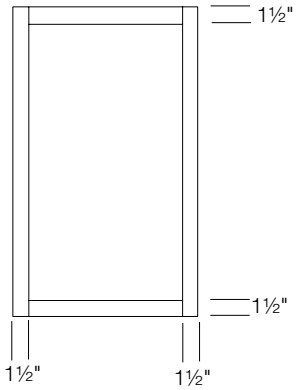
○ Subtract 3" from the cabinet width to obtain the width of the opening for any **Single Door** standard wall cabinet.

○ Subtract 3" from the cabinet height to obtain the height of the opening for any **Single Door** standard wall cabinet.

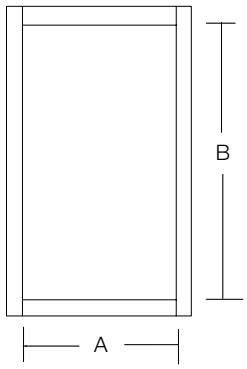
○ **Mortise and tenon doors greater than 42" high will have a center rail.**

○ Mitered doors that are 42" or higher will receive a single panel door.

Single Door Standard Wall Cabinet



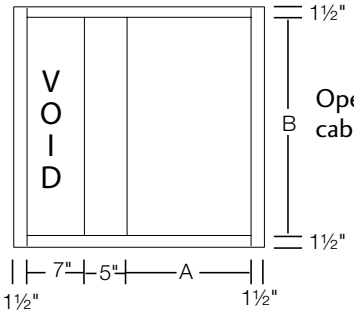
Compute the door opening



Opening height (B) is cabinet height minus 3".

Opening width (A) is cabinet width minus 3".

Square Wall Cabinet with single opening



Opening height (B) is cabinet height minus 3".

DESIGN CONSIDERATIONS

24" Deep

- 12"-19" high cabinets have no shelves
- In Modern Overlay 18" high wall cabinets will not align with WSCK cabinets. Use 19" high cabinets for proper alignment. 18" high cabinets will align with WSCK cabinets in Inset and Traditional Overlay.

HOW TO ORDER

- Specify **L** or **R** hinging on Single Door cabinet
- To calculate the height of the cabinet over the refrigerator, subtract overall height of the refrigerator, including its hinges, from the installation height. Common installation heights are 84", 90", and 96". For proper airflow, see refrigerator specifications.
- Pricing P-15-16

INSTALLATION TIP

Wall cabinets greater than 18" deep must be secured to soffit or ceiling OR supported by a full height, 24" deep end panel or utility cabinet, in which case, the other side must also be supported by a wall cabinet, minimum 12" deep.

NOTES/CAUTION

- 9" wide cabinets are not available in inset.

Block 1102 Wall Pantry

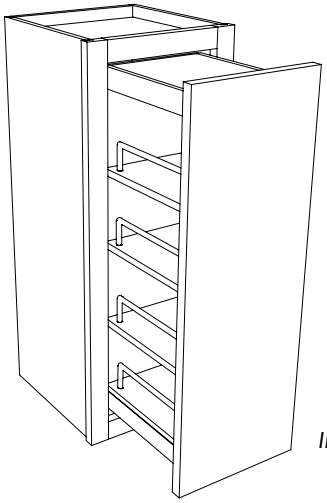

Illustration shows 30″ high cabinet

WPPTY0930
WPPTY1230
WPPTY0936
WPPTY1236

DESIGN CONSIDERATIONS

30″, 36″ High - 12″ Deep

- 30″ & 36″ high cabinets have 3 adjustable wood shelves and 1 fixed wood shelf.
- 36″ high cabinet has 1 additional fixed shelf storage at top with chrome wire sides
- No reduced height/depth/width modifications are allowed.
- Internal kit remains the same size, regardless of dimensional modification. When increasing the width, order with wide stiles to avoid side to side movement.
- Pull out pantry shelves are wood with chrome accents. They extend fully.
- Soft close hinges are not available on this cabinet.

HOW TO ORDER

- Pricing P-21

NOTES/CAUTION

- 9″ wide cabinets are not available in inset.
- Cabinet must be at least 12½″ deep for inset.

DESIGN CONSIDERATIONS

24″, 27″, 30″, 33″, 36″, 39″, 42″, 45″, 48″ High - 12″ Deep

- If you are specifying the Arlington, Bell Gardens, Ellington, Glendale, Peabody, Prescott, Redcliff, Syracuse, Venice or Verona door style, note that SCW21__ will be constructed with a flat panel door.
- If you are specifying the Melbourne door style, note that SCW21__ will be built with 2¼″ stiles to maintain the raised center panel.
- End panels are shifted to outside frame edge, eliminating ¼″ reveal. End panels are not flush. See detail.
- Soft close hinges are not available on this cabinet.
- Mortise and tenon doors greater than 42″ high will have a center rail.
- Doors modified to 1⅞″ stiles not recommended with Insert or Mullion door modification on this cabinet.
- If you are specifying a Traditional overlay door style, note that the doors on the SCW21__ will be constructed with 1⅞″ stiles.

DESIGN CONSIDERATIONS

24", 27", 30", 33", 36", 39", 42", 45", 48" High - 12" Deep

- If you are specifying the Arlington, Bell Gardens, Ellington, Glendale, Peabody, Prescott, Redcliff, Syracuse, Venice or Verona door style, note that ASCW21__ will be constructed with a flat panel door.
- If you are specifying the Melbourne door style, note that ASCW21__ will be built with 2¼" stiles to maintain the raised center panel.
- If you are specifying a Traditional overlay door style, note that the smaller door will be built with 1⅞" stiles.
- Nomenclature reads: first set of numbers is left width, second set is right width and last set of numbers is height. For example: ASCW272424 is 27" wide on the left side, 24" wide on the right side and 24" in height.
- End panels are shifted to outside frame edge, eliminating ¼" reveal. End panels are not flush. See detail.
- Soft close hinges are not available on this cabinet.
- Mortise and tenon doors greater than 42" high will have a center rail.
- Doors modified to 1⅞" stiles not recommended with Insert or Mullion door modification on this cabinet.

DESIGN CONSIDERATIONS

45", 48", 51", 54", 57", 60", 63", 66" High - 12" Deep

- Upper area is 15" high for display or seasonal storage
- Adjustable shelves in lower opening. See chart.
- When arched door style is specified for order, arch doors on top door only
- End panels are shifted to outside frame edge, eliminating ¼" reveal. End panels are not flush. See detail.
- When a Modern overlay door style is specified, the doors will have a ¼" space between the top and bottom door. The top door will not align with cabinets stacked on job site or stand alone 18" high wall cabinets.
- Mortise and tenon doors greater than 42" high will have a center rail.
- Doors modified to 1⅞" stiles not recommended with Insert or Mullion door modification on this cabinet.

HOW TO ORDER

- Specify **L** or **R** hinging
- If upper section is for display, specify ID doors for the upper section. The entire cabinet will receive a Finished Veneer Interior (see block 9480 for information).
- Pricing P-35

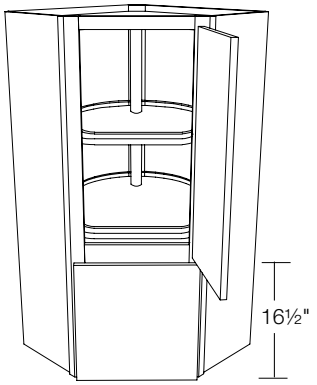
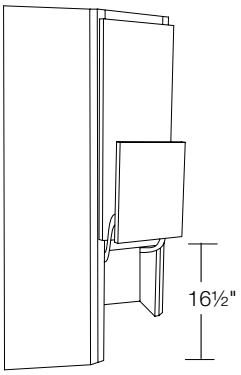
Block 1509 Diagonal Wall with Chrome/Wood Lazy Susan and Lift Up Door





DWLDRU2448

DWLDRU2454

DWLDRU2460

DESIGN CONSIDERATIONS

48", 54", 60" High - 12" Deep

- Pole is placed on the back of the turntables for optimal storage
- 20" "D" shaped wood turntables have chrome railings and non-skid surface
- No bottom frame rail in lower opening
- Opening clearance of lift up mechanism is 15"
- Lift system raises the door, holds it open and includes soft close
- When arched door style is specified on order, arch door on top door only
- Mullion doors not available on lower door
- Modern overlay doors are automatically reduced in width for clearance when installed next to other cabinets with doors.
- No cabinet back in lower appliance area for access to wall outlets
- Mortise and tenon doors greater than 42" high will have a center rail.
- In the open position, the door extends past the face frame approximately 9¼".

HOW TO ORDER

- Specify **L** or **R** hinging
- Pricing P-38

Cabinet Height	Opening of top door	Number of Shelves
48"	27"	2
54"	33"	2
60"	39"	3

NOTES/CAUTION

- Inset concealed hinges not available.

- Flush finished end panels are standard.
- No cabinet back in lower appliance area for access to wall outlets.
- No bottom frame rail in lower opening
- When arched door style is specified for order, arch door on top door only
- Mortise and tenon doors greater than 42" high will have a center rail.
- Not designed to be installed next to other 15" deep cabinets.

HOW TO ORDER

- Specify **L** or **R** hinging
- Pricing P-45

Cabinet Height	Opening of top door	Number of Shelf Turntables*
45"	24"	2
48"	27"	2
51"	30"	2
54"	33"	2
57"	36"	3
60"	39"	3

* In addition to 1 turntable on floor of cabinet

INSTALLATION TIP

Bottom door swing may be restricted by countertops with no-drip edge or bull nose tile.

NOTES/CAUTION

- 2DDWLD (Butt doors) not available in Inset.

DESIGN CONSIDERATIONS

30", 33", 36", 39", 42", 45", 48", 51", 54" High - 12" Deep

- Microwave shelf is ¾" thick by 16½" deep
- Microwave shelf has solid hardwood front
- Standard melamine interior
- Microwave shelf is finished in match cabinet face frame
- Do not place this cabinet adjacent to a Diagonal Wall cabinet
- Adjustable shelves. See chart.
- End panels are shifted to outside frame edge, eliminating ¼" reveal. End panels are not flush. See detail.

HOW TO ORDER

✪ To order this item, you must fill out and send an Appliance Template with the order. If an appliance template is not included, the cabinet will be built with an opening that is 16½" high, minus ¾" for the microwave shelf, and a width that is 3" less than the overall cabinet width.

- Pricing P-61

Cabinet Height	Number of Shelves
30", 33", 36"	0
39", 42"	1
45", 48", 51", 54"	2

NOTES/CAUTION I

- On beaded inset face frames, the appliance opening has a flush face frame unless specified otherwise by a drawing.

DESIGN CONSIDERATIONS

12" Deep

COLUMNS
- Min. width for single column is 7"
- Max. width for 11 columns is 60"

ROWS
- Min. height for a single row is 7"
- Max. height for 11 rows is 60"

OVERALL
- Min. 7"x12" or 12"x7" (2 cubes)
- Max. 36"x60" or 60"x36" (66 cubes)

OPENINGS
- Finished veneer interior
- The size of the cube openings are determined by the overall cabinet size, so from cabinet to cabinet, the opening sizes will range from 4" to 4¾".
- On the same cabinet, to create the best overall appearance, the openings in the outermost columns may be slightly different than other openings on that cabinet.
- Dividers are created with 1" rails and stiles

HOW TO ORDER

- See block 9020, 9030 or 9040 to order Finished, Furniture or Flush finished ends.
- See block 9080 to order depths other than the standard 12" for this item.
- Pricing P-67

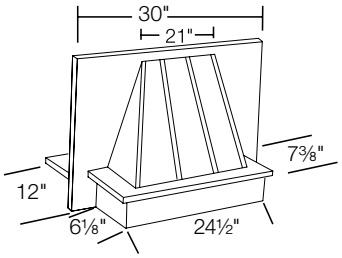
Hood Installation

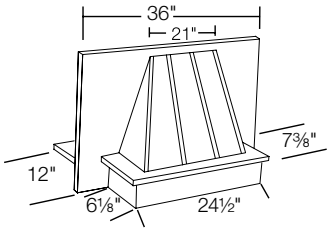
For blocks
2500-2670

To determine proper installation height of hood, consult the hood and appliance manufacturer specifications, as well as your local codes.

Block 2500 Tapered Wood Hood



TH3024



TH3624

DESIGN CONSIDERATIONS

24″ High

- Available in Alder, Cherry, Hickory, Maple and Oak
- Front only - not for use in peninsula or on end of run
- Width of actual hood is same for both sizes
- No modifications.
- Liner is included

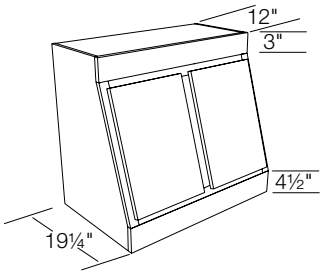
HOW TO ORDER

- Order blower separately - see block 2680
- Pricing P-78

INSTALLATION TIP

The Liner is shipped separately to be installed on the job site. If a blower is ordered, it will also need to be installed on the job site.

Block 2530 Wood Hood



H3024
H3624

To determine proper installation height of hood, consult the hood and appliance manufacturer specifications, as well as your local codes.

DESIGN CONSIDERATIONS

24″ High - 19¼″ Deep

- Door opening height 15″
- Doors are operational
- Doors will not clear a soffit that is more than 24″ deep
- No floor in liner area
- Call Technical assistance at 800.551.3404 for modifications.

HOW TO ORDER

- Order liner and blower separately - see block 2680
- Pricing P-78

INSTALLATION TIP

The Liner/Blower is shipped separately to be installed on the job site.

NOTES/CAUTION

- Inset concealed hinges not available

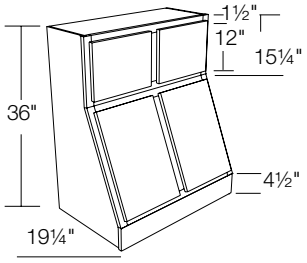
© Copyright StarMark Cabinetry MARCH 2021

Hood Installation

For blocks 2500-2670

To determine proper installation height of hood, consult the hood and appliance manufacturer specifications, as well as your local codes.

Block 2535 Wood Hood



H3036

DESIGN CONSIDERATIONS

36" High - 19¼" Deep

- To be used with 42" high wall cabinet
- Door opening height 15"
- Doors are operational
- Doors will not clear a soffit that is more than 24" deep
- When arched door style is specified for order, arch door on top doors only
- No floor in liner area
- Call Technical assistance at 800.551.3404 for modifications.

HOW TO ORDER

- Order liner and blower separately - see block 2680
- Pricing P-78

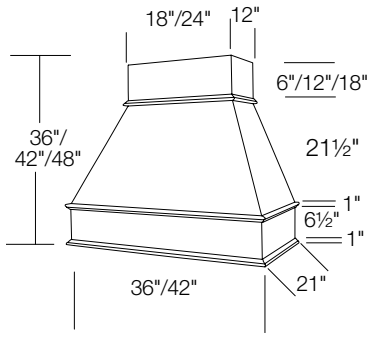
INSTALLATION TIP

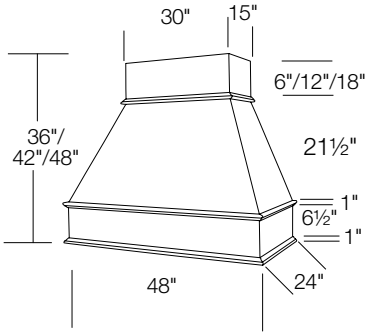
The Liner/Blower is shipped separately to be installed on the job site.

NOTES/CAUTION

- Inset concealed hinges not available

Block 2600 Chimney Hood with Straight Valance





CHSVL3636	**CHSVL4236**	**CHSVL4836**
CHSVL3642	**CHSVL4242**	**CHSVL4842**
CHSVL3648	**CHSVL4248**	**CHSVL4848**

DESIGN CONSIDERATIONS

36", 42", 48" High

- Optional moulding may be field applied to front valance.
- Onlays may be field applied to the valance.
- Dimensions do not include moulding projections which adds 1⅛" per side and front.
- Straight chimney area increases with the height; tapered area remains the same
- Interior dimension is 1½" less than width
- Interior depth is 19¾" for 36" and 42" wide
- Interior depth is 22¾" for 48" wide
- Call Technical assistance at 800.551.3404 for modifications.

HOW TO ORDER

- Order liner and blower separately - see block 2680
- Pricing P-79

INSTALLATION TIP

The Liner/Blower is shipped separately to be installed on the job site.

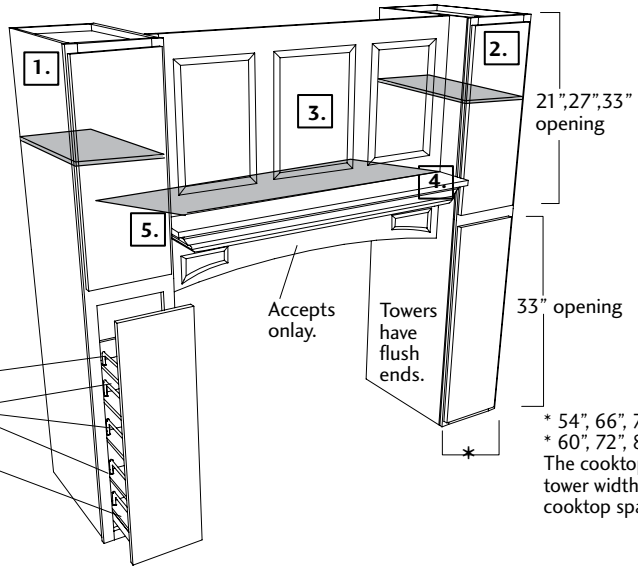
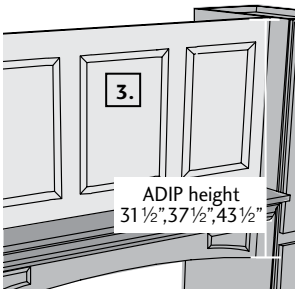
Block 2655 Hearth Hood Style A

Five components are acknowledged, shipped and invoiced:
1. Left tower (WSTA)
2. Right tower (WSTA)
3. ADIP with arched valance
4. Mantel (MTL)
5. Hearth panel (HP)





* 54", 66", 78", 90" wide units have 9" wide towers.
* 60", 72", 84", 96" wide units have 12" wide towers.
The cooktop space will equal the unit width minus twice the tower width. For example, an 84" wide hearth will have a cooktop space of 60": 84 - (12*2) = 60.

DESIGN CONSIDERATIONS

60", 66", 72" High - 21" Deep
- 18" and 24" depths are available at no charge
- Towers have flush finished ends
- 60" high has one adjustable shelf in the upper tower, illustrated above
- 66", 72" high has two adjustable shelves in the upper tower
- Pullout shelves in lower tower units are wood with chrome accents. They extend fully.
- Arched valance can accept an onlay.
- Only square ADIPs are available.
- The ADIP profile will be scooped, rolled or flat, whichever best matches the door profile. Profiles are illustrated below.
- Soft close hinges are only available on upper doors.

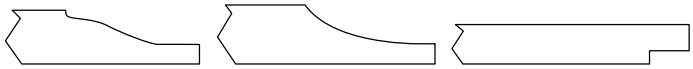
HOW TO ORDER

- Nomenclature indicates width by height.
- Available in all species and door styles, except Aero, Monroe, Tabor and Tempo.
- Specify depth.
- Order keys or onlays separately. They are shipped loose.
- Order blowers and liner separately.
- Pricing P-81

INSTALLATION TIP

Instructions are posted on OneTouch, in Installation and Care.

ADIP PROFILES



Rolled Scooped Flat

NOTES/CAUTION

- 9" wide towers not available in inset.

ADIP PROFILES

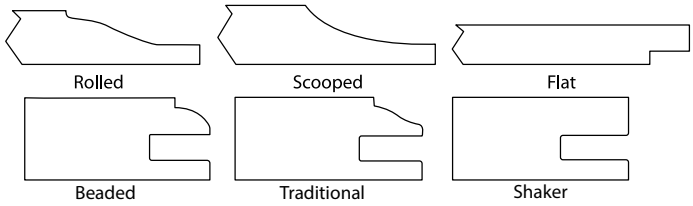
For block 2670



There is an extended lead time for Stanisci wood hoods. See your Cycle Ship for more information. We distribute Cycle Ship approximately every six weeks.

- Stanisci hoods are available in Alder, Rustic Alder, Cherry, Hickory, Maple, Red Oak and Walnut. All other species must be quoted. Verify availability of specie to be quoted.
- To determine proper installation height of hood, consult the hood and appliance manufacturer specifications, as well as your local codes.

Standards for Single Door Base Cabinets

- Depth is 24".
- Vertical stiles on the cabinet frame are 1½" wide.
- Horizontal rails on the cabinet frame are 1½" high.
- Toe kick height is 4".
- Toe kick recess is 2⅝".
- Door opening height is 20¾".
- Drawer opening height is 5¼".
- To compute the door/drawer opening width on a **single door** standard base cabinet, subtract 3" from cabinet width.
- For any standard base cabinet with **full height doors**, the height opening is 27½". To compute the door/drawer opening width, subtract 3" from cabinet width.
- Arched door styles are NOT available in base cabinets.
- Openings are designed for the best possible alignment on Modern Overlay. See C-129.

Standards for Double Door Base Cabinets

- Depth is 24".
- Vertical stiles on the cabinet frame are 1½" wide.
- Horizontal rails on the cabinet frame are 1½" high.
- Toe kick height is 4".
- Toe kick recess is 2⅝".
- Door opening height is 20¾".
- Drawer opening height is 5¼".
- A prefix of "2" denotes a cabinet built with butt doors. The cabinet is considered "full access" because there is no center mullion.
- Butt doors are not available in cabinets that are wider than 42". Cabinets wider than 42" will have a fixed center mullion. A fixed center mullion is necessary for stability.
- Butt door cabinets have full width drawers.
- To compute the width of an individual door opening on a **Double Door** standard base cabinet, subtract 6" from the cabinet width and divide by 2.
- To compute the width of an individual door opening on a **Butt Door** standard base cabinet, subtract 3" from the width and divide by 2.
- For any standard base cabinet with **full height doors**, the height opening is 27½". Width opening is calculated using the same formulas described above.
- Arched door styles are NOT available in base cabinets.

- See the **HelpZone** for information on designing and installing base cabinets diagonally in a corner

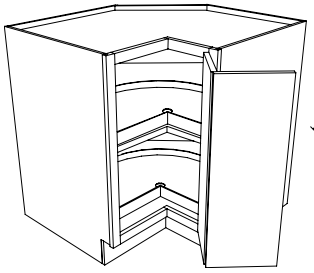
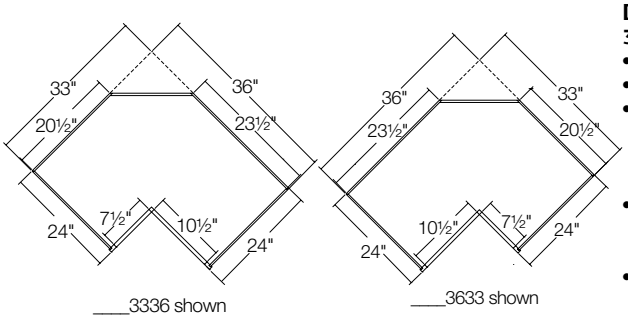
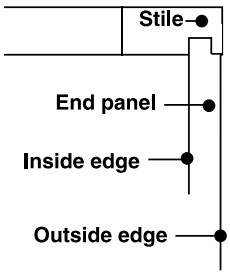
Block 3321 Asymmetrical Square Super Susan with Wood Turntables





____3336 shown ____3633 shown

ASSSW3336
ASSSW3633



DESIGN CONSIDERATIONS

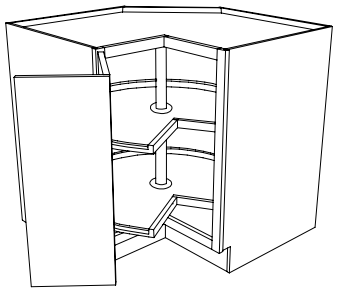
34½" High - 24" Deep

- Two 28" diameter wood turntables, offset to one side
- Allow 33" or 36" of wall space for installation
- If you are specifying the Arlington, Bell Gardens, Ellington, Glendale, Peabody, Prescott, Redcliff, Syracuse, Venice or Verona door style, please note that ASSSW will be built with a flat panel door.
- If you are specifying the Melbourne door style, please note that ASSSW will be built with 2¼" stiles to maintain the raised center panel.
- If you are specifying a Traditional overlay door style, note that the smaller door will be built with 1⅞" stiles.
- Wood turntables have a plywood core with ½" thick edging
- Nomenclature reads left width, then right. ASSSW3336 is 33" wide on left side and 36" wide on the right.
- End panels are shifted to outside frame edge, eliminating ¼" reveal. End panels are not flush. See detail.
- Soft close hinges are not available on this cabinet.

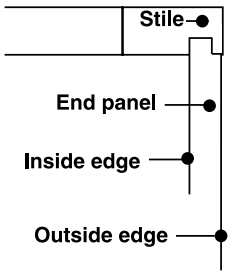
HOW TO ORDER

- Specify **L** or **R** hinging
- Pricing P-157

Block 3323 Square Super Susan with Chrome/Wood Turntables



SSSCW36



DESIGN CONSIDERATIONS

34½" High - 24" Deep

- Two 32" wood turntables have chrome railings and a non-skid surface
- Allow 36" of wall space for installation
- End panels are shifted to outside frame edge, eliminating ¼" reveal. End panels are not flush. See detail.
- Soft close hinges are not available on this cabinet.

HOW TO ORDER

- Specify **L** or **R** hinging
- Pricing P-157

NOTES/CAUTION

- Inset concealed hinges not available.

ISLAND OPTIONS

For blocks
4425
4430
4435

LEG	VALANCE
Tapered	Eyebrow (EYE)
Plain	Straight (SVL)
Fluted	
Rope	

Onlays can be field applied to these locations:

- the side, whether it's a slab drawer front or valance. A pair of onlays can be applied to each end, or one large onlay can be applied to the center.
- the valances, if they are EYE or SVL. A pair of onlays can be applied to each end, or one large onlay can be applied to the center.
- all four styles of legs.

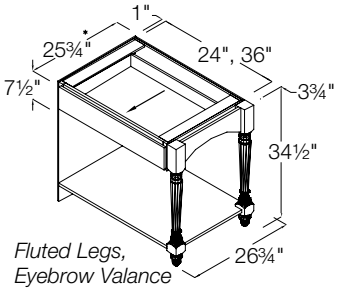
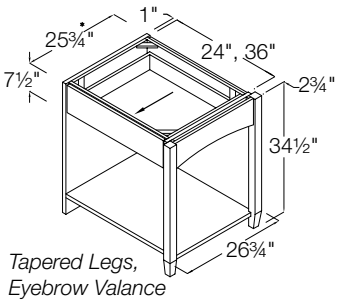
Block 4430 Base Island Assembly - Style A



Fluted Legs, Eyebrow Valance



Tapered Legs, Eyebrow Valance

Cherry, Hickory*, Maple, Oak
BIA24-EYE
BIA24-SVL

BIA36-EYE
BIA36-SVL

* Tapered legs will be oak on hickory island.

DESIGN CONSIDERATIONS

•34½" High - 25¾" Deep

- This is designed for the end of a peninsula or island, and to be adjacent to another cabinet.
- One functional drawer
- A false drawer front is standard on the peninsula side
- A peninsula end panel is attached on the end opposite the valance. The panel is finished on one end only.
- A shelf is attached at toe height between legs and panel. The edge on the shelf is "cc".
- Four leg options and three valance options are available. See list and illustrations on page C-188.
- Plain, Fluted and Rope legs are styled with a bun foot.
- Onlays are available. They are field applied. On this island unit, there are two sides, one valance and two legs which can accept onlays.

HOW TO ORDER

- Specify **LEG** in the Special Information column. **TP** for Plain Turned Post, **TPR** for Rope Turned Post, **TPF** for Fluted Turned Post. To specify a Tapered Leg, DO NOT add a suffix.
- Specify **VALANCE PLACEMENT.** Specify **LEFT** or **RIGHT** in the Special information column. Illustrations show Right.
- Specify which side of the cabinet is the peninsula side. Illustration shows right.
- Pricing P-181

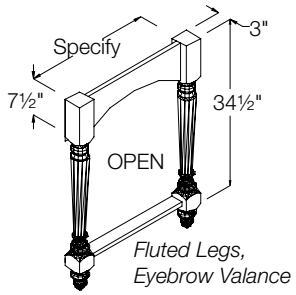
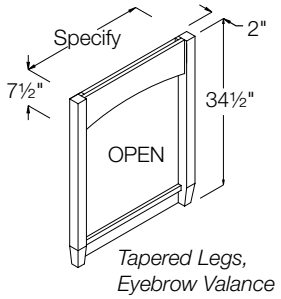
Block 4435 Base Island Assembly - Style B





Cherry, Hickory*, Maple, Oak
BIB

* Tapered legs will be oak on hickory island.

DESIGN CONSIDERATIONS

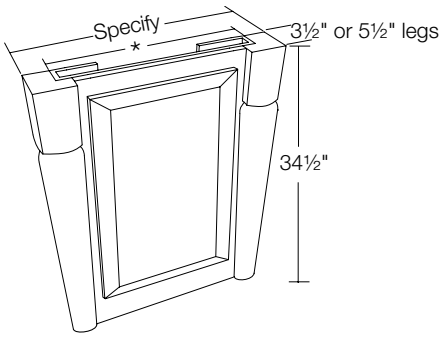
34½" High

- This is a decorative treatment for an end-of-run, or to be applied to both ends of a base cabinet to create a stand-alone island. In both cases, order a finished end(s) for the cabinet.
- Legs are joined with a valance and a rail
- Maximum width is 36"
- Four leg options and three valance options are available. See list and illustrations on page C-188.
- Plain, Fluted and Rope legs are styled with a bun foot.
- Onlays are available. They are field applied. On this island unit, there is one valance and two legs which can accept onlays.

HOW TO ORDER

- Specify **LEG**. Suffix **BIB___** with **TP** for Plain Turned Post, **TPR** for Rope Turned Post, **TPF** for Fluted Turned Post. To specify a Tapered Leg, DO NOT add a suffix.
- Specify **VALANCE** in the Special Information column: **EYE** or **SVL.**
- Pricing P-181

Block 4437 Base Island Assembly - Style C



Alder, Cherry, Hickory, Maple, Oak
BIC35
BIC55

DESIGN CONSIDERATIONS

34½" High

- This is a decorative treatment for an end-of-run, or to be applied to both ends of a base cabinet to create a stand-alone island.
- Maximum width is 38¾"
- Under 31⅝" wide receives one MDP
- 31⅝" and wider receives two MDP's
- Designed to match up with the front of the doors of a peninsula cabinet or a 12" and 24" deep cabinet backed up to each other.
- Multiple leg options are available. See block 14000.
- The legs will be notched to fit around panel box.
- MDP (built as FFD in Inset) will match the doors on the rest of the order
- Onlays are available. They are field applied.

HOW TO ORDER

- Specify Leg/Post option. **BIC___** then style option. If plain do not specify style option
  Example: **BIC-GL15534-FLUTS**
- Recommend ordering width so it is equal to cabinet depth and door dimension i.e. 24" cabinet, ⅞" door, ¾" panel, order 25⅝" width **BIC__**.
- Pricing P-181

NOTES/CAUTION

- Built as a Face Frame and Door on end (fixed).

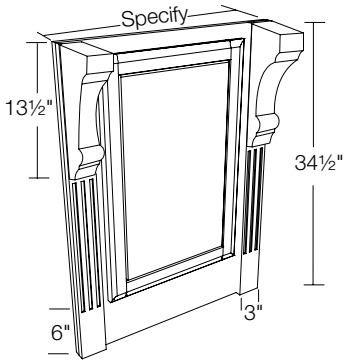
Block 4439 Base Island Assembly - Style E



Cherry, Maple, Oak
BIE

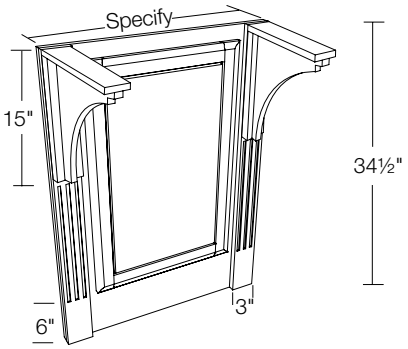
DESIGN CONSIDERATIONS

- This is a decorative treatment for an end-of-run, or to be applied to both ends of a base cabinet to create a stand-alone island.
- 1" Peninsula End panel with fluted filler caps, large corbels and MDP applied to panel.
- Maximum width is 38¾"
- Under 30⅛" wide receives one MDP
- 30⅛" and wider receives two MDP's
- Designed to match up with the front of the doors of a peninsula cabinet or a 12" and 24" deep cabinet backed up to each other.
- Flutes stop 13½ " from top and 6" from bottom unless noted otherwise
- MDP (built as FFD in Inset) will match the doors on the rest of the order
- Works with AECBLBRC2 or AECBLNOL1 in block 15100.

HOW TO ORDER

- Specify large corbels. **BIE___** then corbel option. Example: **BIE-AECBLBRC2**
- Recommend ordering width so it is equal to cabinet depth and door dimension i.e. 24" cabinet, ⅞" door, ¾" panel, order 25⅝" width **BIE__**.
- Pricing P-181

Block 4439 Base Island Assembly - Style F



Cherry, Maple, Oak
BIF

DESIGN CONSIDERATIONS

- This is a decorative treatment for an end-of-run, or to be applied to both ends of a base cabinet to create a stand-alone island.
- 1" Peninsula End panel with fluted filler caps, large corbels/brackets and MDP applied to panel.
- Maximum width is 38¾"
- Under 30⅛" wide receives one MDP
- 30⅛" and wider receives two MDP's
- Designed to match up with the front of the doors of a peninsula cabinet or a 12" and 24" deep cabinet backed up to each other.
- Flutes stop 15 " from top and 6" from bottom unless noted otherwise
- MDP (built as FFD in Inset) will match the doors on the rest of the order
- Works with corbels/brackets in blocks 13241, 13251, 13380, 13450

HOW TO ORDER

- Specify corbels/brackets. **BIF___** then corbel option. Example: **BIF-ACANTIS**
- Recommend ordering width so it is equal to cabinet depth and door dimension i.e. 24" cabinet, ⅞" door, ¾" panel, order 25⅝" width **BIF__**.

Standards for Single Door Utility Cabinets

- ○ Depth is 12" for Utility Wall and 24" for Utility Base.
- ○ Vertical stiles on the cabinet frame are 1½" wide unless noted.
- ○ Horizontal rails on the cabinet frame are 1½" high and 3" high.
- ○ When arched door style is specified for order, arch on top doors only.
- ○ Toe kick height is 4".
- ○ Toe kick recess is 2⅝".
- ○ The opening of the top door varies for cabinets higher than 84".
- ○ The opening of the top door increases
  - 12" for 96" tall cabinet
  - 9" for 93" tall cabinet
  - 6" for 90" tall cabinet
  - 3" for 87" tall cabinet.
- ○ The opening decreases 3" for a 81" tall cabinet.
- ○ **Mortise and tenon doors greater than 42" high will have a center rail.**
- ○ Mitered doors that are 42" or higher will receive a single panel door.
- ○ To compute the door opening width on a **single door** utility cabinet, subtract 3" from cabinet width.

Standards for Double Door Utility Cabinets

- ○ Depth is 12" for Utility Wall and 24" for Utility Base.
- ○ Vertical stiles on the cabinet frame are 1½" wide unless noted.
- ○ Horizontal rails on the cabinet frame are 1½" high and 3" high.
- ○ Vertical center mullions are 3" wide.
- ○ Toe kick height is 4".
- ○ Toe kick recess is 2⅝".
- ○ The opening of the top door varies for cabinets higher than 84".
- ○ The opening of the top door increases
  - 12" for 96" tall cabinet
  - 9" for 93" tall cabinet
  - 6" for 90" tall cabinet
  - 3" for 87" tall cabinet.
- ○ The opening decreases 3" for a 81" tall cabinet.
- ○ A prefix of "2" denotes a cabinet built with butt doors. The cabinet is considered "full access" because there is no center mullion.
- ○ Butt doors are not available in cabinets that are wider than 36". Cabinets wider than 36" will have a fixed center mullion. A fixed center mullion is necessary for stability.
- ○ Butt door cabinets have full width drawers.
- ○ To compute the width of a door opening on a **Double Door** standard utility cabinet, subtract 6" from the individual width and divide by 2.
- ○ When arched door style is specified for order, arch on top doors only.
- ○ **Mortise and tenon doors greater than 42" high will have a center rail.**
- ○ Mitered doors that are 42" or higher will receive a single panel door.
- ○ To compute the width of a door opening on a **Butt Door** standard wall cabinet, subtract 3" from the individual width. Subtract 3" from the cabinet height to obtain the height opening.

Standards for Single Door Oven Cabinets

- ○ Depth is 24".
- ○ Vertical stiles on the cabinet frame are 1½" wide unless noted. They can be modified to 1" minimum in the cut-out area.
- ○ Horizontal rails on the cabinet frame are 1½" high or as noted.
- ○ Toe kick height is 4".
- ○ Toe kick recess is 2⅝".
- ○ See the specific oven cabinet section for additional information.
- ○ When arched door style is specified for order, arch on top doors only.
- ○ To compute the door/drawer opening width on a **single door** standard oven cabinet, subtract 3" from cabinet width.
- ✪ Appliance Templates <u>must</u> be filled out and sent with the order.

Standards for Double Door Oven Cabinets

- ○ Depth is 24".
- ○ Vertical stiles on the cabinet frame are 1½" wide unless noted. They can be modified to 1" minimum in the cut-out area.
- ○ Horizontal rails on the cabinet frame are 1½" high or as noted.
- ○ Vertical center mullions are 3" wide.
- ○ Toe kick height is 4".
- ○ Toe kick recess is 2⅝".
- ○ See the specific oven cabinet section for additional information.
- ○ A prefix of "2" denotes a cabinet built with butt doors. The cabinet is considered "full access" because there is no center mullion.
- ○ Butt doors are not available in cabinets that are wider than 36". Cabinets wider than 36" will have a fixed center mullion. A fixed center mullion is necessary for stability.
- ○ Butt door cabinets have full width drawers.
- ○ To compute the width of a door opening on a **Double Door** standard oven cabinet, subtract 6" from the individual width and divide by 2.
- ○ When arched door style is specified for order, arch on top doors only.
- ○ To compute the width of a door opening on a **Butt Door** standard wall cabinet, subtract 3" from the individual width. Subtract 3" from the cabinet height to obtain the height opening.
- ✪ Appliance Templates <u>must</u> be filled out and sent with the order.

DESIGN CONSIDERATIONS

81", 84", 87", 90", 93", 96" High - 12" Deep

- 47" lower opening has 3 adjustable shelves. The number of additional shelves supplied is based on cabinet height. See the chart below.
- The toe kick for 96" high cabinet is sent loose. Please specify in your order if you want the toe kick factory applied.
- Mortise and tenon doors greater than 42" high will have a center rail.

Cabinet Height*	Number of shelves**	Height of Upper Portion
81"	2	24"
84"	2	27"
87"	2	30"
90"	2	33"
93"	3	36"
96"	3	39"

* At all heights, this cabinet was designed to align with adjoining wall cabinets.

** These shelves are in addition to the 3 in the lower opening.

HOW TO ORDER

- Specify **L** or **R** hinging on Single Door cabinet
- Pricing P-189-190

INSTALLATION TIP

On 96" high units, stand unit up then slide toe kick in from the back and slide against the wall at the same time. Note that the toe kick will be narrower than the cabinet's overall width, allowing for a recessed toe on one side.

2URTBS3687	**2URTBS3696**

DESIGN CONSIDERATIONS

81", 84", 87", 90", 93", 96" High - 24" Deep

- No shelves or shelf holes in broom storage area
- Four adjustable roll out trays
- 59" high lower opening
- The toe kick for 96" high cabinet is sent loose. Please specify in your order if you want the toe kick factory applied.
- Adjustable shelves in upper area. See chart.
- Mortise and tenon doors greater than 42" high will have a center rail.

HOW TO ORDER

- Broom storage is on left unless your order specifies right.
- Pricing P-205

INSTALLATION TIP

On 96" high units, stand unit up then slide toe kick in from the back and slide against the wall at the same time. Note that the toe kick will be narrower than the cabinet's overall width, allowing for a recessed toe on one side.

Cabinet Height	Number of shelves	Height of Upper Portion*
81"	0	12"
84"	0	15"
87"	1	18"
90"	1	21"
93"	2	24"

2OC3384	**2OC3390**	**2OC3396**
2OC3684	**2OC3690**	**2OC3696**

DESIGN CONSIDERATIONS

81", 84", 87", 90", 93", 96" High - 24" Deep

- 1 adjustable full depth shelf in bottom opening
- The toe kick for 96" high cabinet is sent loose. Please specify in your order if you want the toe kick factory applied.
- Door and drawer openings may be affected by cut-outs.
- End panels are shifted to outside frame edge, eliminating ¼" reveal. End panels are not flush. See detail.

HOW TO ORDER

✪ To order this item, you must fill out and send an Appliance Template with the order.

- Maximum width cutout is 2" less than overall width of cabinet
- Pricing P-230

Height of top opening	Number of shelves*
21"	1
24"	2
27"	2
30"	2
33"	2
36"	3
39"	3

* In addition to one shelf in lower opening

INSTALLATION TIP

On 96" high units, stand unit up then slide toe kick in from the back and slide against the wall at the same time. Note that the toe kick will be narrower than the cabinet's overall width, allowing for a recessed toe on one side.

NOTES/CAUTION

- On beaded inset face frames, the appliance opening has a flush face frame unless specified otherwise by a drawing.

✪ Cabinets in this section are meant for home offices, libraries and other areas of the home. The wide bottom rail lends a furniture look to these cabinets. If these cabinets are used in kitchens or vanities, please note that the doors and drawers will not align with the doors and drawers of kitchen and vanity cabinets.

✪ Note that some file drawers and desk cabinets have a toe kick. This will not align with the wide bottom rail of most Other Room cabinets.

Standards for Single Door Other Room Cabinets

○ Depth is 21″. Depths of 18″ and 24″ are available and must be specified.

○ Height of tall cabinets is 81″ or 82½″

○ Height of base cabinets is 28½″, 31½″, 33″, 40½″, or 42″.

○ Toe Kick height is 4″ where applicable

○ Toe Kick recess is 2⅝″ where applicable

○ Wide bottom rails are 3″ or 4½″.

○ Vertical stiles on the cabinet frame are 1½″ wide.

○ Horizontal rails on the cabinet frame are 1½″ high or 3″.

○ **Mortise and tenon doors greater than 42″ high will have a center rail.**

○ Arched door styles are NOT available in Other Room base cabinets.

○ To compute the door/drawer opening width on a **Single Door** standard cabinet, subtract 3″ from cabinet width.

○ Mitered doors that are 42″ or higher will receive a single panel door.

Standards for Double Door Other Room Cabinets

○ Depth is 21″. Depths of 18″ and 24″ are available and must be specified.

○ Height of tall cabinets is 81″ or 82½″

○ Height of base cabinets is 28½″, 31½″, 33″, 40½″, or 42″.

○ Wide bottom rails are 3″ or 4½″. These wide bottom rails will not align with kitchen or vanity cabinets modified with a wide bottom rail.

○ Toe Kick height is 4″ where applicable

○ Toe Kick recess is 2⅝″ where applicable

○ Vertical stiles on the cabinet frame are 1½″ wide.

○ Horizontal rails on the cabinet frame are 1½″ high or 3″.

○ Arched door styles are NOT available in Other Room base cabinets.

○ Vertical center mullions are 3″ wide.

○ A prefix of “2” denotes a cabinet built with butt doors. The cabinet is considered “full access” because there is no center mullion.

○ Butt doors are not available in cabinets that are wider than 36″. Cabinets wider than 36″ will have a fixed center mullion. A fixed center mullion is necessary for stability.

○ Butt door cabinets have full width drawers.

○ **Mortise and tenon doors greater than 42″ high will have a center rail.**

○ To compute the width of a door opening on a **Double Door** standard Other Room cabinet, subtract 6″ from the individual width and divide by 2.

○ To compute the width of a door opening on a **Butt Door** standard Other Room cabinet, subtract 3″ from the individual width. Subtract 3″ from the cabinet height to obtain the height opening.

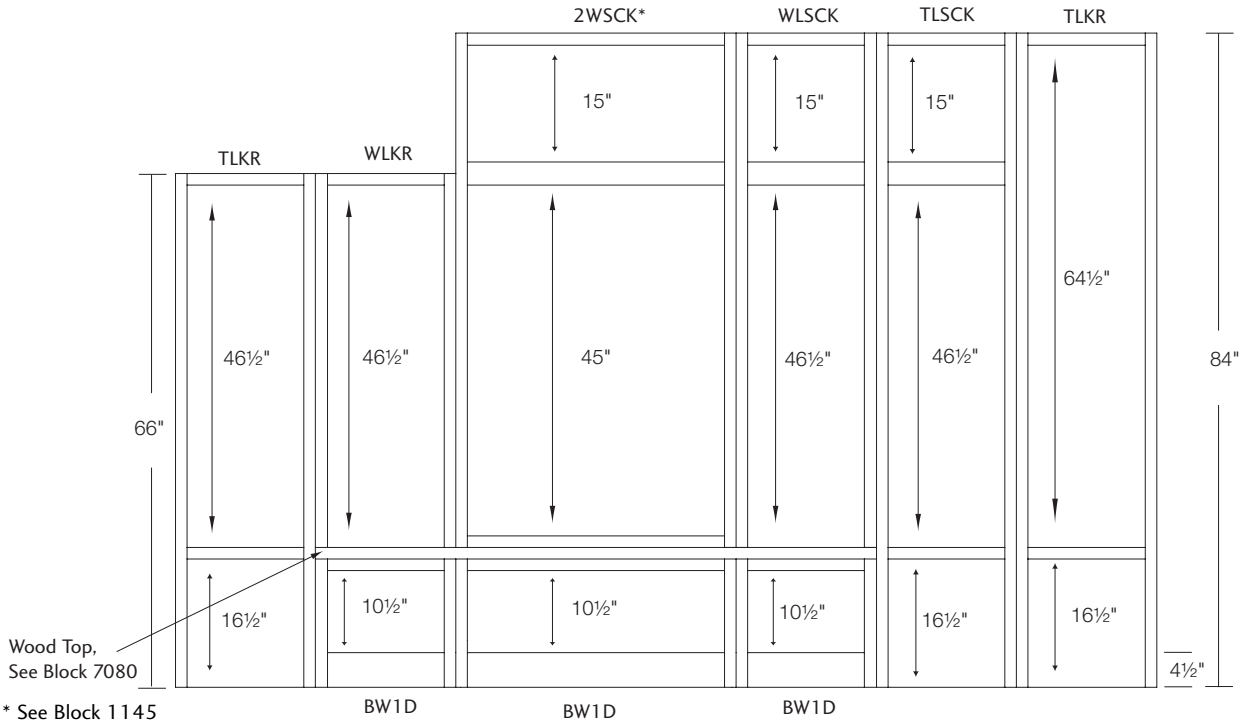
Other Room Locker Cabinet Alignment



Standards for Single Door Locker Cabinets

- Depth is 12".
- Height of tall cabinets is 66" or 84".
- Height of base cabinets is 16½".
- Wide bottom rails are 4½".
- Height of wall cabinets is 48"or 66".
- Vertical stiles on the cabinet frame are 1½" wide.
- Horizontal rails on the cabinet frame are 1½" high or 3".
- To compute the door/drawer opening width on a **Single Door** standard cabinet, subtract 3" from cabinet width.

Standards for Double Door Locker Cabinets

- Depth is 12".
- Height of tall cabinets is 66" or 84".
- Vertical stiles on the cabinet frame are 1½" wide.
- Horizontal rails on the cabinet frame are 1½" high or 3".
- Height of wall cabinets is 48"or 66".
- A prefix of "2" denotes a cabinet built with butt doors. The cabinet is considered "full access" because there is no center mullion.
- Locker Cabinets 30", 33", or 36" wide have a 2" center stile in the locker area.
- To compute the width of a door opening on a **Butt Door** standard Other Room cabinet, subtract 3" from the individual width.
- Opening height for doors on Locker cabinets is 15".

✪ Bathrooms are often small spaces. To prevent a vanity drawer from opening into door trim in smaller installations, use a filler, extended stile, or wide stile. See **HelpZone** for diagram.

Our sink vanities have a full back. Many other cabinet manufacturers eliminate or shorten the back panel in their sink vanities.

Standards for Single Door Vanity Cabinets

○ Heights are 31½", 34½", and 84"

○ Arched door styles are available in vanity cabinets 31½" or higher.

○ Depths are 18" and 21" unless noted

○ Vertical stiles on the cabinet frame are 1½" wide

○ Horizontal rails on the cabinet frame are 1½" high unless noted

○ Toe kick height is 4"

○ Toe kick recess is 2⅝"

○ To compute door/drawer opening width for a **Single Door** standard vanity cabinet, subtract 3" from cabinet width.

○ Door opening height is 18" or 21"

○ Drawer opening height is 5¼"

Standards for Double Door Vanity Cabinets

○ Heights are 31½", 34½", and 84"

○ Arched door styles are available in vanity cabinets 31½" or higher

○ Depths are 18" and 21" unless noted

○ Vertical stiles on the cabinet frame are 1½" wide

○ Vertical mullions are 3" wide

○ Horizontal rails on the cabinet frame are 1½" high unless noted

○ Toe kick height is 4"

○ Toe kick recess is 2⅝"

○ A prefix of "2" denotes a cabinet built with butt doors. The cabinet is considered "full access" because there is no center mullion.

○ Butt doors are not available in cabinets that are wider than 36".

○ Cabinets wider than 36" will have a fixed center mullion. A fixed center mullion is necessary for stability.

○ Butt door cabinets have full width drawers.

○ To compute door/drawer opening width for a **Double Door** standard vanity cabinet, subtract 6" from cabinet width and divide by 2.

○ To compute door/drawer opening width for a **Butt Door** standard vanity cabinet, subtract 3" from cabinet width.

○ Door opening height is 18" or 21"

○ Drawer opening height is 5¼"

Block 8195 Vanity Platform

DESIGN CONSIDERATIONS

Alder, Cherry, Hickory, Maple, Oak

- ¾" plywood platform with decorative moulding edges, shown at left
- 5¼" platform height
- Decorative moulding attached to front and side edges
- Grain direction will follow width of platform.
- Sized 1" wider and 1" deeper than standard vanity cabinet, to expose decorative moulding. For example, order a VPF013122 for a VB3021.
- First two numbers in nomenclature are the bun foot design number and the last four numbers are the platform width and depth.
- Designed to create bath furniture

HOW TO ORDER

- Order Vanity cabinet with OMIT TOE KICK option, **OMTOE** Block 9240.
- Select Vanity Platform (1" wider and deeper than vanity cabinet) with desired bun foot.
- Specify decorative moulding front and side edge (**aa, bb, cc, dd**) in Special Information section of the order form.
- Contact Technical Assistance for ordering sizes that are not listed.
- Pricing P-274

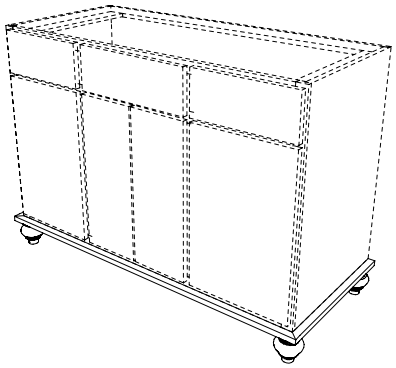
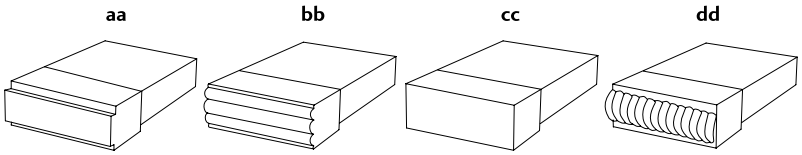
Block 8195 Vanity Platform





DESIGN CONSIDERATIONS

Alder, Cherry, Hickory, Maple, Oak

- ¾" plywood platform with decorative moulding edges, shown at left
- 5¼" platform height
- Decorative moulding attached to front and side edges
- Grain direction will follow width of platform.
- Sized 1" wider and 1" deeper than standard vanity cabinet, to expose decorative moulding. For example, order a VPF013122 for a VB3021.
- First two numbers in nomenclature are the bun foot design number and the last four numbers are the platform width and depth.
- Designed to create bath furniture

HOW TO ORDER

- Order Vanity cabinet with OMIT TOE KICK option, **OMTOE** Block 9240.
- Select Vanity Platform (1" wider and deeper than vanity cabinet) with desired bun foot.
- Specify decorative moulding front and side edge (**aa, bb, cc, dd**) in Special Information section of the order form.
- Contact Technical Assistance for ordering sizes that are not listed.
- Pricing P-275-276

Block 9010 Stained Ends

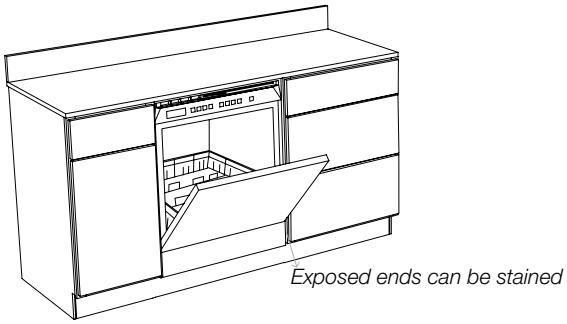
This modification results in stain, sealer and top coat being applied to a cabinet's standard non-veneer end panel.

DESIGN CONSIDERATIONS

- Ends next to ranges, dishwashers, refrigerators and sink fronts may be slightly exposed. Specify a stained end for a stained and finished appearance on the non-veneer end panel.

HOW TO ORDER

- Specify **SEL** (stained end left) or **SER** (stained end right) in the Finished Ends column
- There is no charge for this option.
- If seven or more stained ends are specified on an order, finished end charges will apply.
- Pricing P-293



SEL
SER

Block 9020 Finished Ends

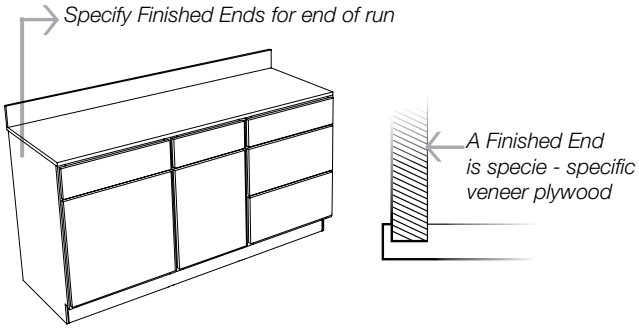
This modification replaces a cabinet's standard end panel with veneer

DESIGN CONSIDERATIONS

- If an end will be exposed, specify a finished end for a professional appearance.
- Veneer plywood of the same species is applied to the cabinet end.
- A ¼" reveal is standard with finished ends.
- When specified on a cabinet that has the end panels shifted to the outside, the end panel is automatically upgraded to a Furniture End.

HOW TO ORDER

- Specify **LEF** (left end finished) or **REF** (right end finished) in the Finished Ends Column
- Add charge to cost of cabinet
- Pricing P-293



LEF
REF

Block 9030 Furniture Ends

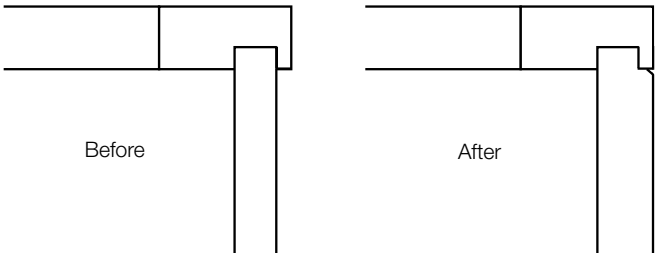
This modification eliminates the ¼" face frame reveal and shifts the end panel to the exterior. There is a 45 degree bevel on the edge of the end panel, against the frame. The end panel is finished.

DESIGN CONSIDERATIONS

- The veneer core plywood end panel is shifted to the exterior, eliminating the ¼" reveal.

HOW TO ORDER

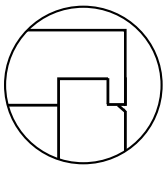
- Specify **FNL** (furniture end left) or **FNR** (furniture end right) in the Finished Ends column
- Add charge to cost of cabinet
- Pricing P-293



FNL wall
FNR wall

FNL base
FNR base

FNL utility
FNR utility



After-close up detail

Block 9040 Flush Ends

This modification eliminates the ¼" reveal and shifts the end panel to the exterior. The end panel and frame are then flushed and finished.

DESIGN CONSIDERATIONS

- A ¾" veneer plywood end panel is shifted to the exterior, eliminating the ¼" reveal.
- Not available in Weathered.

HOW TO ORDER

- Specify **FFL** (flush end left) or **FFR** (flush end right) in the Finished Ends Column
- Add charge to cost of cabinet
- Pricing P-293

Block 9045 Beaded Flush Ends

This modification replaces a cabinet's standard end panel with ¾" veneer MDF core to eliminate the ¼" reveal. The end panel features decorative beads.

DESIGN CONSIDERATIONS

- A ¾" veneer MDF core end panel is shifted to the exterior, eliminating the ¼" reveal.
- Number of beads based on cabinet depth.
- Not available on cabinets greater than 96" in height.
- Not recommended for walnut finished in Natural. The bead routes highlight the lighter core material against the dark veneer.

HOW TO ORDER

- Specify **FB_L** (beaded flush end left) or **FB_R** (beaded flush end right) in the Finished Ends Column
- Add charge to cost of cabinet
- Pricing P-293

FBWR wall
FBBL base
FBBR base
FBTL tall
FBTR tall

Block 9050 Matching Decorator Panel

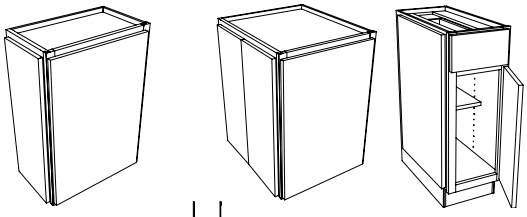
This modification results in a cabinet that has decorative door panels on the side of the cabinet that match the door style.

DESIGN CONSIDERATIONS

- The doors are attached to the cabinet's ¾" ends to create MDP.
- Wall and Stacked Wall cabinets receive door panel(s) to match face of cabinet
- Base and vanity cabinets receive full height door panel(s)
- Tall cabinets - See HelpZone for alignment information.
- Cabinets deeper than 24" receive two door panels of equal size, butted together.
- Mortise and tenon doors greater than 42" high will have a center rail.
- End panel and frame are not flush. The seam is visible.

HOW TO ORDER

- Specify **MDP LEFT** or **MDP RIGHT** in the Special Information section
- Add MDP charge to cost of cabinet
- Pricing P-293



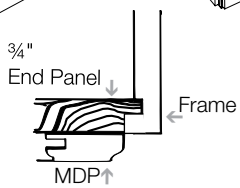


Illustration shows an MDP created with a traditional overlay door.

Block 9060 Integrated Matching Decorator Panel

This modification results in a cabinet that has decorative door panels built into a ¾" end panel.

DESIGN CONSIDERATIONS

- Authentic door panel built into frame does not align with door on front of cabinet
- Wall and vanity wall cabinets receive panel(s) to match face of cabinet
- Base and vanity base cabinets receive full height panel
- Stacked wall cabinets receive 2 panels of equal size
- Tall cabinets up to 96" high and up to 24" deep receive 2 panels of equal size
- Interior remains standard birch melamine
- Available with all cope and stick door styles.
- Doors greater than 42" high will have a center rail.
- Not available with mitered door styles, or slab doors.
- Cabinets greater than 24" in depth will receive two panels.

HOW TO ORDER

- Specify **IMD LEFT** or **IMD RIGHT** in the Special Information section
- Add IMDP charge to cost of cabinet
- Pricing P-294

Block 9070 Face Frame and Door on Cabinet End

This modification results in a cabinet that has operating doors on the end.

DESIGN CONSIDERATIONS

- Wall, base, utility and vanity cabinets can be ordered with face frame and operating or fixed doors on cabinet ends
- Select from a full height door on the end or doors and/or headers on the end that match the face of the cabinet.
- Base toe kick on face frame side included in price
- Maximum depth of 24" for a single working door. Depths over 24" will receive butt doors or fixed doors.
- When specifying a fixed door, a ½" panel is added to the interior of the cabinet to cover the frame and door.
- When specifying a Face Frame and Door on Cabinet End and a Wide Bottom Rail, the BESSD modification must also be applied to the face frame. See Block 9260.

HOW TO ORDER

- Specify **_FHDL/R/B, _MFFL/R/B, _XDRL/R/B, _XMFL/R/B** in the Special Information section
- Specify **L** or **R** hinges for the FF&D or fixed.
- Add charge to cost of cabinet
- Pricing P-294

NOTES/CAUTION

- See Inset Specification section for information on Face Frame and Door on Cabinet End with Concealed Hinge.

Block 9080 Dimensional Modifications I

This modification results in a cabinet that is manufactured with the dimensions you specify in 1/16" increments. Certain limitations apply.

DESIGN CONSIDERATIONS

- This catalog notes if dimensional modifications are not available for a certain cabinet.
- Modifications are not allowed on curved cabinets.
- If the depth of the cabinet is increased or decreased, the cabinet will receive a full depth shelf.

NOTE THESE LIMITATIONS

- Wall cabinets can be increased up to 30" deep.
- Wall cabinets greater than 18" deep must be secured to soffit or ceiling OR supported by a full height, panel same depth as cabinet or utility base cabinet, in which case, the other side must also be supported by a wall cabinet with a minimum 12" depth.
- Tall cabinets can be increased up to 30" deep.
- Vanity cabinets can be increased up to 36" deep.
- Base cabinets can be increased up to 36" deep.

NOTE: Maximum depth of drawers and roll trays is 21" (for a 24" deep base). They do not increase in depth with the cabinet.

Depth of Cabinet	Depth of Drawer
Greater than 24"	21"
24"	21"
21"	18"
18"	15"
15"	12"
12"	9"

Unique sizes	Next standard size is used
Example: 14"	9" is used

HOW TO ORDER

- Nomenclature codes

RD	Reduce depth	
RW	Reduce width	
RH	Reduce height	
INCDP		Increase depth
IH		Increase height
IW		Increase width

- To order a cabinet that will be reduced, specify a **standard cabinet** that is the next size larger than the dimensions you want in the Cabinet Number column and specify the **modification** in the Special Information section. For example, to achieve a 32" wide cabinet, specify: **2W3336 RW 1" to 32"**.
- To order a cabinet that will be larger, specify a **standard cabinet** that is the next size smaller than the dimensions you want in the Cabinet Number column and specify the **modification** in the Special Information section. For example, to achieve a 49" high cabinet, specify **W1248 IH 1" to 49"**.
- In most cases, it is less expensive to order combined modifications than to order two single modifications. Calculate both methods to make sure you're getting the best price.
- Pricing P-294-295

Block 9081 Increased Height Greater Than 96" I

DESIGN CONSIDERATIONS

- Use IH102 for cabinets greater than 96" in height and up to 102" in height.
- Use IH120 for cabinets greater than 102" in height and up to 120" in height.

HOW TO ORDER

- Specify **IH102** or **IH120** in the Special Information section.
- Add upcharge to the cost of the cabinet
- Pricing P-295

This modification results in a tall cabinet that is manufactured with the dimensions you specify. Certain limitations apply.

Block 9082 Tall Increase Depth 25"-27" NEW! I

This modification results in a tall cabinet or oven cabinet increased in depth to 25", 26" or 27" at no charge.

DESIGN CONSIDERATIONS

- Available on tall cabinets and oven cabinets only.

HOW TO ORDER

- Specify **TID25, TID26** or **TID27** in the Special Information section.
- There is no charge for this option
- Pricing P-295

TID25
TID26
TID27

Block 9085 Accessory Modification NEW! I

This modification results in a flat fee (rather than a square foot or per inch charge) for dimensional modifications on certain accessory items.

DESIGN CONSIDERATIONS

- Available on certain accessories. See accessory items for availability

HOW TO ORDER

- Specify **ACMOD** in the Special Information section.
- Pricing P-295

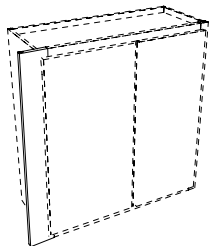
ACMOD

Block 9090 Extended Stiles I

This modification results in a cabinet with a stile that is wider than the standard 1½".

DESIGN CONSIDERATIONS

- Stiles can be extended to 3" wide in quarter-inch increments, with the standard extend stile modification, **ES**.
- Stiles can be extended from 3⅛" in width, up to 10½" in width with the wide extend stile modification, **E_WIDE**.
- Any addition to the stile width will increase the overall face frame dimension.
- Stiles can be fluted. See block 9140 for fluting.



HOW TO ORDER

- For the standard extend stile, suffix the cabinet nomenclature with **EL** (extended left), **ER** (extended right) or **EB** (extended both) and the overall cabinet width in inches.
- When you calculate the overall width, note the width of the cabinet increases an amount equal to the width of the extended stile.
- For example, if you need the left stile extended 3¼", specify extend stile EL 3¼" (for an overall frame width of 33¼"). This will make the left stile 4¾", which includes the original 1½" stile.
- Add ES or E_WIDE charge to cost of cabinet
- Pricing P-295

INSTALLATION TIP

The stile is trimmable.

Block 9100 Angled Extended Stiles I

This modification results in a cabinet with angled extended stiles.

DESIGN CONSIDERATIONS

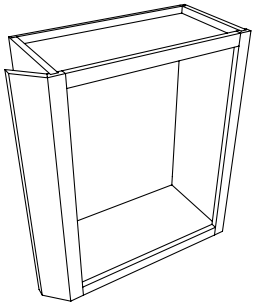
- Stile is extended and angled back at a 45° angle.
- Stile is beveled to be secured to the cabinet next to it.
- Angled extended stiles add 3" per side to the overall width of the cabinet.

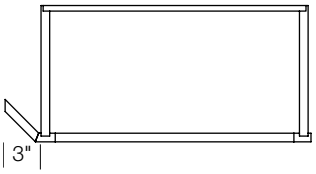
HOW TO ORDER

- Specify **_ESA** and **L** left or **R** right
- See block 9140 for fluting
- Pricing P-295

INSTALLATION TIP

The stile is trimmable





WESA wall
BESA base
TESA tall

Block 9110 Wide Stiles I

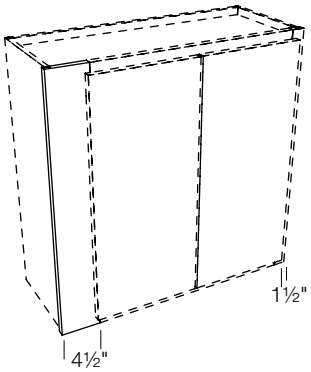
This modification results in a cabinet with a wide stile, accomplished by reducing the opening of the cabinet.

DESIGN CONSIDERATIONS

- Use wide stiles to accommodate corner clearances and moulding returns.
- By default, when you specify Wide Stiles, the stile width is increased 3", from 1½" to 4½". This decreases the opening of the cabinet 3".
- Other stile widths are available. To calculate how much a Wide Stile will decrease the cabinet opening, use this formula: Wide Stile minus 1½". For example, a 3" wide stile reduces the cabinet opening by 1½" or a 5" wide stile reduces the cabinet opening by 3½".
- Stiles can be fluted. See block 9140 for fluting.

HOW TO ORDER

- Specify **WSL** (wide stile left) or **WSR** (wide stile right) in the ES/WS column
- If you want a Wide Stile other than the default 4½" please note that in the Special Information section.
- Add **WS** charge to cost of cabinet
- Pricing P-295



WSL wall
WSR wall
WSL base

Block 9120 Clipped/Angled Stiles

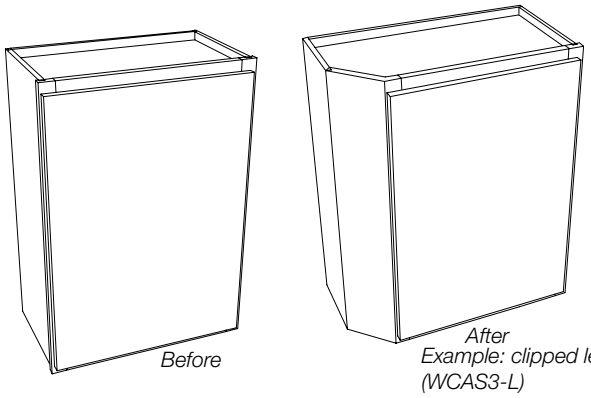
DESIGN CONSIDERATIONS

- Face frame reduced in width 3" or 6", per side specified
- End panel reduced in depth 3" or 6"
- If an internal accessory mounts to the end panel, a vertical partition-VP (block 9380) must also be ordered with this option.
- May order fluting option FLUT1 (2) per side (block 9140)
- Not available if it results in an opening width less than 6" on overlay orders or 9" on Inset orders.

HOW TO ORDER

- Specify **L** or **R** Clipped Stile and **3"** or **6"**. The charge is per side.
- Add clipped stile charge per side and fluting option (if ordered) per side
- Pricing P-296

This modification results in a wall, tall, or base that has a 45 degree angled face frame stile.



WCAS3 wall
WCAS6 wall

BCAS3 base
BCAS6 base

TCAS3 tall
TCAS6 tall

Block 9130 Chamfered Stiles

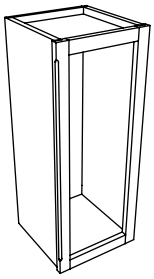
This modification results in a cabinet with chamfered stiles.

DESIGN CONSIDERATIONS

- 1½" stile receives a ¼" chamfer
- Starts and stops 2" from top and bottom edge unless otherwise specified.
- Recommend pulling or increasing depth if installed next to another cabinet.
- Recommend wide stile (block 9110) if used in overlay application.
- Not available on diagonal or angled cabinets

HOW TO ORDER

- Specify **_CHS** and **L** left, **R** right or **B** both.
- Pricing P-296



WCHS wall
BCHS base
TCHS tall

Block 9140 Fluting Treatment

This modification results in a cabinet stile or a column with fluting.

DESIGN CONSIDERATIONS

- FLUT1 is for cabinets up to 42" high
- FLUT2 is for cabinets over 42" high and no more than 96" high
- The number of "flutes" is determined by the width of the stile or column. A stile that is 3" or wider gives the best look.

HOW TO ORDER

- Fluting is available for cabinets when an extended stile (block 9090) wide stile (block 9110), or clipped/angled stiles (block 9120) is specified.
- Specify **FLUT1** or **FLUT2** for cabinets in the Special Information section. Specify **FLUT_B** for both sides.
- Specify start and stop points for flutes
- Add the FLUT charge to the cost of the cabinet
- Pricing P-296

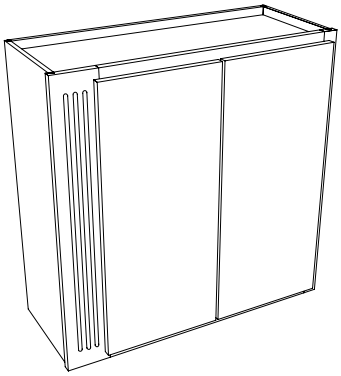


Illustration shows wide stile (block 9110) left and FLUT1.

FLUT1
FLUT2

DESIGN CONSIDERATIONS

- Use FLUT1, FLUT2, FLUT3, FLUT4 to specify sides to be fluted on Assembled Columns (block 13625). For example, a column modified with FLUT3 will have flutes on three sides.

HOW TO ORDER

- Specify **FLUT1**, **FLUT2, FLUT3 or FLUT4** for fluting on columns (block 13625) in the Special Information section
- Add the FLUT charge to the cost of the column.
- Pricing P-296

Block 9150 Post Chase Cutouts

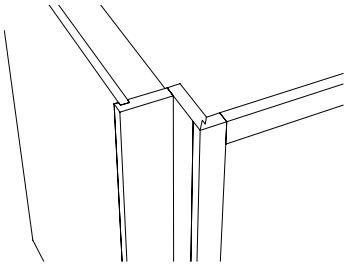
This modification results in a chase cutout that can receive posts.

DESIGN CONSIDERATIONS

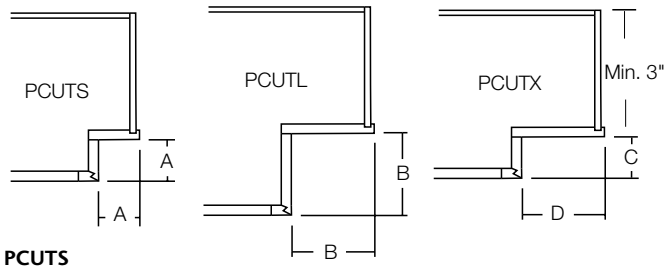
- Since post sizes will vary slightly, calculate the cutout space to accommodate variations in the size of the post.
- Consider WBR (block 9210) to cover back of post down to floor
- When specifying custom cutout (PCUTX), end panel must be 3" deep or greater for the depth of the post chase cutout
- See chart for Post Chase Options
- Not available if it results in an opening width less than 6" on overlay orders or 9" on Inset orders.
- Chase area is finished.
- If an internal accessory mounts to the end panel, a vertical partition VP (block 9380) must also be ordered with this option.

HOW TO ORDER

- Specify **PCUTS**, **PCUTL** or **PCUTX** in the Special Information section
- Specify dimensions C and D for PCUTX option. ✪ A drawing must be included with order.
- Specify **Left** or **Right** or **Both**
- Add PCUT charge to cost of cabinet
- Pricing P-296



Post Chase Options
PCUTS
A. 3⅛" x 3⅛" for 3" x 3" corner posts.
PCUTL
B. 6" x 6" for 5½" large posts
PCUTX
C. and D. Custom option specified by customer for various post or half post sizes.



PCUTS
PCUTL
PCUTX

Block 9160 Chase Cutouts

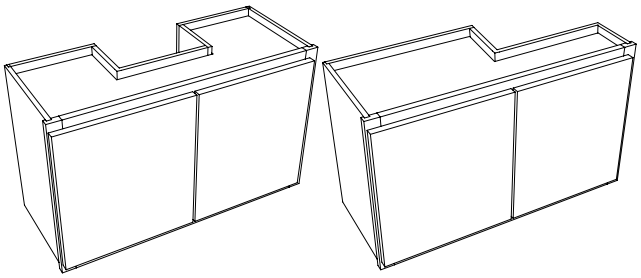
This modification results in a cabinet that is notched to accommodate an obstruction on the job site.

DESIGN CONSIDERATIONS

- Cutout must leave 3" between frame and cutout, and end panels and cutout
- Chase area will include a back
- Cabinet will receive notched shelves if enough of the cabinet remains
- Chase area is not finished.

HOW TO ORDER

- Specify **CCUT** in the Special Information section
- Add CCUT charge to cost of the cabinet
- ✪ A top view drawing showing all dimensions must accompany your order
- Pricing P-296



CCUT wall
CCUT base
CCUT tall

Block 9165 Paper Towel Dispenser Chase Cutouts

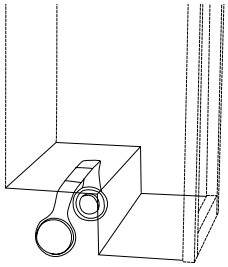
This modification results in a wall cabinet that is notched to accommodate a paper towel dispenser.

DESIGN CONSIDERATIONS

- Notch is 4" high and 6" deep
- Wall cabinet minimum width is 12"
- 11" wide x 4" deep paper towel dispenser, clear with brushed stainless steel accents, is included.
- Birch melamine cutout to match bottom of adjacent wall cabinets
- When concealing the cutout on the end of a run with a finished end, the cabinet must be a minimum of 15" wide.

HOW TO ORDER

- Specify **PTDCC** in the Special Information section
- Add PTDCC charge to the cost of the cabinet
- Pricing P-296



PTDCC

© Copyright StarMark Cabinetry **FEBRUARY 2022**

Block 9170 Valance Top/Bottom Rail

This modification results in a cabinet that has a decorative valance top rail or bottom rail.

DESIGN CONSIDERATIONS

- For cabinets 24" through 42" wide unless otherwise specified
- For Valance Top Rail, the minimum cabinet height is 15" unless specified otherwise.
- Valances may accept inserts, onlays or both.
- Adding a valance top rail reduces the height of the cabinet opening by the valance height minus 1½".
- Adding a valance bottom rail increases the overall height of the cabinet. This increase will be equal to the height of the valance, minus 1½ inches. For example, a VBR-EYECO on a W3630 would result in a cabinet that is 35½" high. For variances from this standard, please send a drawing ✪.
- When a valance bottom rail is added to a cabinet with finished ends, the end panels and back extend to the bottom edge of the valance. See HelpZone for an example.
- **Valance bottom rail interior side of end panels is birch melamine**
- When a cabinet is modified with a valance bottom rail, the standard reveal from the cabinet floor to the bottom of the back panel is maintained.
- Order inserts and onlays separately. They are shipped loose.

HOW TO ORDER

- For Valance Top Rail, specify **VTR** and **Style** in Special Information section.
- For Valance Bottom Rail, specify **VBR** and **Style** in Special Information section.
- Add charge to cost of cabinet
- Pricing P-297

Block 9180 Onlay Attachment

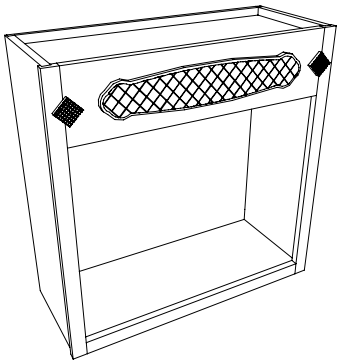
This modification results in onlays factory installed on cabinet, valance or filler to allow for glaze hang-up around onlay.

DESIGN CONSIDERATIONS

- Onlays can be attached to cabinet, valance or filler/panel box face.
- Available onlays shown in blocks 13010-13220.

HOW TO ORDER

- Specify **OATCH** in the Special Information section.
- ✪ Drawing must accompany order.
- Add charge to cost of cabinet, valance or filler/panel box
- Pricing P-297



OATCH

Block 9190 Flush Bottom/Top

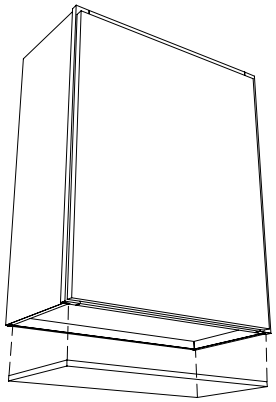
This modification results in a cabinet with a top or bottom that is finished veneer and is flush with the face frame.

DESIGN CONSIDERATIONS

- Wall cabinets can be ordered with finished flush plywood tops or bottoms
- Base, standard vanity and tall cabinets can be ordered with flush tops
- Wall Hung Vanities not available with a Flush Top.
- Flush Top not intended for use as a counter top.
- Edges of end panels are visible.
- Not available in Weathered.

HOW TO ORDER

- Specify **FLB** (flush bottom) or **FLT** (flush top) in the Special Information section
- Add the FL charge to the cost of the cabinet
- The FL charge is per square foot; remember to convert inches into feet
- The minimum charge is for two square feet
- Pricing P-297



FLT
FLB

Block 9200 Wide Bottom/Top Rail-Wall Cabinets

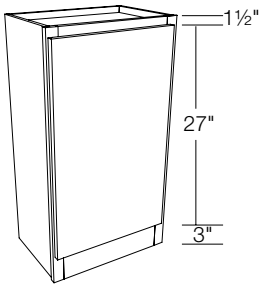
This modification results in a wall cabinet that has a wide bottom rail or a wide top rail.

DESIGN CONSIDERATIONS

- Wall cabinets can be ordered with a 3" wide top or bottom rail
- The standard 1½" bottom or top rail is increased to 3" overall, increasing the overall height of the cabinet 1½" W2430 becomes 31½" high
- End panels will increase in overall height by 1½"
- End panels and frame stiles are extended to match the bottom or top rail

HOW TO ORDER

- Specify **WBRW** or **WTRW** in Special Information section
- Add charge to cost of cabinet
- If the wide top or bottom rail is increased greater than 3", the upcharge is doubled.
- Illustration shows Wide Bottom Rail
- Pricing P-297



WBRW
WTRW

Block 9210 Wide Bottom Rail - Base Cabinet

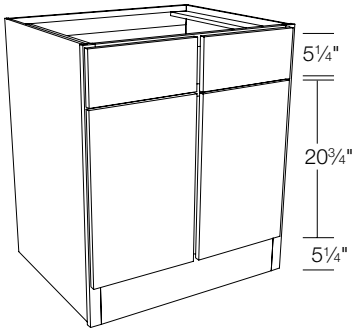
This modification replaces the standard toe space with a wide bottom rail for a furniture look and for ease of attaching decorative base moulding.

DESIGN CONSIDERATIONS

- Base and utility cabinets can be ordered with a wide bottom rail instead of a recessed toe space
- Standard WBRB on a kitchen base cabinet and utility cabinet is 5½"
- Toe Kick left (TKL) and right (TKR) not available with this modification

HOW TO ORDER

- Specify **WBRB** in the Special Information section
- Add the WBRB charge to the cost of the cabinet
- Pricing P-297



WBRB

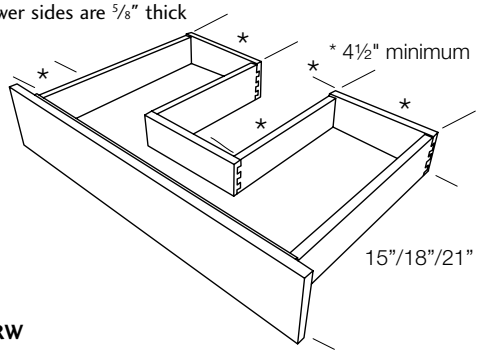
Block 9212 Chase Cutout Drawer

DESIGN CONSIDERATIONS
- Available on 18", 21" and 24" deep cabinets
- Minimum 18" wide cabinet
- Minimum cut out of 4½" to allow for dovetailing
- Overall drawer width is ⅜" less than the frame opening
- Drawer sides are ⅝" thick

HOW TO ORDER
- Pricing per drawer or roll tray
- Pricing P-297



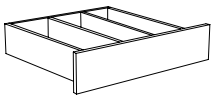
CCDRW

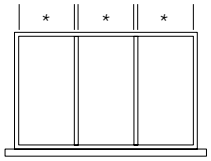
Block 9214 Drawer Partitions

This modification results in a drawer with fixed partitions.

DESIGN CONSIDERATIONS
- Drawer sides and partitions are ⅝" thick solid wood
- Overall drawer width is ⅜" less than the frame opening
- Drawer partitions are fixed

HOW TO ORDER
- Send drawing with position of drawer partitions
- Pricing per partition
- Pricing P-297





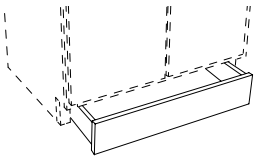
DWPAR

Block 9215 Toe Kick Drawer

This modification results in a cabinet with a drawer in place of the standard toe kick or wide bottom rail.

DESIGN CONSIDERATIONS
- Solid front drawer fronts only
- Installed in standard toe or wide bottom rail.
- Uses 2" high drawer
- 96" high cabinets receive a loose toe kick drawer, unless otherwise specified.
- Minimum cabinet depth is 13½"

HOW TO ORDER
- Order cabinet then on separate line specify BTKDW.
- Drawer will be full width unless specified.
- Pricing P-298



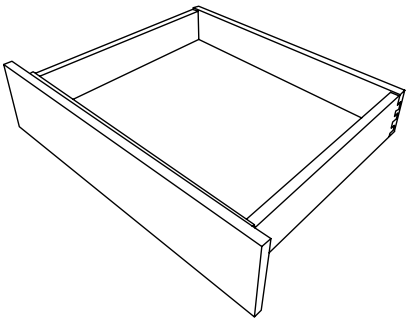
BTKDW

Block 9216 Walnut Drawer Box

This modification replaces all of the standard drawers and roll trays on the cabinetry order with walnut.

DESIGN CONSIDERATIONS
- Applies to the entire order
- 5/8" solid walnut

HOW TO ORDER
- Check the box on the first page of the Cabinetry Order Form
- Pricing per drawer or roll tray
- Pricing P-298



WLTDRW

Block 9220 Toe Treatment

This modification replaces the standard toe space with a decorative toe treatment on the plane of the face frame.

DESIGN CONSIDERATIONS
- Available for all cabinets with a toe, 12" through 84" wide
- Toe treatment acts as a wide bottom rail
- Toe notch and sub toe is removed on bases
- Toe Kick left (TKL) and right (TKR) not available with this modification
- Arched Chamfered SKTC toe treatment not recommended on cabinets below 21" in width
- There is no chamfer on SKTB and SKTC toe treatments on 18" and 21" wide cabinets

HOW TO ORDER

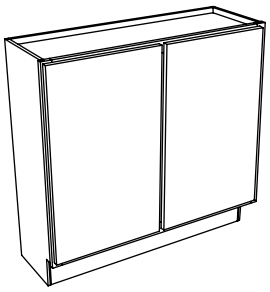
Block 9230 Toe Space – Wall Cabinets

This modification results in a wall cabinet that has 4" of toe kick space added. The height of the cabinet increases 4".

DESIGN CONSIDERATIONS
- Wall cabinets can be ordered with recessed toe space in front
- Overall height of cabinet will increase by 4"
- See block 9250 for toe kicks on the sides of a cabinet

HOW TO ORDER
- Specify **WTOE** in the Special Information section
- Add the WTOE charge to the cost of the cabinet
- Pricing P-298



WTOE

Block 9236 Legs Loose

This modification results in a Spa Vanity or island shipped in pieces—cabinet, leg assemblies or legs and plinth shelf (if applicable)—for final assembly on the jobsite.

DESIGN CONSIDERATIONS
- Cabinet, legs assemblies or legs are not crated
- Spa Vanity with plinth shelf shipped in four pieces
- Spa Vanity without plinth shelf shipped in three pieces
- Island with plinth shelf shipped in six pieces

HOW TO ORDER
- Specify **LLOSE** in the Special Information column on the order form.
- Pricing P-298

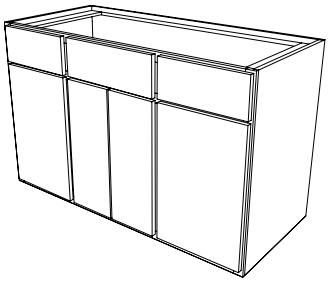
LLOSE

Block 9240 Omit Toe Kick

This modification results in a cabinet without a toe kick. Works well with vanity platform (block 8195).

DESIGN CONSIDERATIONS
- Cabinet is built without toe kick notch
- For designing with Vanity Platform (block 8195)
- Cabinet is reduced in height by 4". For example, 31½" cabinet is reduced to 27½" in height, 34½" cabinet is reduced to 30½" in height.

HOW TO ORDER
- Specify **OMTOE** in the Special Information section.
- There is no charge for this option.
- Pricing P-298



OMTOE

Block 9241 Loose Toe Option

NEW!

This modification results in a loose toe kick that is shipped with the cabinet.

DESIGN CONSIDERATIONS
- Cabinet is built without toe kick notch
- Loose toe kick is shipped with the cabinet
- Standard toe kick sizing
- Not available with wide bottom rail

HOW TO ORDER
- Specify **LSTOE** in the Special Information column on the order form.
- There is no charge for this option
- Pricing P-298

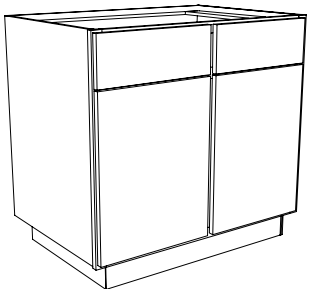
LSTOE

Block 9250 Toe Space - Base Cabinets

This modification results in a cabinet with a toe space on either side or on the back.

DESIGN CONSIDERATIONS
- Base, tall and wall cabinets can be ordered with recessed toe space on cabinet ends or back
- TKL and TKR not available with Wide Bottom Rail on front of cabinet.
- It is not necessary to specify TKL/TKR on a cabinet with a loose toe kick.

HOW TO ORDER
- Specify **TKL** (toe kick left), **TKR** (toe kick right) or **TKB** (toe kick back) in the Special Information section
- Add the TK charge to the cost of the cabinet
- Pricing P-298



TKL left
TKR right
TKB back

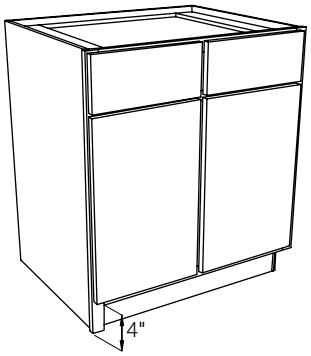
Block 9260 Base Extend Side and Stile Down

This modification results in a cabinet that has lengthened stiles for ease of attaching furniture skirts.

DESIGN CONSIDERATIONS
- Toe notch is removed
- Sub toe remains
- This modification can be applied to both sides, or just one side
- Refer to Blocks 13650-70 for skirts
- Inside of end panel is unfinished.

HOW TO ORDER
- This modification is priced per side
- Specify **BESSDL** (left), **BESSDR** (right) or **BESSDB** (both) in Special Information section
- Illustration shows left
- Add BESSD charge(s) to cost of cabinet
- Pricing P-298

NOTES/CAUTION
- BESSD frame stile is 1¼" wide when specified with beaded inset.



BESSDL
BESSDR

Block 9270 Side Extended Back

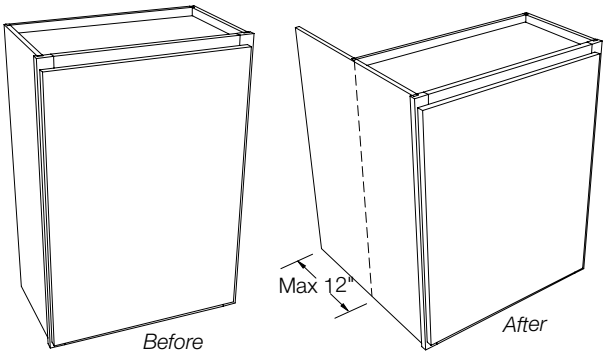
This modification results in a wall, tall, or base that has an end panel extended beyond the back of the cabinet.

DESIGN CONSIDERATIONS

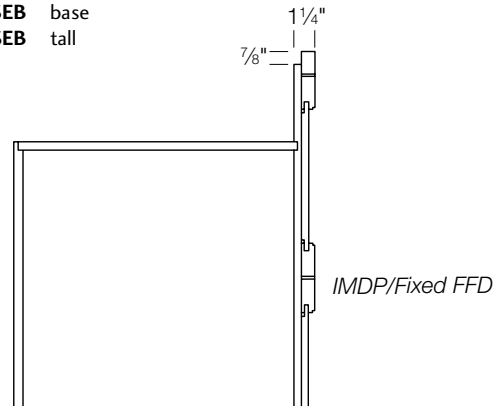
- Can be extended in ½" increments, up to 12" beyond the cabinet back
- Not available on corner cabinets
- When specifying a Fixed FFD or IMDP, a ½" interior panel is added. The total thickness of the extended side back increases to 1¼". The ⅞" notch accommodates a back panel butted into the stile.

HOW TO ORDER

- Specify **L** or **R** Side Extended Back and the dimension.
- Illustration shows left.
- Add Side Extended Back charge per side. Use the standard charge for extension up to 6". For extension up to 12", double the standard charge.
- Pricing P-298



WSEB wall
BSEB base
TSEB tall



Block 9280 Peninsula Cabinets

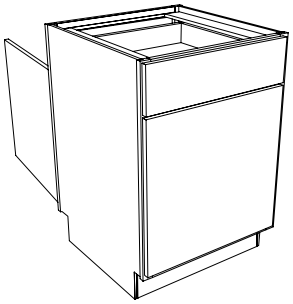
This modification results in a cabinet that has a face frame and door(s) on the front and on the back.

DESIGN CONSIDERATIONS

- Except where accessories or configurations will not permit, most cabinets can be ordered with face frames and door on the front and back of the cabinet
- Drawer header is false on peninsula side

HOW TO ORDER

- Prefix the cabinet nomenclature with a **P**
- Add 75% to the cabinet price
- For both doors, specify **L** or **R** hinging
- Pricing P-298



P

Block 9290 Angled Cabinets

This modification results in a cabinet built with an angle on the front or side.

DESIGN CONSIDERATIONS

- Cabinets are available with
  1) Angled Front. See Illustration A.
  2) Angled Side. See Illustration B.
  3) Angled Side with FF&D. See Illustration C.
- For other variations, call Technical Assistance at 800.551.3404.
- Cabinets that require frame components to be cut at an angle greater than 45 degrees will not be accepted for production.

HOW TO ORDER

- Angled cabinets not covered in the price list, including Angled Side with FF&D, must be quoted through Technical Assistance before they are ordered
- ✪ A top view drawing showing all dimensions must accompany your order
- In the Cabinet Number section, specify the **cabinet** you are modifying. Please note that the width of cabinet that you start with must match the dimension you note in the top view drawing. This dimension is indicated in the illustrations below with an asterisk.
- Specify the **angle modification** (**AS** or **AF**) in the Special Information section
- Add the upcharge to the cost of the cabinet
- Pricing P-299

Block 9300 Stacked Cabinets

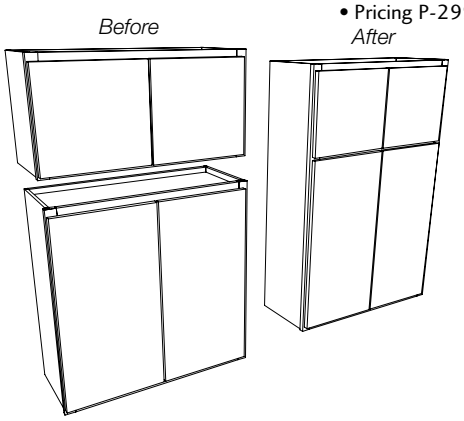
This modification results in multiple cabinets stacked vertically to create one unit, creating a seamless end panel.

DESIGN CONSIDERATIONS

- Wall cabinets can be stacked up to 120" in height, as long as the width is 48" or less.
- Doors may not align with cabinets stacked at jobsite.

HOW TO ORDER

- Specify **SC** in the Special Information section of the cabinets you are "stacking"
- Add the SC charge to the basic cost of each cabinet
- ✪ A drawing must accompany your order
- Pricing P-299



SC per cabinet

Block 9310 Combining Cabinets

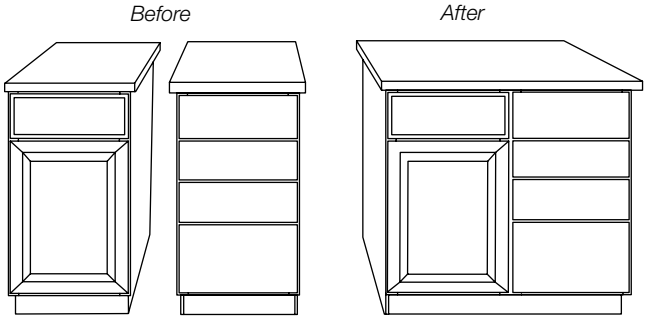
This modification results in multiple cabinets combined horizontally to create one unit.

DESIGN CONSIDERATIONS

- Wall, vanity or base cabinets can be combined up to 84" in width, as long as the height is 48" or less.
- Utility cabinets can be combined up to 36" in width.
- Cabinets must be the same height and depth to be combined at the factory
- Factory will build door openings according to cabinets chosen to combine
- Partitions are required for shelves in cabinets that will be over 48" wide when combined
- To receive partitions in cabinets under 48" wide, please specify when ordering
- Partitions are ¾" thick

HOW TO ORDER

- Specify **COMBCAB** in the Special Information section of the cabinets you are combining
- Add the COMBCAB charge to the basic cost of each cabinet
- ✪ A drawing must accompany your order
- Specify necessary partitions (block 9380) as a separate line item
- Pricing P-299



COMBCAB

Block 9320 Add Door

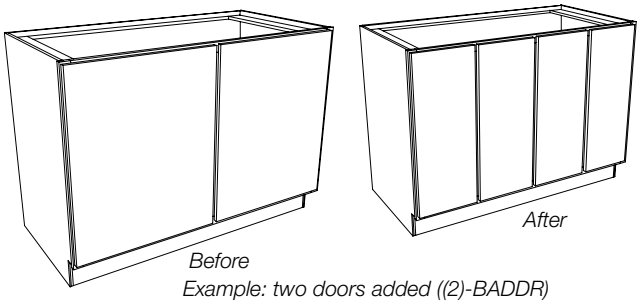
This modification results in a wall, tall, or base that has an added door.

DESIGN CONSIDERATIONS

- If you are adding doors on top of each other, this modification can be combined with Add Rail and Floor (block 9340) to create separate storage areas on a cabinet

HOW TO ORDER

- Specify **__ADDR** in the Special Information section
- Add the Add Door charge to the cabinet
- ✪ Send drawing and specify door hinging and opening size.
- Pricing P-299



Example: two doors added ((2)-BADDR)

WADDR wall

BADDR base

TADDR tall

Block 9330 Add Drawer

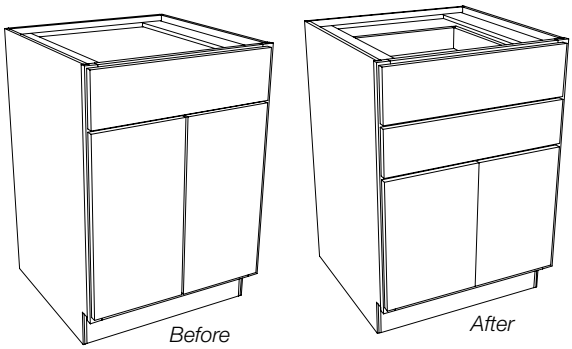
This modification results in a wall, tall, or base that has an added drawer.

DESIGN CONSIDERATIONS

- This modification includes the added frame rail.

HOW TO ORDER

- Specify **__ADDW** in the Special Information section
- Add the Add Drawer charge to the cabinet
- ✪ Send drawing and specify drawer opening height
- Pricing P-299



Example: one drawer added (BADDW)

Block 9390 Wine Cubes

This modification results in wine cubes being added to a wall, tall or base cabinet.

DESIGN CONSIDERATIONS

- The height of the modified cabinet remains the same height. The door shortens in relation to the cubes added.
- The size of the cube openings are determined by the overall cabinet size, so from cabinet to cabinet, the opening sizes will range from 4" to 4¾".
- Entire cabinet will receive a finished veneer interior
- On the same cabinet, to create the best overall appearance, the openings in the outermost columns may be slightly different than other openings on that cabinet.
- Cube opening sizes cannot be modified.

HOW TO ORDER

- Use the chart at right to determine which modification to use, based on the width of the cabinet you are modifying.
- ✪ Send in drawing for clarification.
- Pricing P-300

Block 9400 Beaded Back

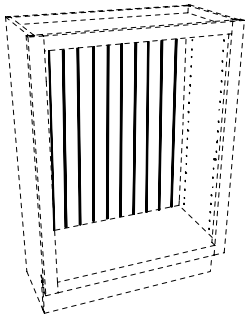
This modification replaces the standard back with a beaded panel.

DESIGN CONSIDERATIONS

- ⅜" thick beaded panel
- To order beaded panel in an accent color, see block 9401.
- To match the panel to the interior, specify a finished veneer interior
- Panel for tinted varnish finish will be MDF
- Veneer panels will have an MDF core

HOW TO ORDER

- Specify **BBACK** in the Special Information section
- Specify **STIN** in the Special Information section
- Specify **Width** x **Height**
- This item is priced per square foot
- Determine the square footage of the panel, remembering to convert inches into feet
- Add the square foot charge to the cost of the panel
- Pricing P-300



BBACK

Block 9401 Two-Tone Back

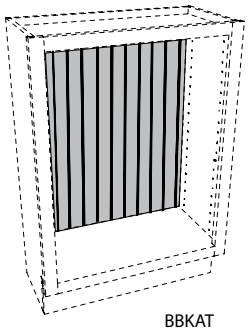
This modification results in a cabinet with a back panel in an accent color.

DESIGN CONSIDERATIONS

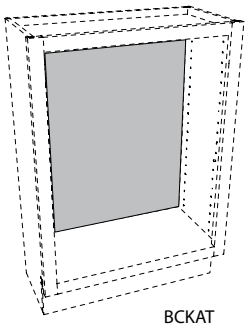
- BBKAT is a beaded back panel in an accent color.
- BCKAT is a standard back panel in an accent color.

HOW TO ORDER

- Specify **BBKAT** or **BCKAT** and accent color in the Special Information section
- Add Beaded Back upcharge (See Block 9400) to BBKAT upcharge. Add both upcharges to the cost of the cabinet.
- Add BBKAT upcharge to the cost of the cabinet.
- Pricing P-300



BBKAT



BCKAT

BBKAT beaded back
BCKAT standard back

Block 9410 Finished Back

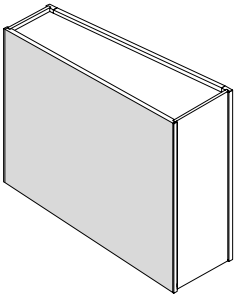
This modification replaces a cabinet's standard back panel with ¾" plywood that has been finished.

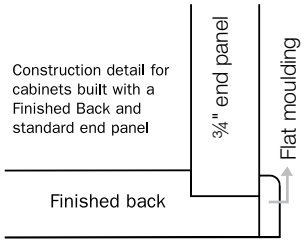
DESIGN CONSIDERATIONS

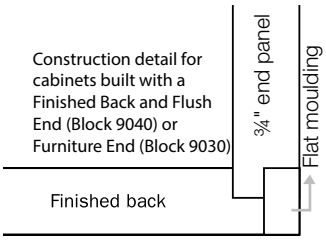
- Available for wall, base and tall cabinets no more than 48" wide.
- Not available for corner cabinets
- Use this modification when a cabinet back will be visible, such as peninsula and island applications.
- Cabinet remains at same depth.
- Not available in Weathered.

HOW TO ORDER

- Specify **__FBAC** in the Special Information column
- Add the __FBAC charge to the cost of the cabinet
- Pricing P-300







WFBAC wall
BFBAC base
TFBAC tall

Block 9420 Finished Paneled Back

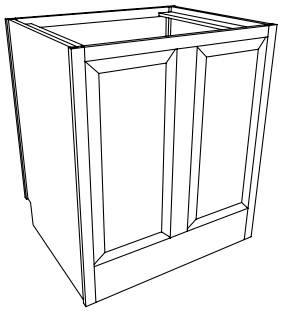
This modification replaces a cabinet's standard back panel with Authentic Desk Island Panel (wainscot).

DESIGN CONSIDERATIONS

- Framing will match door stiles and rails
- Bottom rail is 7"
- Available in all door styles except arched, mitered and Slab.
- False back is added to cover the inside of the panel. Inside dimension is reduced to 21¾"
- Cabinet depth remains the same

HOW TO ORDER

- Specify **__FPBC** in the Special Information column
- Add the __FPBC charge to the cost of the cabinet
- Pricing P-300



WFPBC wall
BFPBC base
TFPBC tall

Block 9430 Panel Void

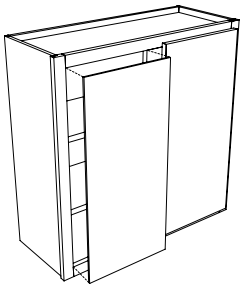
This modification results in a cabinet that has a ¼" plywood panel installed over the void area. Use to keep items secure within the cabinet and when void area will NOT be exposed after installation.

DESIGN CONSIDERATIONS

- Square wall and blind corner base cabinets can be ordered with ¼" plywood panels installed from the inside over the void

HOW TO ORDER

- Specify **WPLV** (wall panel void) or **BPLV** (base panel void) in the Special Information section
- Add the charge to the cost of the cabinet
- Pricing P-300



WPLV wall

BPLV base

Block 9440 Flush Void

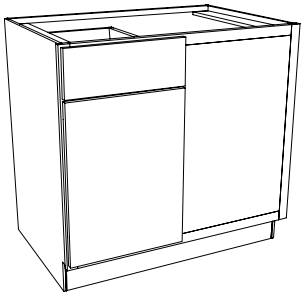
This modification results in solid wood inserted in the void area of a blind corner cabinet. Use when a void area will be visible after installation.

DESIGN CONSIDERATIONS

- Square wall and blind corner base cabinets can be ordered with void area filled with solid wood

HOW TO ORDER

- Specify **WFLV** (wall flush void) or **BFLV** (base flush void) in the Special Information section
- Add the FLV charge to the cost of the cabinet
- Pricing P-301



WFLV wall

BFLV base

Block 9460 Full Shelves

This modification replaces the standard depth shelves with shelves that are full depth.

FS

DESIGN CONSIDERATIONS

- This modification is available for base cabinets with standard shelves.

HOW TO ORDER

- Specify **FS** in the Special Information section
- Add the FS charge to the cost of the cabinet
- Pricing P-301

Block 9470 Maple Natural Veneer Interior

This modification results in a wall, tall or base cabinet that has a maple natural veneer interior.

DESIGN CONSIDERATIONS

- The entire interior of the cabinet—top, bottom, shelves, end panels, back panel and drawer bottoms—will be maple natural veneer
- Tops and bottoms of wall cabinets will have a maple natural veneer on the interior and exterior of the cabinet
- A finished veneer interior cabinet (STIN Block 9480) with a _PVIN modification will result in a finished veneer interior; the tops and bottoms will have a finished interior and maple natural veneer on the exterior.

HOW TO ORDER

- Specify **_PVIN** in the Special Information section
- Add **_PVIN** charge to the cost of the cabinet
- Pricing P-301

Block 9480 Finished Veneer Interior

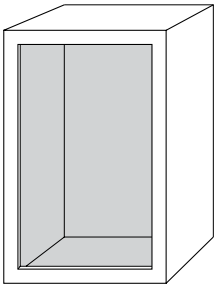
This modification replaces the standard melamine interior material with finished veneer plywood.

DESIGN CONSIDERATIONS

- Cabinet interior will receive finished veneer plywood

HOW TO ORDER

- Specify **STIN** in the Special Information section
- Add the STIN charge to the cost of the cabinet
- Pricing P-301



STIN per door

Block 9500 Insert Doors

This modification results in a wood frame door that can receive a decorative insert.

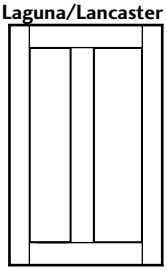
DESIGN CONSIDERATIONS

- Cabinet will receive a finished veneer interior
- ID doors for Laguna and Lancaster door styles have twin openings when door is equal to or greater than 14½" wide
- Mortise and tenon doors greater than 42" high will have a center rail.
- Retainer clips are included
- We do not recommend Insert doors on any door modified to 1⅞" stiles on square corner wall cabinets. The hinge is visible through the opening.

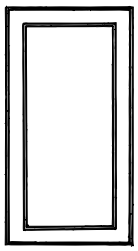
HOW TO ORDER

- Specify **ID** in the Special Information section
- Add ID charge to cost of cabinet
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-301

Laguna/Lancaster



Twin center panels are removed



Center Panel is removed

ID

Block 9510 Aluminum Frame Insert Doors

This modification results in an aluminum frame door with satin glass insert.

DESIGN CONSIDERATIONS

- Cabinet will receive a finished veneer interior
- Door is 13⁄16" thick with 2⅛" stiles and rails and mitered joints
- Satin glass included with door
- Available on cabinets 12"-48" high
- If using on tip-up doors, use the height charge for the width of the tip-up cabinet

HOW TO ORDER

- There is an extended lead time for Aluminum Frame Insert Doors. See your Cycle Ship for more information.
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-301

Block 9520 Thornton Insert Door

This modification results in a two-panel wood frame door that can receive an insert in the door's upper opening.

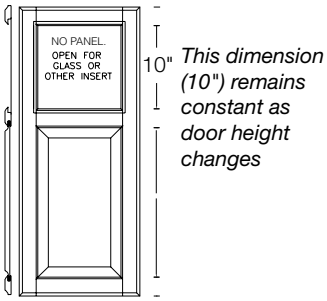
DESIGN CONSIDERATIONS

- Cabinet will receive a finished veneer interior
- Available for cabinets that are 30" high or taller but recommended for cabinets that are at least 36" high.
- Not available in mitered or slab doors. Arch door styles will be square.
- Upper opening accepts ¼" thick material
- Retainer clips are included

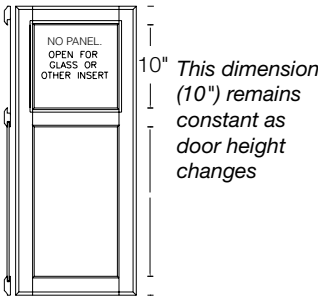
HOW TO ORDER

- Specify **THOR ID** in the Special Information section
- Add THOR ID charge to cost of cabinet
- To order decorative insert (block 9590, 9592, 9594, 9596), add the insert charge to the THOR ID charge. Specify the insert on a separate line.
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-301

Raised Panel



Flat Panel



THOR ID

Block 9521 Thornton Three Lite Mullion Door

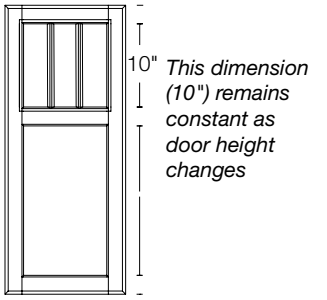
This modification results in a two-panel wood frame door that can receive an insert in the door's upper opening.

DESIGN CONSIDERATIONS

- Three equally sized lites
- Cabinet will receive a finished veneer interior
- Available for cabinets that are 30" high or taller but recommended for cabinets that are at least 36" high.
- Not available in mitered or slab doors. Arch door styles will be square.
- Upper opening accepts ¼" thick material
- Retainer clips are included

HOW TO ORDER

- Specify **TH3LT** in the Special Information section
- Add TH3LT charge to cost of cabinet
- To order decorative insert (block 9590, 9592, 9594, 9596), add the insert charge to the TH3LT charge. Specify the insert on a separate line.
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-301



TH3LT

Block 9522 Thornton Four Lite Mullion Door

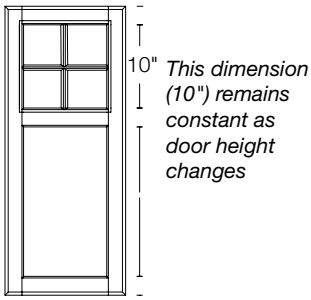
This modification results in a two-panel wood frame door that can receive an insert in the door's upper opening.

DESIGN CONSIDERATIONS

- Four equally sized lites
- Cabinet will receive a finished veneer interior
- Available for cabinets that are 30" high or taller but recommended for cabinets that are at least 36" high.
- Not available in mitered or slab doors. Arch door styles will be square.
- Upper opening accepts ¼" thick material
- Retainer clips are included

HOW TO ORDER

- Specify **TH4LT** in the Special Information section
- Add TH4LT charge to cost of cabinet
- To order decorative insert (block 9590, 9592, 9594, 9596), add the insert charge to the TH4LT charge. Specify the insert on a separate line.
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-301



TH4LT

Block 9523 Thornton X Insert Door

NEW!

This modification results in a two-panel wood frame door that can receive an insert in the door's upper opening.

DESIGN CONSIDERATIONS

- X in upper opening
- Cabinet will receive a finished veneer interior
- Available for cabinets that are 30" high or taller but recommended for cabinets that are at least 36" high.
- Not available in mitered or slab doors. Arch door styles will be square.
- Upper opening accepts ¼" thick material
- Retainer clips are included

HOW TO ORDER

- Specify **THMCR** in the Special Information section
- Add THMCR charge to cost of cabinet
- To order decorative insert (block 9590, 9592, 9594, 9596), add the insert charge to the THMCR charge. Specify the insert on a separate line.
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.

I available in Inset cabinetry

Block 9530 Mullion Doors

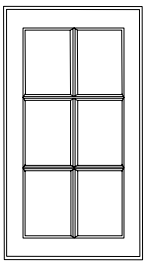
DESIGN CONSIDERATIONS

- Retainer clips are included
- Glass insert is not included
- Cabinet will receive a finished veneer interior on wood doors
- Allentown, Amsdahl, Avendale, Harbor, Huntingford, Oakley, Orian, Osprey and Overland mullion doors are built without applied moulding.
- Arlington, Altamonte, Bell Gardens, Ellington, Peabody, Redcliff and Syracuse mullion doors will only accept ⅛" glass. Glass clips will not be routed into frame.
- We do not recommend mullion doors on any door modified to 1⅞" stiles on square corner wall cabinets. The hinge is visible through the opening.

HOW TO ORDER

- Indicate **MD** in the Special Information section
- Determine number of lites the cabinet will receive
- See Inset section for number of lites the inset cabinet will receive.
- Add Lites charge to cost of cabinet.
- For non-standard size cabinets, call Technical Assistance at 800-551-3404.
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-302

This modification results in a wood frame door with mullions that can receive a glass, metal or resin insert.



See Inset Specification section for number of Mullions on Inset doors.

MISSION INSERT DOOR

This modification results in a wood frame Mission style door with divided lites in the upper section can receive inserts.

DESIGN CONSIDERATIONS

- Square wood frame doors used in cabinets 18" or higher can be ordered as Mission II or Mission III doors
- Not available in Tabor, arched or mitered door styles
- Retainer clips are included
- Allentown, Amsdahl, Avendale, Harbor, Huntingford, Oakley, Orian, Osprey and Overland mullion doors are built without applied moulding.
- Glass insert is not included
- Cabinet will receive a finished veneer interior

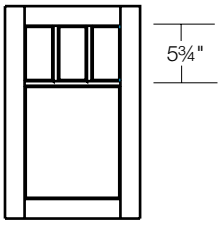
HOW TO ORDER

- Specify **MS2** or **MS3** in Special Information section
- Add MS charge to cost of cabinet
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-302

NOTES/CAUTION

- Not available on inset cabinets less than 15" wide.

Block 9540 Mission II Insert Door



MS2

This dimension (5¾") remains constant as door height changes.

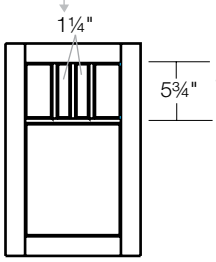
- Door has 4 lites
- Three equal size openings in the upper portion

NOTES/CAUTION

- Not available on inset cabinets less than 15" wide.

Block 9550 Mission III Insert Door

This dimension (1¼") remains constant as door width changes.



MS3

This dimension (5¾") remains constant as door height changes.

- Door has 5 lites
- Width of outside lites increase and decrease with the door size
- Minimum cabinet width
  15" single door
  30" double door

NOTES/CAUTION

- Not available on inset cabinets less than 15" wide.

Block 9560 Four Lite Mullion Door

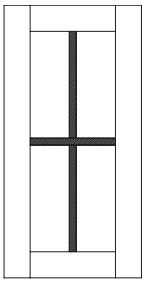
This modification results in a wood frame door with mullions that can receive a glass, metal or resin insert. The lites are all the same size, regardless of door size.

DESIGN CONSIDERATIONS

- Mullion door with four equally sized lites
- Retainer clips are included
- Glass insert is not included
- Cabinet will receive a finished veneer interior
- Allentown, Amsdahl, Avendale, Harbor, Huntingford, Oakley, Orian, Osprey and Overland mullion doors are built without applied moulding.

HOW TO ORDER

- Indicate **4LITE** in the Special Information section
- Add 4LITE charge to the cost of the cabinet
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-302



4LITE

Block 9570 Prairie Mullion Door

This modification results in a wood frame Prairie style door with nine lites that can receive an insert.

DESIGN CONSIDERATIONS

- Square wood frame doors can be ordered as Prairie Mullion doors
- Doors have nine lites. See illustration A.
- Exceptions: 2W2430 will have 6 lites. See illustration B. Doors installed on cabinets greater than 36" high will receive an extra horizontal mullion for stability. See illustration C.
- Allentown, Amsdahl, Avendale, Harbor, Huntingford, Oakley, Orian, Osprey and Overland Prairie Mullion doors are built without applied moulding.
- Retainer clips are included
- Glass insert is not included
- Cabinet will receive a finished veneer interior
- Not available in arched or Tabor door styles
- Available on cabinets 15" and higher

HOW TO ORDER

- Specify **PMD** in Special Information section
- Add PMD charge to cost of cabinet
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-302

Block 9580 Custom Mullion Door

This modification results in a wood frame door with mullions that can receive a glass, metal or resin insert.

DESIGN CONSIDERATIONS

- Minimum cabinet width is 15". Stile width may affect minimum size. See chart below
- Maximum cabinet height is 54"
- Available on Accord, Aero, Avendale, Bedford, Bonita, Breckenridge, Bridgeport, Chesapeake, Claymont, Clifton, Coralville, Cosmopolitan, Farmington, Fullerton, Hampton, Hanover, Harbor, Harrison, Hudson, Huntingford, Laguna, Lancaster, Lehigh, Liberty, Manhattan, Medina, Melbourne, Milan, Monroe, Oakley, Orian, Osprey, Overland, Renwick, Reynolds, Richland, Ridgeville, Roanoke, Roseville, Salem, Stockton, Stratford, Taft, Tempo, Tipton, Tucson and Tudor door styles
- Waterfall, Waynesville and Westerly are available in these Custom Mullion Doors: Portal II and Vennicia.
- Available on Alexandria, Allentown, Amsdahl, Charlotte, Danburg, DeWitt, Fairhaven, Gillette, Knottingham, Lafayette, Lafontaine, Laforest, Mackay, Merrimac, Montico, Rocheport and Rock Elm inset door styles
- Winterhaven inset door styles are available in these Custom Mullion Doors: Portal II and Vennicia.
- Wood retainer frame is included
- Glass insert is not included
- Cabinet will receive a finished veneer interior
- Allentown, Amsdahl, Avendale, Harbor, Huntingford, Oakley, Orian, Osprey and Overland Custom Mullion doors are built without applied moulding
- We do not recommend Custom Mullion doors on any door modified to 1⅞" stiles on square corner wall cabinets. The hinge is visible through the opening.

HOW TO ORDER

- Indicate **nomenclature** in the Special Information section
- Add **Custom Mullion Door** charge to cost of cabinet
- Cannot be placed on rush schedule
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-302-303

Block 9590 Decorative Glass Inserts

This modification results in a wood frame door that has a decorative glass insert.

DESIGN CONSIDERATIONS

- The minimum cabinet width is 15″ for all designs except for Classic, Diamond, Garden, Heirloom and Lace, where the minimum is 18″.
- The minimum Inset cabinet width is 18″ for all designs except for Classic and Heirloom, where the minimum is 21″.
- Maximum cabinet height is 42″
- Lancaster Insert doors specified with leaded glass inserts (GD) are built without a center mullion.
- All designs work with arched and square door styles
- All designs are available with lead caming. Some are available with brass caming. If a design is available with brass (BR), the code BR will be in the nomenclature.
- Cabinet will receive a finished veneer interior
- To add an extra sparkle to the design, add lighting to the interior of the glass cabinet

HOW TO ORDER

- Specify **G____** in the Special Information section
- Add glass charge to cost of cabinet. The cost to prepare the door (ID) is included in the cost of the glass.
- To choose the proper size, see the chart below
- Use the next larger size for cabinets that fall between listed heights.
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-304-305

INSTALLATION TIP

- Decorative glass is installed with clear plastic clips into the door at the factory. The door is shipped loose from the cabinet.
- After all the cabinets are installed, attach the door(s).

Block 9592 Tempered Clear and Satin Glass Inserts

This modification results in a wood frame door or drawer header that has a tempered clear or satin glass insert.

DESIGN CONSIDERATIONS

- Clear and satin glass inserts work with standard and custom size cabinets
- Clear and satin glass inserts work with arched and square door styles and Vegetable Storage drawers (VSDF). See Block 9820.
- Cabinet will receive a finished veneer interior

HOW TO ORDER

- There is an extended lead time for these inserts. See Cycle Ship for more information.
- The nomenclature suffix indicates height of the insert, i.e. TCR30 is a Clear glass insert that is 30 inches high.
- Specify **T___** in the Special Information section
- Add clear or satin glass insert charge to cost of cabinet
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-305

INSTALLATION TIP

- Clear and satin glass inserts are installed with clear plastic clips into the door or drawer at the factory.

Block 9594 Textured Tempered Glass Insert

This modification results in a wood frame door or drawer header that has a textured tempered glass insert.

DESIGN CONSIDERATIONS

- All of the textured glass inserts work with standard and custom size cabinets
- All of the textured glass inserts work with arched and square door styles and Vegetable Storage drawers (VSDF). See Block 9820.
- Cabinet will receive a finished veneer interior

HOW TO ORDER

- There is an extended lead time for these inserts. See Cycle Ship for more information.
- The nomenclature suffix indicates height of the insert, i.e. TLD30 is a Listral D glass insert that is 30 inches high.
- Specify **T___** in the Special Information section
- Add textured glass insert charge to cost of cabinet
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-306

INSTALLATION TIP

- Textured glass inserts are installed with clear plastic clips into the door or drawer at the factory.

Block 9596 Resin Inserts

This modification results in a wood frame door or drawer header that has a resin insert.

DESIGN CONSIDERATIONS

- All of the Resin inserts work with standard and custom size cabinets
- All of the Resin inserts work with arched and square door styles and Vegetable Storage drawers (VSDF). See Block 9820.
- Cabinet will receive a finished veneer interior

HOW TO ORDER

- There is an extended lead time for these inserts. See Cycle Ship for more information.
- The nomenclature suffix indicates height of the insert, i.e. RTH30 is a Thatch Resin insert that is 30 inches high.
- Specify **R___** in the Special Information section
- Add Resin insert charge to cost of cabinet
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-306

INSTALLATION TIP

- Resin inserts are installed with clear plastic clips into the door or drawer at the factory.

Block 9600 Brass Inserts

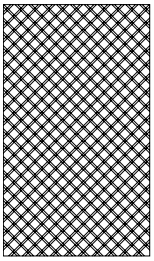
This modification results in a wood frame door that has a metal grille insert.

DESIGN CONSIDERATIONS

- Grille insert has Antique Brass finish
- Brass inserts are installed in the door at the factory
- Cabinet will receive a finished veneer interior
- Brass insert can be installed with glass insert. Both charges apply.

HOW TO ORDER

- Specify **IDAB** in the Special Information section
- Add IDAB charge to cost of cabinet
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-306



IDAB

Block 9610 Woven Wire Inserts

This modification results in a wood frame door or drawer header that has a woven wire insert.

DESIGN CONSIDERATIONS

- All wood frame doors and VSDF drawer headers can be ordered with a Woven Wire insert
- Woven Wire has an Antique Silver Finish
- Woven Wire is installed in the door at the factory
- Cabinet will receive a finished veneer interior
- Woven wire can be installed with glass insert. Both charges apply.

HOW TO ORDER

- Specify **IDSL____** in the Special Information section
- Add the IDSL charge to cost of cabinet
- The cost of the Insert door is included in the cost of the Woven Wire.
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.

Block 9620 Cottage Wire Inserts

This modification results in a wood frame door, a drawer header or a valance that has a cottage wire insert.

DESIGN CONSIDERATIONS

- All wood frame doors, VSDF drawer headers, frame valances and valance cut-out inserts can be ordered with a Cottage Wire insert
- Cottage Wire is available in Copper (C), Brass (B) and Antique Silver (AS) finishes
- Cottage Wire is installed in the door at the factory
- Cabinet will receive a finished veneer interior
- Cottage wire can be installed with glass insert. Both charges apply.

HOW TO ORDER

- Specify **IDCW____** in the Special Information section
- Add the IDCW charge to cost of cabinet
- The cost of the Insert door is included in the cost of the Cottage Wire.
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.

Block 9645 Faux Look Inserts

This modification results in a wood frame door or drawer header that has a faux look insert.

DESIGN CONSIDERATIONS

- All of the faux inserts work with standard and custom size cabinets
- All of the faux insert work with arched and square door styles and Vegetable Storage drawers (VSDF). See Block 9820.
- Cabinets will have standard melamine interiors.

HOW TO ORDER

- The nomenclature suffix indicates height of the insert, i.e. FLI30 is a Faux Leather insert that is 30 inches high.
- Specify **FI___** in the Special Information section
- Add faux insert charge to cost of cabinet
- When specifying this modification in 2020, we will use a suffix of .B (Bottom and Base doors), .M (Middle doors) and .T (Top and Wall doors) to indicate correct placement of glass/inserts/mullion doors on a cabinet.
- Pricing P-307

INSTALLATION TIP

- Faux inserts are installed with clear plastic clips into the door at the factory.

Block 9700 Pocket Doors

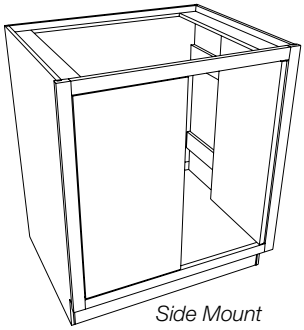
This modification replaces standard doors with pocket flipper doors.

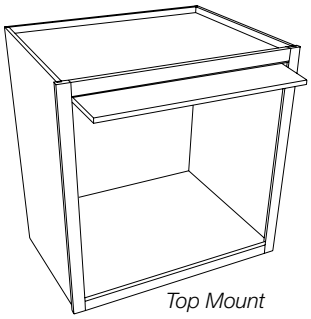
DESIGN CONSIDERATIONS

- Side Mount pocket doors are available for cabinets 18" deep (maximum width of 33"), 21" deep (maximum width of 39") and 24" deep (maximum width of 45")
- Side mount minimum opening height is 15"
- Side mount maximum opening height is 45"
- Top Mount pocket doors are available on cabinets 15"-27" wide and minimum of 18" deep.
- Top Mount minimum opening height is 15"
- Top Mount maximum opening height is 24"
- The interior of this cabinet will be visible. If a finished interior is desired order **PDSTIN.**
- All door styles are available. However, Hampton, Lamesa and Manchester doors may give an undesirable appearance.
- All four edges of the pocket door have a profile
- When closed, doors are flush with face frame
- Shelves are not included. If shelves are desired, specify Block 9380 Vertical Partitions.
- Inward door travel is 12" for 18" deep cabinet; 16" for 21" cabinet; 18" for 24" cabinet
- Make sure you have enough space for electronics. Calculate the available interior space by subtracting 3" from the width of the cabinet (to account for the frame) and 1.75" inches for one door (to account for proper operation of the door), or 3.5" for two doors. For example, a 45" wide cabinet with double doors will have 38.5" of interior space: 45-(3+3.5)=38.5.

HOW TO ORDER

- Specify **PD Side Mount or PD Top Mount** in the Special Information section
- Add PD charge to the cost of the cabinet
- Specify **L** or **R** hinging for single door side mount pocket doors.
- Pricing P-<?>





PD
PDSTIN

Block 9710 Delete Doors

This modification results in a cabinet that has no doors or drawer headers.

DESIGN CONSIDERATIONS

- **DELDR** delete doors only. Headers and drawer boxes remain if applicable.
- **DELHR** delete headers only. Doors and drawer boxes remain if applicable.
- **DLDHD** delete doors and headers. Drawer boxes and shelving remain if applicable.
- **DLALL** delete doors, headers and drawer boxes. Only cabinet carcass remains; without shelving, roll trays, drawer boxes, doors or headers.

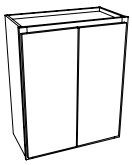
HOW TO ORDER

- Specify **DELDR, DELHR, DLDHD** or **DLALL** in the Special Information section
- Deduct percent from the cost of the cabinet
- An ogee inside edge is available at no charge. Specify **OGEE EDGE** on your order.
- Pricing P-307

The interior of this cabinet will be visible. See block 9480 to order a Finished Veneer Interior (STIN).

DELDR example

Before



After

DELDR delete doors only
DELHR delete headers only
DLDHD delete doors and headers
DLALL delete doors, headers and drawer boxes

Block 9720 Full Height Doors

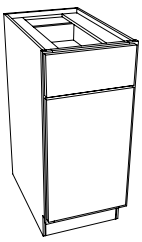
This modification replaces a door and drawer combination with a full height door.

DESIGN CONSIDERATIONS

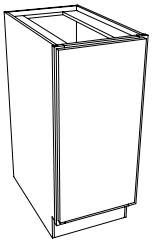
HOW TO ORDER

- Specify **FHD** in Special Information section
- There is no charge for this option
- Pricing P-307

Before



After



FHD

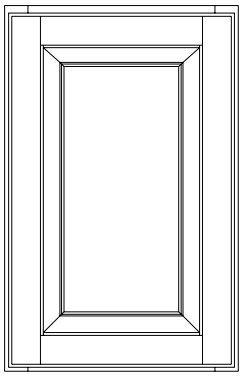
© Copyright StarMark Cabinetry FEBRUARY 2022

Block 9730 Face Frame with Door

This modification results in a face frame and door that covers a specified dimension. No box is built.

DESIGN CONSIDERATIONS

- Base, tall and vanity face frame with doors will have toe kick attached, unless otherwise specified.
- If FF&D is being applied to the back of an island or peninsula, specify WBR and fixed doors.
- If FF&D is being applied to a wall, i.e. laundry chute, specify no dadoes, finish all four sides and label loose.



FFD
FFD custom size

HOW TO ORDER

Standard Size FF&D

- In the Cabinet Number column, prefix the cabinet nomenclature with **FF&D**, for example, FF&DW1230.
- Deduct 35 percent from the cost of the cabinet.
- Specify fixed door or operating door.
- For operating single door specify **L** or **R**.

Custom FF&D

- In the Cabinet Number column, specify **FF&D** and suffix with the **width** and **height**, for example, FF&D1430.
- Determine square footage of the FF&D, remembering to convert inches to feet and to round up to the nearest foot.
- Multiply by the square foot charge and record the total cost in the price column.
- Specify fixed door or operating door.
- For operating single door specify **L** or **R**.
- Pricing P-308

Block 9740 Attached Mullion

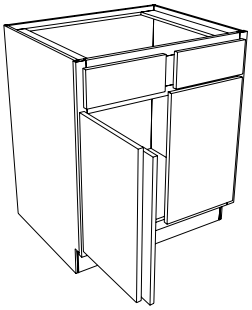
This modification results in a cabinet that has a face frame mullion attached to the left door.

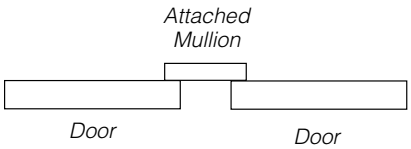
DESIGN CONSIDERATIONS

- Available for cabinets that
  - are up to and including 36" wide
  - have two doors
  - the doors have a Traditional overlay

HOW TO ORDER

- Specify **ATMUL** in the Special Information section
- Add ATMUL charge to cost of cabinet
- Unless you specify RIGHT in Special Information, the mullion will be attached to the left door
- Pricing P-308





ATMUL

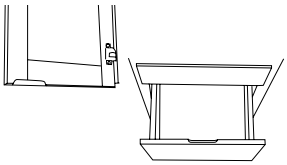
Block 9750 Finger Routes

This modification results in doors and drawer headers that have finger routes.

DESIGN CONSIDERATIONS

3½" Wide - 3/4" Deep

- Finger routes eliminate the need for hardware
- Available on Alite, Ashford, Bedford, Salem and Tudor doors
- Not available on Modern Overlay door styles.
- Not available on pocket doors
- Not available with Decorator Edge.
- Not available with Regent Drawer profile
- Cabinets wider than 24" will have 2 finger routes per drawer header.
- Bottom drawer has route on top edge. All other drawers have route on the bottom edge.
- This option applies to the entire order.



FR

HOW TO ORDER

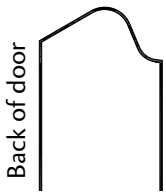
- Check FINGER ROUTES in the STYLING OPTIONS box, found on the first page of the order form
- Specify **FR** as a separate line item
- To price, total the doors and drawer headers in the order, multiply by the FR charge, and specify the total in the price column
- Pricing P-308

Block 9760 Bevel Pull

This modification results in doors and drawer headers that have bevel pulls.

DESIGN CONSIDERATIONS

- Doors and drawer headers with top and bottom bevel pulls for a non-decorative hardware application
- Available on Alite, Ashford, Bedford, Salem and Tudor doors
- Not available on Modern Overlay door styles.
- Not available on pocket doors
- This option applies to the entire order.
- Not available with Decorator Edge.
- Not available with Regent Drawer profile



BP

HOW TO ORDER

- Check BEVEL PULL in the STYLING OPTIONS box, found on the first page of the order form
- Specify **BP** as a separate line item
- There is no charge for this option
- Pricing P-308

© Copyright StarMark Cabinetry **FEBRUARY 2022**

Block 9770 Locks

This modification results in a door or drawer built with a cam lock.

DESIGN CONSIDERATIONS

- The lock has an Antique Brass finish
- Not available in Mitered door styles.
- Not available on butt doors. Butt door cabinets have a "2" prefix.
- Not available on five-piece, Profiled or Regent header drawers.
- All locks are keyed the same.

HOW TO ORDER

- Specify **LOCKS** in the Special Information section
- Specify which doors or drawers on the cabinet should receive locks
- Add the LOCKS charge to the cost of the cabinet as a per door/ drawer charge
- Pricing P-308

LOCKS

Block 9790 Edge Treatments

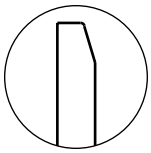
This modification replaces the standard edge detail on doors and drawer headers with an optional edge treatment.

DESIGN CONSIDERATIONS

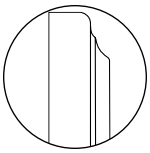
- The Regent profile is not available on orders containing the Decorator Edge, H edge, A edge or M edge.
- The Edge Treatments modification applies to the entire order.
- See Cabinetry Specifications section for availability and for more information on the Edge Treatments.

HOW TO ORDER

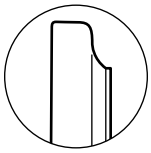
- Check OPTIONAL EDGE in the STYLING OPTIONS box, found on the first page of the order form
- Specify **EDGE TREATMENTS** in the Special Information section
- There is no upcharge to add Edge Treatments to the doors and drawer headers.
- Pricing P-308



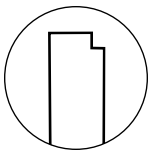
A



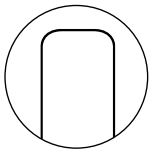
DECO



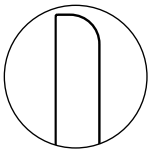
F



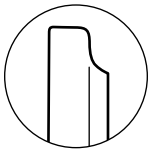
H



L



M



Z2

Block 9800 Furniture Pegs

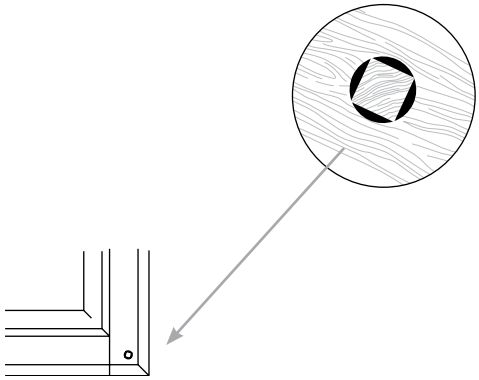
This modification results in a door or five piece drawer header that has furniture pegs.

DESIGN CONSIDERATIONS

- See Door Specification Matrix for availability
- Furniture pegs are <u>not</u> available on mitered door styles, slab doors or slab headers
- Pegs are 5/16" square wood pegs driven into a 3/8" diameter drill hole
- NOTE: This is a rustic look. The gaps between the peg and the hole are not filled and are visible. See illustration below. View a sample door to confirm desirability of this option.
- Oak pegs will be used in alder, oak, cherry, hickory and walnut doors
- Maple pegs will be used in maple doors
- When Decorator Edge is specified, Single Peg is the only option available
- This option applies to the entire order.

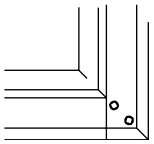
HOW TO ORDER

- Check DOUBLE PEGS or SINGLE PEGS in the STYLING OPTIONS box, found on the first page of the order form
- Specify **SPEGS** or **DPEGS** in the Special Information section
- Determine the number of doors/ drawers that will receive pegs
- Multiply the number by the pegs charge and add to cost of cabinet
- Pricing P-308



Single furniture peg

SPEGS
SPEGS



Double furniture peg

DPEGS
DPEGS

Block 9810 Scooped Drawers

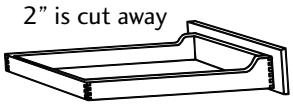
This modification results in a drawer that has scooped sides.

DESIGN CONSIDERATIONS

- Drawers are still functional, but sides of drawers are cut down 2" to accept installation of certain cooktops
- Minimum cabinet depth of 15" and minimum drawer depth of 12"

HOW TO ORDER

- Specify **SCPDWR** in Special Information section on order form
- There is no charge for this option
- Pricing P-308



SCPDWR

Block 9820 Vegetable Storage Drawer

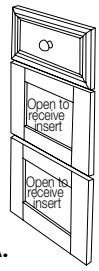
This modification results in drawer headers that have an opening that can receive an insert.

DESIGN CONSIDERATIONS

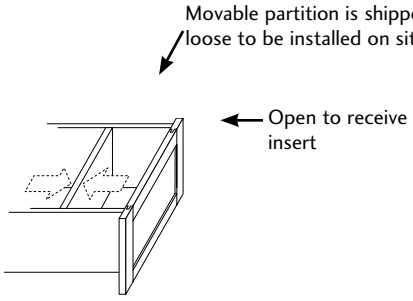
- Drawer opening must be 6" or higher for overlay or Inset door styles.
- Drawer header has five-piece construction with mortise and tenon detail. This construction does not match mitered door styles. See Illustration A.
- Center panel is open to receive insert. See Illustration B.
- Inserts are sold separately. Leaded glass is not recommended.
- Drawer partition is shipped loose
- Drawer box is ⅝" solid hardwood, finished in Natural.

HOW TO ORDER

- Specify **VSDF** in the Special Information section
- Determine number of drawers in the cabinet
- Multiply the number by the VSDF charge and add to cost of cabinet
- Pricing P-308



A.



B.

VSDF

Block 9830 Regent Profile Drawer Header

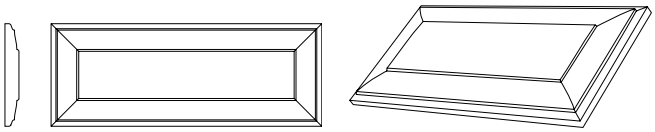
This modification replaces the standard slab header with a routed profile.

DESIGN CONSIDERATIONS

- Available on the Accord, Alite, Ashford, Avendale, Breckenridge, Chesapeake, Clifton, Coralville, Cosmopolitan, Georgetown, Harbor, Huntingford, Lehigh, Medina, Melbourne, Renwick, Richland, Ridgeville, Roanoke, Roseville, Salem, Stockton, Stratford, Taft, Tipton, Tucson and Tudor door styles.
- If you specify a REGENT PROFILE on these drawers, bevel pull, finger route, five piece header and locks are not available.
- A REGENT PROFILE on a desk drawer (DKV), Pull Out Keyboard (POK) and Vanity Desk Drawer (VDD) reduces the center panel to about one inch high. Larger styles of decorative hardware may not fit in this area.
- This option applies to the entire order. Every drawer will receive a Regent Profile except for cabinets with a flip down header (blocks 2310, 2315, 2340).
- Drawer header with a Regent Profile is ¾" thick at center and approximately ⅜" thick at outer step, near edge.

HOW TO ORDER

- Check REGENT PROFILE in the STYLING OPTIONS box, found on the first page of the order form.
- Specify **REGENT PROFILE** as a separate line item
- To price, total the drawers and drawers fronts in the order, multiply by the REGENT PROFILE charge, and specify the total in the price column.
- Pricing P-308



REGENT PROFILE

© Copyright StarMark Cabinetry FEBRUARY 2022

Block 9835 Profiled Drawer Header

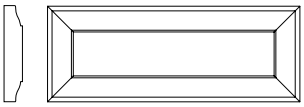
This modification replaces the standard slab drawer header with a profiled drawer header.

DESIGN CONSIDERATIONS

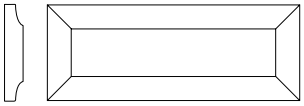
- Minimum header height of 3½" required.
- Rolled profiled drawer header available on the Accord, Arlington, Bell Gardens, Ellington, Georgetown, Huntingford, Lehigh, Melbourne, Peabody, Prescott, Redcliff, Ridgeville, Sundance, Syracuse and Venice door styles.
- Scooped profiled drawer header available on Alite, Breckenridge, Glendale, Hanover, Tudor, Verona and Westerly door styles.
- See Inset Specifications for Inset doors available with Profiled Drawer Headers.
- If you specify a PROFILED HEADER on these drawers, bevel pull, finger route, five piece header and locks are not available.
- A PROFILED HEADER on a desk drawer (DKV), Pull Out Keyboard (POK) and Vanity Desk Drawer (VDD) reduces the center panel to about one inch high. Larger styles of decorative hardware may not fit in this area.
- This option applies to the entire order. Every drawer will receive a Profiled Header except for cabinets with a flip down header (blocks 2310, 2315, 2340).
- Rolled profile coordinates with doors with a rolled center panel profile. Scooped profile coordinates with a scooped H center panel. See below.

HOW TO ORDER

- Check PROFILED HEADER in the STYLING OPTIONS box, found on the first page of the order form.
- Specify **PROFILED HEADER** as a separate line item
- To price, total the drawers and drawers fronts in the order, multiply by the PROFILED HEADER charge, and specify the total in the price column.
- Pricing P-308



Rolled



Scooped

PROFILED HEADER

Block 9840 Five Piece Drawer Header Option

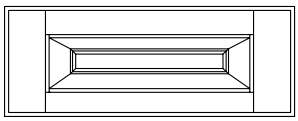
This modification replaces the standard slab drawer header with a five-piece drawer header.

DESIGN CONSIDERATIONS

- See Cabinetry Specification section for availability and illustration of option on available door styles.
- This option is applied to the entire order
- Any drawer opening less than 4½" high will have a slab header.
- Any drawer opening less than 5 11/16" high in Inset will have a slab header.

HOW TO ORDER

- Check Five Piece Drawer Header in the STYLING OPTIONS box, found on the first page of the order form
- Specify **5PC HDR** as a separate line item
- To price, total the drawers and drawer headers in the order, multiply by the 5PC HDR charge, and specify the total in the price column
- Pricing P-308



5PC HDR

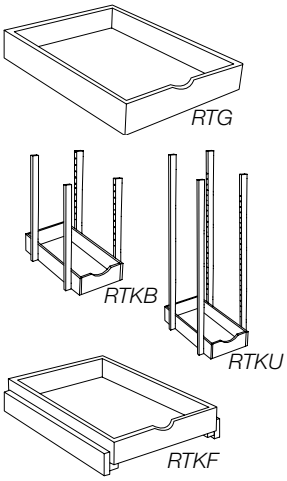
Block 10000 Roll Out Trays



DESIGN CONSIDERATIONS

- Trays are shipped separately to be field installed unless ordered with a specific cabinet for factory installation.

HOW TO ORDER

- EXAMPLE: To order trays for existing cabinet - B45, order:
  (2) RTKB19 - includes pilasters and glides
  (2) RTG225-24 - includes glides
  (1) BVP - See Block 9380
- Nomenclature indicates cabinet width. Unless a specific cabinet is listed.
- Specify **RTFMI** for a roll out tray with a Maple Natural Veneer Interior bottom.
- To modify dimensions, use **ACMOD** in Block 9085. Specify dimensions in special info.
- Pricing P-311

Tray with glides

24" deep cabinet

Block 10001 Roll Out Tray Pilasters

NEW! I

DESIGN CONSIDERATIONS

- Pilasters in this block are intended to be used to retrofit cabinets that are already installed so the cabinet can accept roll trays. Order the roll trays (Block 10000) and the glides (Block 10571) separately.
- Pilasters are sold in pairs.
- Not all cabinets can be retrofitted with roll trays
- Please note, if you don't see your End Panel listed below, call Technical Support. One of the pilasters may still work for your particular situation.

HOW TO ORDER

- Select pilasters based on the opening of the cabinet, the construction of the cabinet, and the end panel used.
- Pricing P-312

19.5" Pilasters, Base Opening	Construction	End Panel
PI38BNHIMD	Inset	Non hinge side of an IMDP

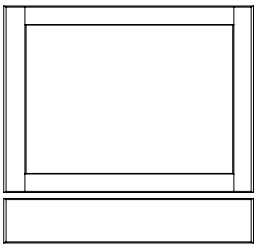
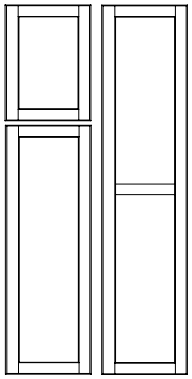
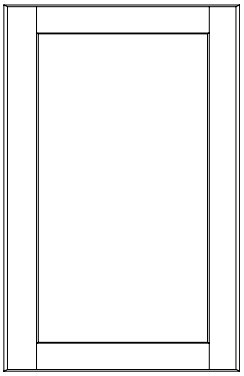
Block 11000 Authentic Appliance Front



ADWP/IDWP



AREFP/IREFP



AICP/ATCP

ADWP
AICP
AREFP
ATCP

IDWP
IREFP

DAPFB (finished back option for all appliance fronts)

DESIGN CONSIDERATIONS

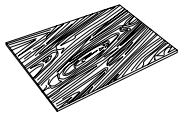
- Doors are secured to ¼" plywood panel
- If you don't want the doors secured to a plywood panel, please send manufacturer's specs with your order.
- Panels for cabinetry using a raised arch or square panel door style will have raised square panels
- All Authentic Appliance Fronts are available with Decorative Appliance Panel Finished Back (DAPFB) option.
- The DAPFB option is recommended on appliance fronts for most overlay product.
- Appliance front with the DAPFB option is finished on the back 6" from the edges, unless otherwise specified.
- ADWP Dishwasher panel/IDWP for Inset with frame
- AREFP Refrigerator panel/IREFP for Inset with frame
- AICP Ice Maker panel
- ATCP Trash Compactor panel
- DAPFB Decorative Appliance Panel Finished Back
- On the IDWP and IREFP the appliance may be visible between the frame and the door.
- Appliance fronts built to appliance manufacturer's specifications may not align with doors and drawer fronts on adjacent cabinets. See appliance manufacturer's specifications to see if there are options to modify the appliance or if the adjacent cabinetry requires modification.

HOW TO ORDER

- Dimensions of the ¼" plywood panel must be specified
- When the freezer unit is separate from the refrigerator unit, each unit will need a separate appliance panel. The panels are built separately and charged as such.
- Order appliance front and then specify **DAPFB** option if desired
- Pricing P-325

✪ To order this item, you must fill out and send an Appliance Template with the order.

Block 11010 Dishwasher Insert Panel



DIP

DESIGN CONSIDERATIONS

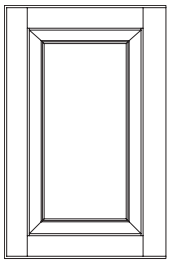
24" Wide - 30" High

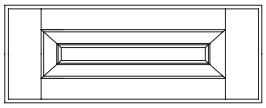
- ¼" veneer plywood
- Grain direction always follows height

HOW TO ORDER

- Pricing P-325

Block 11020 Single Doors and Drawer Headers





DRSQFT (door per square foot)
HDSQFT (header per square foot)

DESIGN CONSIDERATIONS

- Order single doors and drawer headers for wainscot, false fronts, and more.

HOW TO ORDER

- Specify **L, R** or **No** hinging
- Note on the order form the species, door style, finish, and the size of the door or drawer header.
- Calculate the square footage of the door size or drawer header you want, rounding up to the nearest square foot.
- The minimum charge is one square foot for a drawer header and two square feet for a door.
- Pricing P-325

VADIP			18-24	3
VADIP			25-36	6
VADIP97120			97-120	6

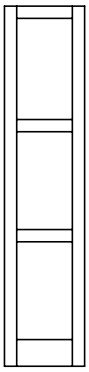
DESIGN CONSIDERATIONS

- Framing will match the door's stiles and rails.
- Bottom rail is 7". A 4½" WBR is available at no extra charge.
- Available in all door styles except arched, mitered and slab.
- To achieve an ADIP for arched, mitered and slab doors, use the FFD SQ FT charge in Block 11035.

HOW TO ORDER

- Specify **exact size** in Special Information section
- Choose from width ranges at left for pricing
- If applicable, specify **4½" WBR** in Special Information section
- Pricing P-326

*** When working with FF&D SQ FT for an ADIP type of a look keep in mind that doors will overlay frame openings just as if they were installed on the front of a cabinet. If you want to attach corbels or countertop brackets between the doors of a FF&D you will need to account for the width of the corbel and the width of the door overlay. For example, Modern doors overlay the frame 1¼" on each side of the opening. If the center stile is 3" on a FF&D there will only be ½" between the two doors.**



- Maximum width 36"
- Maximum height 96"

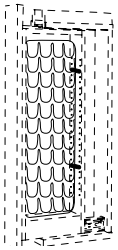
Block 11108 Beverage Pod Accessory for Wall Pull Out Filler Storage

DESIGN CONSIDERATIONS
- 19¾" high chrome wire rack
- Fits all heights of WPOFS3_ in block 11110
- Holds 44 beverage pods

HOW TO ORDER
- Order the WPOFS separately
- Pricing P-329

INSTALLATION TIPS
- Remove WPOFS shelves to install KCUPWPFS on job site



KCUPWPF3

Block 11110 Pull Out Filler Storage

DESIGN CONSIDERATIONS
- No modifications allowed
- At all widths and heights, shelves have chrome railings. Upper shelves are adjustable, bottom shelf is fixed. See chart for quantities.
- This unit is **not enclosed** with end panels. The base units do not have a toe kick. A small scribe moulding fits behind the lip of the face frame of adjoining cabinets. You must remove the scribe to install the unit next to a flush end panel or a furniture end panel.
- To install this unit at the end of a run, a panel must be installed next to the unit.
- Vanity fillers include clear acrylic bins for smaller items. See chart for quantities.
- For full access to shelving, do not install this unit next to a deeper cabinet.
- MTVPOFS630 includes soft close

HOW TO ORDER
- We recommend specifying Finished Ends (Block 9020) on adjacent cabinets.
- See blocks 11340 - 11360 for filler caps. Filler caps are placed on the front of this unit so it's flush with doors on the adjacent cabinets.
- Pricing P-329

INSTALLATION TIPS
- Moulding treatment for the wall cabinet pull-out fillers will have to be thought out. See HelpZone.

Component A
- The specie and finish of this component will match the rest of the order.
- On a base and tall vanity unit, the height of **A** is 30⅜".
- On a vanity unit, the height of **A** is 27⅜".
- On a wall cabinet, the height of **A** corresponds to the height ordered: 30", 33", 36", 39", 42".

Component B
- This scribe moulding, which is on both sides, can be removed so a one-inch end panel can be installed.

Component C
- Component **C** is constructed of hardwood. The glides are full extension.

Block 12615 Mirror Moulding

MM4
MM5
MM6
MM7

DESIGN CONSIDERATIONS

- Use to frame large mirrors on the job site
- Stile and rail moulding material matches the door style and edge profile specified on the cabinetry order.
- Stile and rail moulding material is routed to accept mirror
- When calculating the length needed, take into account the width of the stile and rail moulding material and the mitering.
- Mirror not included
- Finished edges indicated by dark line

HOW TO ORDER

- Sold in 4', 5', 6' and 7' lengths
- Specify quantity of each moulding length. For example, for a 60" x 36" mirror, specify two MM6 lengths and two MM4 lengths.
- Pricing P-359

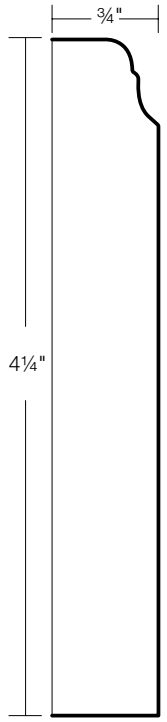
Block 12620 Base Return Moulding



Alder, Cherry, Hickory, Maple, Oak, Walnut
MBRM8
MBRM10

DESIGN CONSIDERATIONS

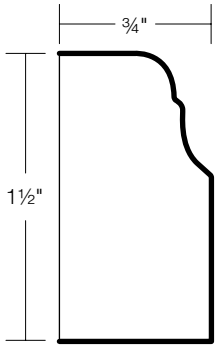
4¼" High

- To be used as a return with brackets or a skirt
- Decorator edge profile standard
- To achieve lengths of less than 8', order solid stock (block 12600) with DCE edge (block 12610).

HOW TO ORDER

- This item is sold per 8 foot length and 10 foot length.
- The lengths are nominal. An 8 foot piece of moulding will have 93" of usable length. A 10 foot piece of moulding will have 117" of usable length.
- Pricing P-359

Block 12630 Skirt Base Moulding



Alder, Cherry, Hickory, Maple, Oak, Walnut
BM8
BM10

DESIGN CONSIDERATIONS

- BM8 is used as a bridge between bracket feet to create a skirting effect with parts when the design requires a skirt longer than the maximum 72"
- Bracket feet with BM8 or BM10 allows you to plan to 8 ft. or 10 ft. length; there will be seams at joinery
- Decorator Edge profile is standard

HOW TO ORDER

- This item is sold per 8 foot length and 10 foot length.
- The lengths are nominal. An 8 foot piece of moulding will have 93" of usable length. A 10 foot piece of moulding will have 117" of usable length.
- Pricing P-359

Bracket Feet and Corners

For blocks 13630, 13640

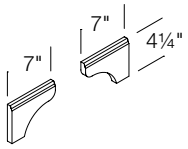
DESIGN CONSIDERATIONS

- Bracket feet and corners are to be used as decorative pieces installed over existing toe kick
- Brackets are ¼" taller than toe space for scribing
- Decorator Edge profile is standard

INSTALLATION TIP

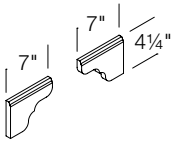
- Toe kick area will need to be finished with toe trim before applying brackets

Block 13630 Bracket Feet



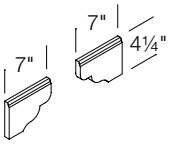
Traditional (A)

MBKFTA



Pointed (B)

MBKFTB



Arched (C)

MBKFTC

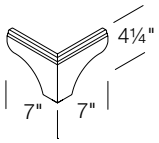
DESIGN CONSIDERATIONS

- Sold as pair – left and right
- See block 12630 for base moulding to bridge between brackets

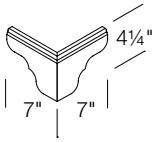
HOW TO ORDER

- Pricing P-369

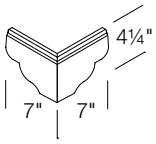
Block 13640 Bracket Corners



MBKFTAC



MBKFTBC



MBKFTCC

DESIGN CONSIDERATIONS

- Bracket corners are available for inside or outside corner applications
- See block 12630 for base moulding to bridge between bracket corners
- Outside application shown

HOW TO ORDER

- Suffix with an **I** for inside application or an **O** for outside application. For example, MBKFTAC-O.
- Traditional style is MBKFTAC
- Pointed style is MBKFTBC
- Arched style is MBKFTCC
- Pricing P-369

FURNITURE SKIRT

For blocks 13650, 13660, 13670

DESIGN CONSIDERATIONS

- Install a skirt over an existing toe kick area for a decorative accent.
- The skirt is shipped loose for field installation.
- The skirt is 2" longer than the nomenclature width to allow for fitting and is ¼" taller than toe space to allow for scribing.
- Decorator Edge profile is standard.
- See block 12620 for Base Return Moulding (BRM).
- See block 9260 for Base Extend Side and Stile Down (BESSD) to modify cabinet stiles. This allows a skirt to be installed on a cabinet without a toe kick notch.
- Maximum width of a skirt is 72". For wider applications, combine BM8 and bracket feet. See blocks 12630 and 13630.

HOW TO ORDER

- Specify size of skirt as a suffix to nomenclature, i.e. MSKTA28.
- If you are using a 2" decorative end panel, order a skirt from the ■ ■ column.
- If you are **NOT** using a 2" decorative end panel on either side, order a skirt from the ■ column.
- To modify dimensions, use **ACMOD** in Block 9085. Specify dimensions in special info.
- Pricing P-369

INSTALLATION TIPS

- Toe kick area will need to be finished with toe trim before applying skirt.

Column Base
AEBSNCT3

CAPITAL

Capitals and corbels form the top part of the column. Select pieces from the Modern Classic Collection to create small, medium and large columns.

SUB-CAPITAL

Sub-capitals are used to complete column design. Several Sub-capitals with flat facing can be embellished with your choice of decorative appliqué or rosettes. You can add one or more Sub-capitals to the column depending on the look you are trying to achieve.

PILASTER

Three pilaster sizes with varying configurations and four selections in texture, pattern and style establish the length of the large column. Heights are available in 42" and 91". The hand-chiseled and hand-stippled textures are shown below.

Hand-chiseled pilaster

Block 16000 Touch Up Material

DESIGN CONSIDERATIONS

- Material is available for field touch up on all finish types: stain, stain with glaze, tinted varnish, tinted varnish with glaze and top coat.
- We ship instructions with finish material, and we recommend using a professional for any finishing task that is beyond a basic touch up.
- The technique and equipment you use when field applying the finish will determine the outcome of the finished color.
- We are not responsible for the look and color of finishes applied outside of our factory. Our warranty does not cover finishes that are applied outside of our factory.
- When ordering quarts and gallons and shipping via FedEx, additional hazardous material charges will apply.
- Please note, all the items listed in Block 16000 are classified by carriers as hazardous material, and they will not ship this material to residential addresses. There are three approved destinations for this material: your showroom, your warehouse, and to a job site as part of a complete cabinetry order delivered by truck. We cannot ship this material to a homeowner or to your home.

HOW TO ORDER

- Specify the exact finish. We will send you the finish material we use to achieve that color in our factory. The finish material is outlined below.
- Order top coat material separately.
- Our Customer Service staff will replace the ** with the correct code to match the color on your cabinetry order form cover sheet.
- Catalyst items cannot be shipped air
- Pricing P-427

WHEN YOU ORDER QUARTS AND GALLONS

If the finish you order is a:	You will receive this finish material:
Stain	Stain (quart or gallon). You may also receive toner (quart or gallon), if we use toner at the factory to achieve that color.
Stain with Glaze	Stain (quart or gallon) and glaze (quart or gallon). you may also receive toner (quart or gallon), if we use toner at the factory to achieve that color.
Tinted Varnish	Primer (quart or gallon), enamel (quart or gallon) and catalyst
Tinted Varnish with Glaze	Primer (quart or gallon), enamel (quart or gallon), glaze (quart or gallon) and catalyst
Top Coat	Top coat (quart or gallon), sealer (quart or gallon) and catalyst
Glaze	Glaze (quart or gallon)

TOUCH UP MATERIAL FOR STAIN AND STAIN WITH GLAZE

Our Customer Service staff will replace the ** with the correct code to match the color on your cabinetry order form cover sheet.

QTSN**	one quart each of stain and toner (if needed)

Block 11010 Dishwasher Insert Panel

	All Species
DIP	108

- Calculate the square footage of the door size or drawer header you want, rounding up to the nearest square foot.
- Multiply by the square foot charge of $75.
- The minimum charge is one square foot for a drawer header and two square feet for a door.

For instance, a 12 inch by 26 inch door is:

12 x 26=312

312/144 = 2.16 square feet, round up to 3

3 x $75 = $225

Block 11020 Single Doors and Drawer Headers

To order a **BIMP** panel larger than 24" deep, specify the depth in the Special Information column.

If the panel is 1.5" wide,

use this formula: (1366÷24) x New Depth

For instance, a BIMP15L that is 27" deep will cost $1536.75.

To order a **UIMP** panel larger than 24" deep, specify the depth in the Special Information column. The cost is determined by the height of the panel.

If the panel is 84" high, use this formula: (2575÷24) x New Depth

If the panel is 90" high, use this formula: (2590÷24) x New Depth

If the panel is 96" high, use this formula: (2617÷24) x New Depth

For instance, a UIMP1590 that is 32" deep will cost $3453.33.

Complete and accurate information from you helps us turn this quote around within 48 hours. Our Technical Assistance Staff will send your pricing and quote number for your custom project to you using this form. This form must be submitted with your order to ensure that your order is built correctly.

ANY CHANGES TO THIS QUOTE WILL VOID YOUR QUOTE PRICE.

USE THIS FORM WHEN you need a finish, cabinet or door style that is not in the Price & Reference Catalog.

WHEN YOU FILL OUT THIS FORM, here are a few key points to keep in mind:

1. Supplying your name, account number and phone number ensures that we can contact you in a timely manner if we have any questions.
2. Include your email address if you are requesting a custom finish. We'll notify you as soon as we receive your color sample.
3. Include a drawing if you think it will help us understand your request better.
4. Please allow 48 hours for us to respond to your request. Sometimes we need to do a bit more research, but we will contact you within 48 hours to make you aware of any delays.
5. If you are unsure of anything on the form, please feel free to contact Technical Assistance. We're ready to help!
6. Please note that some custom finish samples may have an extended lead time based on availability of finish materials.

FOR MORE INFORMATION ON ORDERING CUSTOM FINISHES, please see the Cabinetry Specifications section in your Price & Reference Catalog. Those pages contain information about costs, color sample requirements, available distressing techniques and descriptions, and timelines that you need to be aware of.

These distressing techniques are available à la carte:

- ○ Chiseling (as seen in Homestead)
- ○ Dips
- ○ Knife cuts
- ○ Light chain distressing
- ○ Padding (as seen in Chateaux)
- ○ Rasping
- ○ Rounded corners
- ○ Rub through on flat surfaces
- ○ Spattering
- ○ Speckling (dark brown, as seen in Chateaux)
- ○ Worm holes
- ○ Worn edges on center panel

WHEN WE RECEIVE THE QUOTE REQUEST FROM YOU

1. If we are not able to approve your request, we will contact you to let you know why and offer alternatives to try.

WHEN YOU RECEIVE THE RETURN EMAIL please note the following shaded areas:

1. **Quoted By** The Technical Assistance Representative who approved your request will be noted here. You can talk to the Technical Assistance Representative if you have questions or if you need to make changes to the approved Custom Quote.
2. **Quote Number** We will write your Quote Number here. You will need to include this number when you submit the order to us for processing.
3. **Price Column** If we complete this area, this is the column that you will use to price your order.
4. **Option Upcharges** This will be filled out for custom finishes or a custom species. If this is listed as a Percent, please apply this amount to the entire list price of your order.
5. **Expiration Date** Our Customer Service Team needs to receive the order for processing on or before this date. If you run into an issue that may delay sending the order to us, please contact the Technical Assistance Representative that approved your request. The Technical Assistance Representative may be able to extend the price.

WHEN YOU PLACE AN ORDER THE QUOTED ITEM, please include your Custom Quote Number along with a copy of your approved Custom Quote Request. This will ensure there are no misinterpretations or delays during the order entry process.

Call StarMark Cabinetry's Technical Assistance Department at 800-551-3404.

Complete and accurate information from you helps us turn this quote around within 48 hours. Our Technical Assistance Staff will send your pricing and quote number for your custom project to you using this form. This form must be submitted with your order to ensure that your order is built correctly.

ANY CHANGES TO THIS QUOTE WILL VOID YOUR QUOTE PRICE.

DELIVERY AGREEMENT

At the time of delivery, before signing for your cabinetry order, be certain each piece on the delivery paperwork is accounted for. If you have pieces missing they MUST be noted on the Bill of Lading at the time the order is delivered. Each piece will have a line item number that corresponds to the StarMark Cabinetry line item number on the packing list. Do not sign complete until you are absolutely certain you have received everything.

Once you have received and signed for the items, you become the responsible party. StarMark Cabinetry and/or your cabinetry dealer will cover the cost of missing items that were noted at the time you received your order. Items missing must be noted on the driver's paperwork (Bill of Lading) and you will need to contact your cabinetry dealer immediately so items can be reordered.

If you receive any damaged items you need to contact your kitchen designer at your cabinetry dealer within 30 business days of delivery. All cabinetry must be inspected before the 30-day time limit expires. Cabinets that are not being installed within the 30 days must also be inspected and any damage should be noted and immediately reported to your cabinetry dealer, or you will be responsible for the cost of the item.

Replacement items will be delivered to your cabinetry dealer.

I have read and understand the above information.

STARMARK®
CABINETRY

FINISH EXPECTATIONS

StarMark Cabinetry is committed to the satisfaction of our customers. Therefore, it is important to us that you have realistic expectations of StarMark's fine wood cabinetry and fashion finishes, and fully understand the characteristics of the species and finishes outlined below. Your StarMark Cabinetry Dealer will review the following wood species and finish characteristics with you.

FACTORS that affect ALL WOODS and FINISHES

- **Hygroscopicity:** Wood is hygroscopic, meaning it absorbs and gives off moisture according to the humidity surrounding it, even when a finish has been applied. Because of moisture, wood shrinks and swells; this process may cause hairline fractures in the finish at the joints. (This is especially apparent with Tinted Varnish finishes.) This shrinking and swelling is normal and does not affect the structural stability or integrity of the joint construction.
- **Mellowing:** When exposed to light, most woods darken and mellow with age. Some species, especially cherry, change in color more than others. Mellowing changes the look of cabinetry. When your new cabinetry arrives for installation, the color will vary from the samples viewed in the showroom due to this aging process. Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

WOOD SPECIES CHARACTERISTICS

- The building blocks of StarMark Cabinetry products are select hardwoods and veneers in Alder, Rustic Alder, Oak, Quarter Sawn Oak, Maple, Cherry, Hickory, Rustic Hickory and Walnut. Each species has its own beauty and elegance, and, as it is machined, joined and finished into fine cabinetry, each piece reveals its individual appeal.
- Just as no two trees are alike, no two pieces of wood are alike. How and where the tree grows can affect the frequency of mineral deposits, light and dark wood, and grain patterns. This natural process will result in variations in grain and color throughout your cabinetry. The grain, texture and color of any sample will vary from another sample. Variations will be more apparent when viewing larger samples, such as entire rooms of cabinetry.
- Some species have more variation than others. Please see the descriptions on the following page for more details.
- If you desire total uniformity and perfect grain patterns, we recommend not purchasing solid wood cabinetry. If it is character, warmth and unique effects you prefer, then traditional wood cabinetry from StarMark Cabinetry should be your choice.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. If your order contains a Finished end panel (dealer, this is block 9020), we use an end panel with a layer of MDF. This is a superior substrate for achieving a consistent, quality finish. If you have questions about the materials used in StarMark Cabinetry, we encourage you to discuss with your dealer.

RUSTIC WOOD SPECIES ACKNOWLEDGEMENT

☐ ____ **Rustic Alder** will have "character" spots (knot, burl, blemish, etc.) on the center panels, and they may also be on the stiles and rails of the door, and on the drawer front, which could impact hardware placement. Knots, if they appear, will be sound and will be closed. At certain angles, light could be visible through the knot.

☐ ____ **Rustic Hickory** has a wide variation in color, ranging from nearly white to dark brown. There will be "character" spots (knot, burl, blemish, etc.) on the center panels, and they may also be on the stiles and rails of the door, and on the drawer front, which could impact hardware placement. Knots, if they appear, will be sound and will be closed. At certain angles, light could be visible through the knot.

StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

NOTE: The conditions described in this FINISH EXPECTATIONS form are NOT considered defects or reasons for replacement.

Specify the finish and species you have selected by checking the box and initialing.

This form must be reviewed, signed and secured at the time of order.

Because of moisture, wood shrinks and swells; this process may cause hairline fractures in the finish at the joints. (This is especially apparent with Tinted Varnish finishes.) This shrinking and swelling is normal and does not affect the structural stability or integrity of the joint construction.
- **Mellowing:** When exposed to light, most woods darken and mellow with age. Some species, especially cherry, change in color more than others. Mellowing changes the look of cabinetry. When your new cabinetry arrives for installation, the color will vary from the samples viewed in the showroom due to this aging process. Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

SPECIES ACKNOWLEDGEMENT

☐ ____ **Alder** is a soft hardwood with a fine, straight grain and even texture. Color is light brown with a yellow or reddish tinge. When you compare alder's heartwood with its sapwood, there is insignificant color difference. Alder does not evolve in color or darken when exposed to light or heat as other woods do. Alder takes stains and finishes well. It is one of the softest hardwoods so it can be damaged easily. Some small tight knots can be found with standard Alder.

☐ ____ **Cherry** displays a distinctive grain pattern and warm color shadings, ranging from nearly white to dark reddish brown. Dark pockets, pin knots and random streaks are common. More than most woods, Cherry will darken when exposed to light, especially in light stains.

☐ ____ **Hickory** is a heavy, strong hardwood known for flowing, vibrant grain patterns and dramatic color variation. Hickory can also exhibit random pecks, burls and mineral streaks. Hickory's color ranges across a wide spectrum, from nearly white to dark brown.

☐ ____ **Maple** is a versatile hardwood with a fine, smooth grain. Maple varies in color from nearly white to a slightly reddish brown. Mineral or sugar streaks occur naturally in Maple and can vary from piece to piece. This is more noticeable in lighter stains.

☐ ____ **Medium-density fiberboard (MDF)** is an engineered wood product made by breaking down hardwood or softwood residuals into wood fibers, often in a defibrator, combining it with wax and a resin binder, and forming it into panels by applying high temperature and pressure. MDF is generally more dense than plywood. It is made up of separated fibers, but can be used as a building material similar in application to plywood. It is stronger, and more dense, than particle board.

☐ ____ **Oak** is a strong hardwood with a long, linear grain, often displaying tiny rays. Oak, at times, has small pinholes and tight knots. Oak coloration can range from a golden blond to deeper tones.

☐ ____ **Quarter Sawn Oak** is milled at an angle 60 to 90 degrees from the grain allowing rays and flecks to become visible, giving the wood unique character and dimension.

☐ ____ **Walnut** is a strong, stable American hardwood known for wide color variation. It ranges in color from creamy white to a medium purplish brown. Walnut cabinetry will have both flowing grain and straight grain. This combination is a treasured characteristic of Walnut, and is showcased when Walnut is finished in Natural. However, Walnut takes all available stains well. Walnut is a favorite choice for furniture and furniture grade cabinetry, such as StarMark Cabinetry.

StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

NOTE: The conditions described in this FINISH EXPECTATIONS form are NOT considered defects or reasons for replacement.

Specify the finish and species you have selected by checking the box and initialing.

This form must be reviewed, signed and secured at the time of order.

STARMARK®
CABINETRY

FINISH EXPECTATIONS

StarMark Cabinetry is committed to the satisfaction of our customers. Therefore, it is important to us that you have realistic expectations of StarMark's fine wood cabinetry and fashion finishes, and fully understand the characteristics of the species and finishes outlined below. Your StarMark Cabinetry Dealer will review the following wood species and finish characteristics with you.

FACTORS that affect ALL WOODS and FINISHES

- **Hygroscopicity:** Wood is hygroscopic, meaning it absorbs and gives off moisture according to the humidity surrounding it, even when a finish has been applied. Because of moisture, wood shrinks and swells; this process may cause hairline fractures in the finish at the joints. (This is especially apparent with Tinted Varnish finishes.) This shrinking and swelling is normal and does not affect the structural stability or integrity of the joint construction.
- **Mellowing:** When exposed to light, most woods darken and mellow with age. Some species, especially cherry, change in color more than others. Mellowing changes the look of cabinetry. When your new cabinetry arrives for installation, the color will vary from the samples viewed in the showroom due to this aging process. Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

☐ ____ LIGHT STAINS and NATURAL FINISHES FINISH ACKNOWLEDGEMENT

- Light stains and natural finishes—those with no stain applied—are translucent and magnify the natural characteristics of wood. The infinite variation in grain patterns, color and particular markings are inherent to wood and its different species. These variations are a product of nature and comprise the fundamental beauty of real wood.

☐ ____ GRAY STAINS FINISH ACKNOWLEDGEMENT

- Gray stains—like Driftwood and Slate—have heavily pigmented toners that reflect light. This draws attention to finishing inconsistencies, substrate inconsistencies and the infinite variety of grain patterns and markings inherent to all species of wood.

☐ ____ UNFINISHED WOOD FINISH ACKNOWLEDGEMENT

- StarMark Cabinety will supply, upon request, unfinished product with no stain, sealer or top coat applied. We will not warranty any unfinished parts, including claims made for warpage, finish and color variation. StarMark Cabinetry and authorized StarMark Cabinetry dealers cannot be held responsible for any unfinished materials supplied.
- Even though we do not warranty unfinished items, this document does not invalidate our standard warranty for all other items on your order.

☐ ____ DARK STAINS FINISH ACKNOWLEDGEMENT

- Dark stains—like Java and Mocha—have heavily pigmented toners that reflect light. This draws attention to finishing inconsistencies, substrate inconsistencies and the infinite variety of grain patterns and markings inherent to all species of wood.

☐ ____ GLAZE FINISH ACKNOWLEDGEMENT

- The process of glazing begins with the hand-application of stain to bring out the beauty of the wood grain. After curing, the glaze compound is applied to several components of the cabinets in your order.
- Because of the techniques used in achieving this special finish, glaze buildup will occur around the door and drawer front edges, door panels, end grain and, to a lesser extent, flat surfaces such as some drawer overlays and center panels.
- The buildup of the glazing compound will vary from one piece to another and the variations may be dramatic. The broad variations inherent to glaze finishes are considered to be the beauty of this finish.
- Glazing is most apparent in contours where "hang-up" can occur. Doors with less detailed profiles will show less hang-up.
- We call your attention to the characteristics of glazed finishes because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common in glazed finishes and will not be reason for replacement.

StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

NOTE: The conditions described in this FINISH EXPECTATIONS form are NOT considered defects or reasons for replacement.

Specify the finish and species you have selected by checking the box and initialing.

This form must be reviewed, signed and secured at the time of order.

CABINETRY

FINISH EXPECTATIONS

StarMark Cabinetry is committed to the satisfaction of our customers. Therefore, it is important to us that you have realistic expectations of StarMark's fine wood cabinetry and fashion finishes, and fully understand the characteristics of the species and finishes outlined below. Your StarMark Cabinetry Dealer will review the following wood species and finish characteristics with you.

FACTORS that affect ALL WOODS and FINISHES

- **Hygroscopicity:** Wood is hygroscopic, meaning it absorbs and gives off moisture according to the humidity surrounding it, even when a finish has been applied. Because of moisture, wood shrinks and swells; this process may cause hairline fractures in the finish at the joints. (This is especially apparent with Tinted Varnish finishes.) This shrinking and swelling is normal and does not affect the structural stability or integrity of the joint construction.
- **Mellowing:** When exposed to light, most woods darken and mellow with age. Some species, especially cherry, change in color more than others. Mellowing changes the look of cabinetry. When your new cabinetry arrives for installation, the color will vary from the samples viewed in the showroom due to this aging process. Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

☐ ___ TINTED VARNISH FINISH ACKNOWLEDGEMENT

- Tinted Varnish finishes are distinctly different from standard finishes you may be familiar with. The best way to describe Tinted Varnish is to say it gives a painted finish. When applied to fine maple cabinetry, the grain of the wood will not show through. When applied to oak and quarter sawn oak cabinetry, the grain of the wood is visible, especially when a glaze is applied. Tinted Varnish is available on Maple, Oak and Quarter Sawn Oak door styles.
- Like other finishes, tinted varnish finishes have a coating of catalyzed varnish.
- Tinted Varnish finishes are susceptible to wear and tear from normal residential use. Solid color finishes intensify nicks, chips, dents and rub-through especially on sharp corners and edges.
- As the wood expands and contracts, hairline cracks will appear at the joints of the cabinets. The Tinted Varnish finish will also crack. (The integrity of the joints is not affected by expansion and contraction.) This cracking is a normal characteristic of Tinted Varnish finishes and will not be considered a reason for product replacement.
- Joint separation may be extreme on mitered doors and applied moulding doors, therefore Tinted Varnish finishes are not recommended for use in environments of high humidity.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. To get the best possible finish quality when creating cabinetry finished in Tinted Varnish, we use an end panel with a layer of MDF to create Flush end panels (dealer, this is block 9040), Finished end panels (dealer, this is block 9020), and Furniture end panels (dealer, this is block 9030). This is a superior substrate for achieving a consistent, quality finish. In addition, if the door you selected has a veneered center panel, it is replaced with a center panel made of HDO material and the Tabor door is constructed with 100% MDF. If you specify that the interior back panel of a cabinet should receive color (dealer, this is modification STIN, block 9480), the material used will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish. If you have questions about the materials used in StarMark Cabinetry, we encourage you to discuss with your dealer.

StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

NOTE: The conditions described in this FINISH EXPECTATIONS form are NOT considered defects or reasons for replacement.

Specify the finish and species you have selected by checking the box and initialing.

This form must be reviewed, signed and secured at the time of order.

Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

☐ ____ AMARETTO FINISH ACKNOWLEDGEMENT

- The Amaretto finish is created created by 1) light chain distressing of the wood and 2) sanding and distressing through the finish to expose the raw wood underneath and rounding corners.
- Because it is a hand-rubbed technique, there will be variations in the intensity of the rub-through and the distressing.
- The Amaretto finish is created susceptible to wear and tear from normal residential use. Nicks, chips, dents and rub-through will be more obvious, especially on sharp corners and edges.
- We call your attention to the characteristics of Amaretto because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Amaretto change significantly from door style to door style.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. To get the best possible finish quality when creating cabinetry finished in Amaretto, we use an end panel with a layer of MDF to create Flush end panels (dealer, this is block 9040), Finished end panels (dealer, this is block 9020), and Furniture end panels (dealer, this is block 9030). This is a superior substrate for achieving a consistent, quality finish. In addition, if the door you selected has a veneered center panel, it is replaced with a center panel made of HDO material. If you specify that the interior back panel of a cabinet should receive color (dealer, this is modification STIN, block 9480), the material used will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish. If you have questions about the materials used in StarMark Cabinetry, we encourage you to discuss with your dealer.

☐ ____ COTTAGE FINISH ACKNOWLEDGEMENT

- The Cottage finish is created by 1) light chain distressing of the wood, 2) sanding and distressing through the finish to expose the raw wood underneath and rounding corners and then 3) adding glaze to bring out the wood's unique textures.
- Because it is a hand-rubbed technique, there will be variations in the intensity of the rub-through and the distressing.
- The Cottage finish is susceptible to wear and tear from normal residential use. Nicks, chips, dents and rub-through will be more obvious, especially on sharp corners and edges.
- We call your attention to the characteristics of Cottage because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Cottage change significantly from door style to door style.

StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

FINISH EXPECTATIONS

StarMark Cabinetry is committed to the satisfaction of our customers. Therefore, it is important to us that you have realistic expectations of StarMark's fine wood cabinetry and fashion finishes, and fully understand the characteristics of the species and finishes outlined below. Your StarMark Cabinetry Dealer will review the following wood species and finish characteristics with you.

FACTORS that affect ALL WOODS and FINISHES

- **Hygroscopicity:** Wood is hygroscopic, meaning it absorbs and gives off moisture according to the humidity surrounding it, even when a finish has been applied. Because of moisture, wood shrinks and swells; this process may cause hairline fractures in the finish at the joints. (This is especially apparent with Tinted Varnish finishes.) This shrinking and swelling is normal and does not affect the structural stability or integrity of the joint construction.
- **Mellowing:** When exposed to light, most woods darken and mellow with age. Some species, especially cherry, change in color more than others. Mellowing changes the look of cabinetry. When your new cabinetry arrives for installation, the color will vary from the samples viewed in the showroom due to this aging process. Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

☐ ____ VILLA FINISH ACKNOWLEDGEMENT

- The Villa finish is created with a combination of tinted varnish, glaze and a unique hand rubbed technique.
- Because of this unique hand rubbed technique, there will be variations in the intensity of the "brush marks" and color.
- Brush stroke is horizontal on slab drawer headers and on the center panel of five-piece drawer headers. Brush stroke is vertical on Hampton and Lafayette five-piece drawer header center panels.
- The Villa finish is susceptible to wear and tear of normal residential use. This finish intensifies nicks, chips and dents, especially on sharp corners.
- We call your attention to the characteristics of Villa because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Villa can change significantly from door style to door style.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. To get the best possible finish quality when creating cabinetry finished in Villa, we use an end panel with a layer of MDF to create Flush end panels (dealer, this is block 9040), Finished end panels (dealer, this is block 9020), and Furniture end panels (dealer, this is block 9030). This is a superior substrate for achieving a consistent, quality finish. In addition, if the door you selected has a veneered center panel, it is replaced with a center panel made of HDO material and the Tabor door is constructed with 100% MDF. If you specify that the interior back panel of a cabinet should receive color (dealer, this is modification STIN, block 9480), the material used will be HDO material. Toe Board Trim (block 12200) will also be HDO material. These materials assure the best possible finish. CABINETRY

FINISH EXPECTATIONS

StarMark Cabinetry is committed to the satisfaction of our customers. Therefore, it is important to us that you have realistic expectations of StarMark's fine wood cabinetry and fashion finishes, and fully understand the characteristics of the species and finishes outlined below. Your StarMark Cabinetry Dealer will review the following wood species and finish characteristics with you.

FACTORS that affect ALL WOODS and FINISHES

- **Hygroscopicity:** Wood is hygroscopic, meaning it absorbs and gives off moisture according to the humidity surrounding it, even when a finish has been applied. Because of moisture, wood shrinks and swells; this process may cause hairline fractures in the finish at the joints. (This is especially apparent with Tinted Varnish finishes.) This shrinking and swelling is normal and does not affect the structural stability or integrity of the joint construction.
- **Mellowing:** When exposed to light, most woods darken and mellow with age. Some species, especially cherry, change in color more than others. Mellowing changes the look of cabinetry. When your new cabinetry arrives for installation, the color will vary from the samples viewed in the showroom due to this aging process. Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

☐_____HOMESTEAD FINISH ACKNOWLEDGEMENT

For many homeowners, Homestead Fog, because of the heavy distressing, would best be used as an accent color in a design (island, hood, etc), instead of being the main color. If it is being used as the main color, please note, a room of heavily distressed cabinetry is a rustic/primitive look, and may not be what the homeowner wants to achieve.

- Homestead is available on Alder and Rustic Alder door styles. Several distressing techniques are applied randomly and heavily. A glaze is applied, wiped and brushed. Drawer and door corners are rounded. A clear top coat is applied. This finish is oven cured for durability.
- To achieve the appearance of randomly worn cabinetry, not all components in a room of cabinetry will relieve all of the available distressing techniques. These techniques are:

  Light Chain Distressing
  Rounded Corners/ Worn Edges
  Abundant Worm Holes
  Rasping
  Dips
  Knife Cuts
  Chiseling

- Because each component is distressed by hand, each component will exhibit variances in the intensity of the characteristics used on the component.
- Knife Cuts may be located at joints to simulate cracks. Structural integrity of the joint is maintained.
- The amount of worm holes is considerably more than the amount found on Chateaux or Old World Distressing.
- We call your attention to the characteristics of Homestead because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a door sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Homestead change significantly from door style to door style.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.
- StarMark Cabinetry manufactures our cabinets using an all-wood plywood box. To get the best possible finish quality when creating cabinetry finished in Homestead, we use an end panel with a layer of MDF to create Flush end panels (dealer, this is block 9040), Finished end panels (dealer, this is block 9020), and Furniture end panels (dealer, this is block 9030). This is a superior substrate for achieving a consistent, quality finish. In addition, if the door you selected has a veneered center panel, it is replaced with a center panel made of HDO material. If you specify that the interior back panel of a cabinet should receive color (dealer, this is modification STIN, block 9480), the material used will be HDO material. Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

☐ _____ OLD WORLD DISTRESSING FINISH ACKNOWLEDGEMENT

- Old World is created by randomly applying several distressing techniques, softening all edges, and adding a glaze to accentuate the distressing. A clear top coat is applied. The finish is oven-cured for durability.
- To achieve the appearance of randomly worn cabinetry, not all components in a room of cabinetry will relieve all of the available distressing techniques. These techniques are:

  Light Chain Distressing
  Rounded Corners/ Worn Edges
  Worm Holes
  Rasping
  Dips
  Knife Cuts
  Rub Through (on Amaretto finish only)

- Because each component is distressed by hand, each component will exhibit variances in the intensity of the characteristics used on the component.
- Knife Cuts may be located at joints to simulate cracks. Structural integrity of the joint is maintained.
- We call your attention to the characteristics of Old World because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a door sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Old World change significantly from door style to door style.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

☐ ____ CHATEAUX FINISH ACKNOWLEDGEMENT

- Chateaux is created by randomly applying several distressing techniques, softening all edges, padding the edges to create shadowing, and adding speckling to accentuate the distressing. A clear top coat is applied. The finish is oven-cured for durability.
- To achieve the appearance of randomly worn cabinetry, not all components in a room of cabinetry will receive all of the available distressing techniques. These techniques are:

  Light Chain Distressing
  Rounded Corners/ Worn Edges
  Worm Holes
  Rasping
  Dips
  Knife Cuts

- Because each component is distressed by hand, each component will exhibit variances in the intensity of the characteristics used on the component.
- Knife Cuts may be located at joints to simulate cracks. Structural integrity of the joint is maintained.
- We call your attention to the characteristics of Chateaux because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a door sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Chateaux change significantly from door style to door style.
- StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

NOTE: The conditions described in this FINISH EXPECTATIONS form are NOT considered defects or reasons for replacement.

Specify the finish and species you have selected by checking the box and initialing.

This form must be reviewed, signed and secured at the time of order.

CABINETRY

FINISH EXPECTATIONS

StarMark Cabinetry is committed to the satisfaction of our customers. Therefore, it is important to us that you have realistic expectations of StarMark's fine wood cabinetry and fashion finishes, and fully understand the characteristics of the species and finishes outlined below. Your StarMark Cabinetry Dealer will review the following wood species and finish characteristics with you.

FACTORS that affect ALL WOODS and FINISHES

- **Hygroscopicity:** Wood is hygroscopic, meaning it absorbs and gives off moisture according to the humidity surrounding it, even when a finish has been applied. Because of moisture, wood shrinks and swells; this process may cause hairline fractures in the finish at the joints. (This is especially apparent with Tinted Varnish finishes.) This shrinking and swelling is normal and does not affect the structural stability or integrity of the joint construction.
- **Mellowing:** When exposed to light, most woods darken and mellow with age. Some species, especially cherry, change in color more than others. Mellowing changes the look of cabinetry. When your new cabinetry arrives for installation, the color will vary from the samples viewed in the showroom due to this aging process. Please view an updated sample, and discuss the finish, the species and your expectations with the cabinetry professional at this location. On warranty replacements, StarMark cannot guarantee an exact color match because of the mellowing process.

☐ _____

ANTIQUITY FINISH ACKNOWLEDGEMENT

NEW!

- Antiquity is available on Alder and Rustic Alder. Ebony glaze is applied, wiped by hand and brushed. A clear topcoat is applied. The finish is oven-cured for durability.
- Because of this unique hand applied glaze technique, there will be variations in the intensity of the glazing and color.
- The Antiquity finish is susceptible to wear and tear of normal residential use.
- We call your attention to the characteristics of Antiquity because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Antiquity can change significantly from door style to door style.

StarMark Cabinetry reserves the right to change the specifications of species and finishes at any time without notice.

☐ _____

NEW!

WEATHERED/WEATHERED SNOW FINISH ACKNOWLEDGEMENT

- Weathered is available on Oak, on select door styles. Weathered is a wire brush technique that removes soft grain, resulting in substantial texture on the door and drawer header. The Weathered texture is applied to the face of doors, drawer headers and finished end panels. When a Stain with Glaze or Tinted Varnish with Glaze is specified, glaze is applied and wiped by hand. A clear top coat is applied. The finish is oven cured for durability.
- When a Stain with Glaze or Tinted Varnish with Glaze is specified, glazing is hand applied, so expect artistic variations in the intensity and look when glaze is applied in conjunction with the Weathered texture.
- Weathered is susceptible to wear and tear of normal residential use.
- We call your attention to the characteristics of Weathered because the effect of the variations in an entire kitchen may be different from what you witness in viewing displays or a finish sample. These variations are common from door to door in an installation and will not be reason for replacement. IN ADDITION, the characteristics of Weathered can change significantly from door style to door style.
- When applied to moulding, wire brushing results depend on the type of moulding. Wire brushing will be visible on the flat surface of moulding such as Arts & Craft Crown Moulding (ACCM). On moulding that has raised profiles, such as Crown Moulding (CM), wire brushing will be evident on the raised portions, but not on the scooped portions.
- Some installations include a variety of Finished Ends and Panels. Wire brushing is applied to some, not all, Finished Ends and Panels. Refer to the list in Cabinetry Specifications and make sure to educate your homeowner that not all components will have visible wire brushing texture. In addition, 48" is the maximum panel width to receive wire brushing texture.

NOTE: The conditions described in this FINISH EXPECTATIONS form are NOT considered defects or reasons for replacement.

Specify the finish and species you have selected by checking the box and initialing.

This form must be reviewed, signed and secured at the time of order.

StarMark Inset
Product Awareness Agreement

We manufacture StarMark Inset Cabinetry with tight reveals and take great care to create square, true cabinets, so that StarMark Inset Cabinetry will enhance any home with its clean, honed lines.

As with any premium product, special considerations have to be made before adding the crafted look of StarMark Inset Cabinetry to the home:

1) Quality installation is a must. If cabinets are not installed properly, doors may appear warped even though they are not. Every homeowner should expect their walls and floors to have variations; a well-qualified installer can properly shim Inset cabinetry so it does not become out of square.
2) Homeowners should be prepared to adjust their doors seasonally as temperatures change.

When you are weighing the decision to place Inset cabinetry in your home, also consider:

- The wall, wall base and utility wall inset cabinetry is 12" deep. The standard inside storage dimension is 10¾". Unless the cabinet is modified to a greater depth, the cabinet will not accommodate oversized plates or dinnerware.
- StarMark Inset Cabinetry is on an eight week or longer Cycle Ship.

The undersigned (representing the dealership as an Officer or Principal) acknowledges the responsibility of ensuring that each homeowner who chooses StarMark Inset Cabinetry for their home understands that to maintain the crafted look that StarMark Inset Cabinetry has upon leaving the factory the homeowner 1) needs a well-qualified installer to install Inset cabinetry, and 2) has to adjust the doors seasonally.

Account Name _____

1) Signature of Officer or Principal _____ Date _____

2) Signature of StarMark Cabinetry Representative
or, date of email or verbal approval _____

3) Signature of StarMark Cabinetry Regional Manager
or, date of email or verbal approval _____

Dealer, for ease of ordering, please keep this form with the three signatures as a "master" document in your files. For each StarMark Inset Cabinetry order, simply make a copy of this signed form, have the homeowner sign it, and submit this form with the cabinet order.

I acknowledge, accept and embrace the unique characteristics of StarMark Inset Cabinetry as described above. I realize that to maintain the crafted look that Inset Cabinetry has upon leaving the factory 1) I need a well-qualified installer to install Inset cabinetry, and 2) I have to adjust the doors seasonally.

PARTNERING WITH STARMARK CABINETRY

What we expect from you

An authorized StarMark Cabinetry Dealer is expected to:

- Maintain accurate displays and sample doors to create reasonable client expectations. The life expectancy of a display is normally 36 months; the life expectancy of a sample door is normally 24 months (cherry is 12 months).
- Thoroughly explain all wood and finish characteristics to the client. Use a sample door, not color chips, to illustrate Amaretto, Antiquity, Chateaux, Cottage, Homestead, Java, Old World Distressing, Villa and Weathered finishes, and Rustic Alder and Rustic Hickory. The discussion should include characteristics of natural and painted wood, as well as the tendency of wood doors to change size with moisture content in the home. Our Finish Expectations form will aid you in this discussion.
- Understand that a correct order is your responsibility.

  Email a complete, accurate and legible new order. Include 1) a layout and elevations, 2) appropriate drawings for modified cabinets, and 3) Appliance Templates for cutouts and appliance panels.

  Upon receipt, thoroughly read and check your Order Acknowledgement for accuracy and make any corrections immediately. Contact StarMark Cabinetry Customer Service at 800-550-2934 if you are not in receipt of an Order Acknowledgement within four business days of submitting your order.
- Review and understand Product Awareness Agreement for standard products (located at the end of this section).
- Review, understand, sign and return the Inset Product Awareness Agreement, located in the Order Form and Appliance Template Section. This document underscores the importance we place on your responsibility to educate the homeowner.
- Understand and explain our warranty—what is covered and what is not—to the client.
- Have an authorized dealer/employee available to receive, inspect and sign for all deliveries. The employee should note any damages or shortages on the bill of lading. Notify StarMark Cabinetry of concealed damage within 30 days of delivery.
- Understand and execute proper installation. Doors and drawers must be removed before installation and re-installed upon job completion.
- Minor touch-up to the cabinetry as well as final adjustment of the doors and drawers are a responsibility of the installing dealer or contractor.
- Investigate client complaints immediately. If a StarMark Cabinetry Sales Representative needs to become involved, an authorized dealer/employee must accompany the StarMark Cabinetry Representative to any site visits. StarMark Cabinetry Representatives will not go to job sites without an authorized dealer/employee in attendance.
- Maintain a high credit standing by paying all invoices according to terms and notifying the Credit Department at 812-482-2527 ext 110301 of any changes in the ownership of your business as well as other changes that could affect your ability to pay promptly.
- Attend training sessions conducted by StarMark Cabinetry.

What to expect when you partner with StarMark Cabinetry

- A complete and accurate order is processed within three business days and then an Order Acknowledgement is faxed or emailed to you the night of the following day.
- If an order is not complete and accurate, we will communicate to you what information you must supply to achieve an order that we can process.
- We strive to ship orders complete and damage-free per the scheduled delivery week stated on your Order Acknowledgement.
- Your inquiries to Customer Service, Sales, Marketing and other StarMark Cabinetry departments are handled in a prompt and courteous manner.
- We investigate all valid warranty claims promptly to ensure the satisfaction of your clients.
- Your StarMark Cabinetry Sales Representative is your liaison. Your Sales Representative will visit you on a regular basis to discuss new products; promotions; programs; your purchase history; and the condition of your displays, samples, sales aids, literature and Price & Reference Catalog and provide training for you and your staff.
- Using input from industry colleagues and authorized StarMark Cabinetry Dealers, we continuously update our product offerings to ensure they meet your needs and the expectations of your clients.

© Copyright StarMark Cabinetry MAY 2022

HOW TO PLACE AN ORDER

1. **There are two ways to submit a new order that is not a Rush, Warranty or Add On.**
   - Use the Cabinetry Order Form template. This form is in PDF fill-in format and found on OneTouch in the Forms section.

   OR
   - Submit an order generated from 2020. To indicate styling options, use a Cabinetry Order Form as a cover sheet. This form is in PDF fill-in format and found on OneTouch in the Forms section.

   Other submissions may be sent back and subject the order to delay.
2. **Include a floor plan with your written order.** We **do not** assume responsibility for verifying information between the floor plan and your order. However, including the floor plan allows us to better understand the order and answer questions that may come up during the order editing process.
3. **Provide detailed, dimensional and accurate drawings** for quoted cabinets, stacked cabinets and combined cabinets.
4. **Provide Appliance Templates for cabinets that require cutouts.** Templates are found on OneTouch in the Forms section. Appliance manufacturers' model numbers or spec sheets are insufficient information. Your order may be delayed until all necessary Appliance Templates are completed and emailed to StarMark.
5. **Provide Appliance Templates for appliance panels.** Templates are found on OneTouch in the Forms section. Special reveals, routing instructions, etc. must be specified on the Appliance Template. Appliance manufacturers' model numbers or spec sheets are insufficient information. Your order may be delayed until all necessary Appliance Templates are completed and emailed to StarMark.
6. **Use correct StarMark nomenclature.** Your order may be delayed until complete and accurate information is received.
7. **Obtain a Finish Expectations form**, signed by you and your client, for possible future use.
8. **Email your order to us.** No phone orders are accepted. If you receive two acknowledgements, assume the order has been duplicated. It is your responsibility to cancel one of the orders.
9. Check and double-check your **Order Acknowledgement.**
10. **Clean orders are requested. If a change is needed, supply change orders and cancellations** within the time frame specified on the original Order Acknowledgement.

Finish Expectations Forms

For orders containing Amaretto, Antiquity, Chateaux, Cottage, Homestead, Java, Old World Distressing, Villa, Weathered, Tinted Varnish, natural finish, dark stains, gray stains, glazed finish, Rustic Alder or Rustic Hickory, a Finish Expectations form, signed by you and the client, should be secured at the time of sale and kept in your files for possible future use.

! TECHNICAL ASSISTANCE TOLL-FREE PHONE: 800-551-3404

EMAIL ORDERS TO mailorders.sm@masterbrand.com

Custom Colors

A signed Custom Color approval form is required with a cabinetry order that contains a custom color.

After the sample is produced, the Custom Color sample/Custom Color approval form is valid for 90 days.

A Custom Color sample door is valid in our library for 6 months from production date. After 6 months, a new sample door is required is for new orders and replacement parts.

Please see Cabinetry Specifications for additional information regarding our Custom Stain and Custom Tinted Varnish process.

Custom Quotes

When your project requires something not listed in our reference section or modification section, our Technical Assistance Department is here to help. Use the Custom Quote Request Form, found on OneTouch in the Forms section, to organize all the details of your quote request. If your request is approved, we will provide a drawing and price quote. For more information, call 800-551-3404.

Appliance Cutouts and Panels

We do not use universal sizes for appliance cutouts. We order doors and drawer fronts for oven and microwave cabinets based on the cutout size detailed on the Appliance Templates. Appliance templates are posted on OneTouch in Forms, within the Orders section. Your order may be delayed until all necessary Appliance Templates are completed and emailed to StarMark.

Special reveals, routing instructions, etc. must be specified on the Appliance Template. Appliance manufacturers' model numbers or spec sheets are insufficient information.

ORDER ACKNOWLEDGEMENTS

The Order Acknowledgement details exactly what we will build for you. It is our interpretation of your order.

From start to finish, the responsibility for an accurate order rests with you. Carefully review Order Acknowledgements!

1. A complete and accurate order is processed within three business days and then an Order Acknowledgement is sent to you the night of the following day.
2. If you are not in receipt of your Order Acknowledgement within four business days of submitting your order, do this:
   - Call StarMark Customer Service at 800-550-2934

   OR
   - Check for your Order Acknowledgement on OneTouch Order Status. If the order is not listed on the OneTouch, call StarMark Customer Service. Your order may be delayed if you don't notify us.
3. If a change is needed, you must contact StarMark within the time frame specified on the Order Acknowledgement or the item will be provided and billed as acknowledged.

© Copyright StarMark Cabinetry MAY 2022

HOW TO PLACE AN ADD-ON ORDER

Use the OneTouch Express Response function to submit an Add-On order so it will receive rush expediting. Add-On orders not submitted through OneTouch will be shipped at current lead times.

HOW TO PLACE A RUSH ORDER

Use the OneTouch Express Response function to submit a Rush Order.

There are no Rush Fees.

Rush orders cannot be canceled or changed.

Rush orders are limited to 3 cabinets or less.

HOW TO CHANGE AN ORDER OR CANCEL AN ORDER

NOTE: If you are adding on to an existing order for job completion, please see How to Place an Add-On Order below.

1. Use Order Detail on OneTouch to conveniently send an order change. Find your order using Order Status, then click on "**Actions**" and then "**Email Customer Service**". Select "**Change Order**" from the dropdown list.
2. Acceptance of order changes are at the discretion of StarMark. If accepted, fees will apply and scheduled ship dates may change. Changes and cancellations must be made within 2 business days from the date on the Order Acknowledgement.
3. No fee will apply if the change is made within the time frame specified on the Order Acknowledgement.
4. Changes after the time frame stated on the Order Acknowledgement will have a minimum $75 net charge plus additional charges based on the stage of production at the time the change is processed.
5. Cancellation or deletion of items after the time frame specified on your Order Acknowledgement will not be accepted.
6. No changes or cancellations can be made if the order is in production.

HOW TO PLACE A WARRANTY ORDER

Use the OneTouch Express Response function to submit a Warranty order so it will receive rush expediting. Warranty orders not submitted through OneTouch will be shipped at current lead times.

Q. I need to place a Warranty order for an order that is not visible on OneTouch because it's older than 12 months.

A. Submit via email a Cabinetry Order Form. Mark the WARRANTY box. IMPORTANT: indicate the original order number and/or purchase order number AND indicate the original order was not visible on OneTouch.

Q. I need to order a Warranty item and the original finish was a custom color.

A. If the approved color sample is still valid and not yet expired, use Express Response to order the item if the original order is still visible on OneTouch, or the method above if the order is not visible on OneTouch. If the color sample has expired, order a new sample door.

Q. I need to place a Warranty order for an order that is not accessible to me because there's a difference in the account number between the original order and the Warranty order.

A. Submit via email a Cabinetry Order Form. Mark the WARRANTY box. IMPORTANT: indicate the original order was placed under an account number that you don't have access to.

More information is available on OneTouch>ANNOUNCEMENTS>General Updates>StarMark Express Response Rush Orders.

© Copyright StarMark Cabinetry MAY 2022

SHIPPING & DELIVERY

Truck Delivery and Handling Charges: To schedule a truck delivery stop, you must 1) have a total minimum order value of $1000 net, or 2) pay a minimum handling charge of $100 net. FedEx Delivery and Handling Charges: There is no minimum or maximum order value or handling charge and the Dealer pays all FedEx charges. Please note, not all items can ship FedEx–for example–cabinets and 10-foot moulding.

Delivery Schedule: The ship date on your Order Acknowledgement indicates the week of delivery. Rush Order Acknowledgements reflect the first day the item(s) is normally ready for shipment. Its actual arrival date will depend on the ship method selected.

Your Responsibilities: Have an authorized dealer/employee available to receive, inspect and sign for all deliveries. The employee should note any damages or shortages on the bill of lading. Notify StarMark of concealed damage within 30 days of delivery.

To ensure safe and complete delivery of our products, the following guidelines have been established. StarMark Customer Service Management must authorize variations from these guidelines.

Showroom and Warehouse Delivery

1. The dealer must have personnel available to unload cabinetry from the tailgate of the trailer.
2. All cabinetry items are to be "checked off" by the dealer's representative. If damages are observed, the dealer's representative and the driver must make a clear notation of the items damaged on the bill of lading.
3. The driver and the dealer's representative must make a final comparison of their delivery notations and check off. The driver and the dealer's representative must sign the bill of lading. Complete signatures are required. If concealed damage is found, it must be clearly noted and reported within 30 days.
4. If damage is noted after delivery has been signed for, the damage must be reported within 30 days of receipt of product. Failure to do so will result in denial of the damage claim, and no credit will be given.

Job Site and Home Delivery

1. Deliveries will be made to the first dry covered area on the first floor (garage or the first room inside the residence). Stair carries above the first floor are available at an additional cost.
2. Home Delivery includes storage of product up to 14 days. After 14 days, storage charges may be incurred that will be charged to the dealer.
3. An additional fee applies. If the order is 24 cabinets or fewer, the fee is $300 net. If the order is 25 cabinets and over, the fee is $400 net. The home delivery must be within 50 miles of your dealership or additional charges may apply. Contact Customer Service for a quote for deliveries outside a 50 mile radius.
4. Lead times will be extended one week from the acknowledged week of delivery.
5. We require this information:
   1) A contact person's name and phone number
   2) A complete site address with phone number clearly specified on the original order
6. You must provide staff to off-load the product.
7. All items must be "checked off" by someone other than the driver. If damages or shortages are observed, the items must be noted on the bill of lading, and StarMark Customer Service must be notified immediately.
8. Contact StarMark Customer Service for more information.

Will Call Pick Ups

If you use Will Call service, it is your responsibility to check off and sign for the cabinetry before you leave the dock. Once you leave the dock, any missing items or damaged items are your responsibility.

Hazardous Materials

Please note, all the items listed in Block 16000 are classified by carriers as hazardous material, and they will not ship this material to residential addresses. There are three approved destinations for this material: your showroom, your warehouse, and to a job site as part of a complete cabinetry order delivered by truck. We cannot ship this material to a homeowner or to your home.

Large Package Surcharges

Several products, when shipped via FedEx, incur a Large Package Surcharge. These items include, but are not limited to, any Panel or Filler Box measuring 48 inches by 35 inches or larger.

Large Package Surcharges are passed on to you. When possible, StarMark Cabinetry will work with you to find an alternative to FedEx delivery.

Please note, FedEx no longer ships items over 108". This includes 10-foot mouldings. These items will ship via Truck. If you need to Rush 10-foot moulding, see Rush Program information in this section.

SHORTAGE

It is the dealer's responsibility to check each order that is received to be sure it is complete. Signing for each order rather than the total number of pieces received will allow you to know specifically what is missing should a shortage occur. The trucking company will not order the replacement. Please use the following steps:

1. If an item is short on delivery, please mark the bill of lading clearly as to what was short. Do not just mark the packing slip. Be sure to mark your copy of the bill of lading as well as the copy of the bill of lading that the driver will keep. Have the driver sign the bill of lading that shows the shortage.
2. Email a copy of the bill of lading showing the shortage with the replacement order to Customer Service. Make sure you indicate the original sales order number on the replacement order.
3. A No Charge Replacement order will be processed as a rush order.
4. You do not have to file a claim with the carrier. StarMark will be responsible to recover our costs from the carrier.
5. Orders without the signed bill of lading indicating the shortage will be invoiced at the normal price, and we will assume that the shipment was received complete.

© Copyright StarMark Cabinetry MAY 2022

DAMAGE

When damage occurs, it is dealer's responsibility to place the replacement order to ship in the most expedient manner possible. The trucking company is not going to order the replacement. Please use the following steps:

1. If damage is noted at the time of delivery, please mark the bill of lading clearly as to what was damaged. Do not just note the damage on the packing slip. Be sure to mark your copy of the bill of lading as well as the copy of the bill of lading that the driver will keep. Have the driver sign the bill of lading that shows the damage. In some cases, the driver may request that he take the damaged item. If that is the case, mark on the bill of lading that the driver kept the damaged item.
2. Email a copy of the bill of lading showing the damage with the replacement order to StarMark Customer Service. Make sure you indicate the original sales order number on the replacement order.
3. A No Charge Replacement order will be processed by StarMark Customer Service to be shipped as a rush order.
4. You do not have to file a claim with the carrier. StarMark will be responsible to recover our costs from the carrier.
5. After you receive an Order Acknowledgement for the No Charge Replacement Order, you may dispose of the damaged merchandise unless you have been advised by StarMark Customer Service of other disposition.
6. Orders without the signed bill of lading indicating damage will be invoiced at the normal price and we will assume that the damage was concealed. Any credit will need to be handled through the Concealed Damaged guidelines to the right.

! STARMARK IS NOT RESPONSIBLE FOR ANY LABOR COSTS RELATED TO DAMAGED OR DEFECTIVE PRODUCTS. PLEASE SEE THE WARRANTY FOR FULL DETAILS.

! IF DAMAGE IS NOTED AFTER DELIVERY HAS BEEN SIGNED FOR, THE DAMAGE MUST BE REPORTED WITHIN 30 DAYS OF RECEIPT OF PRODUCT. FAILURE TO DO SO WILL RESULT IN DENIAL OF THE DAMAGE CLAIM, AND NO CREDIT WILL BE GIVEN.

CONCEALED DAMAGE

Concealed damage is any damage noted after a clear delivery has been accepted.

! Notify StarMark Cabinetry of concealed damage within 30 days of delivery.

In the case of concealed damage the responsibility is not clearly that of the carrier and it becomes the responsibility of all parties involved in the sale of the order—StarMark Cabinetry, the customer, the installer, etc.

Please use the following procedure when concealed damage is noted:

1. **Notify StarMark Cabinetry of concealed damage within 30 days of delivery.**
2. Email a replacement order to Customer Service marking the order as a "concealed damage replacement." Include the original sales order number and a description of the concealed damage.
3. The order may be entered on a charged basis at the discretion of Customer Service pending inspection of the product.
4. Keep the damaged item and original carton at your location for a possible inspection by your StarMark Sales Representative. It is the responsibility of the Sales Representative to investigate the concealed damage.
5. The StarMark Sales Representative will notify Customer Service of the inspection results. Depending on the results, a credit for the concealed damage may be processed.

WAS YOUR ORDER A DOOR-ONLY ORDER?

- Please note, the finish on doors is covered by our limited lifetime warranty.
- Our damage policy (in this section) also applies to a door-only order.
- However, issues that arise based on the dimensions of the door are not covered by our warranty. We will build the doors according to the dimensions you submit. It is your responsibility to make sure these dimensions will work for the application you intend. Door sizing for a cabinet we built, and door sizing for a door to be installed on a cabinet we did not build, are two separate manufacturing processes, and we cannot be responsible for dimensions that are inaccurately calculated for a door-only installation.

© Copyright StarMark Cabinetry MAY 2022

DEFECTS

It is the dealer's responsibility to:

- Review and understand the Product Awareness Agreement. This document (found on OneTouch in the Forms section) underscores the importance we place on your responsibility to educate the homeowner.
- Understand and execute proper installation. Doors and drawers must be removed before installation and re-installed upon job completion.
- Perform minor touch-up to the cabinetry.
- Perform final adjustment of the doors, hinges and drawers.
- Investigate client complaints immediately. If a StarMark Cabinetry Sales Representative needs to become involved, an authorized dealer/employee must accompany the StarMark Cabinetry Representative to any site visits. StarMark Cabinetry Representatives will not go to job sites without an authorized dealer/employee in attendance.

! STARMARK IS NOT RESPONSIBLE FOR ANY LABOR COSTS RELATED TO DAMAGED OR DEFECTIVE PRODUCTS. PLEASE SEE THE WARRANTY FOR FULL DETAILS.

StarMark is not responsible for any labor costs related to damaged or defective products. Please see the Warranty for full details.

Return Authorization Procedures—Warranty

1. We will coordinate with you the return of the warranty item to StarMark.
2. Refusal to return items requested for inspection will result in credit being denied.
3. If a returned item is found not to be defective according to StarMark standards, credit will be denied and freight charges and fees will be assessed.

Cabinets, Parts and Pieces

Defective cabinets, parts and pieces will be replaced or repaired on a rush basis. However, replacements may be invoiced at the discretion of Customer Service and credit issued only after inspection verifies the claim of defect.

Warped Doors

There are three reasons why cabinet doors may warp or appear warped.

1. Doors may warp a small amount soon after installation because cabinets are taken from a controlled factory environment and placed in an environment that is very humid due to curing concrete, plaster or drywall taping, latex paint, etc.

   Warped doors will generally straighten out after a new home goes through a complete heating and cooling season.

   StarMark requires that doors go through a complete heating and cooling season before replacements are considered.

   NOTE A hinge adjustment will improve the fit of the door as the cabinet progresses through a heating and cooling season.

2. Improperly installed cabinets can cause doors to appear warped. StarMark requires that doors be tested for warpage before replacements are considered. See step four.
3. Improperly adjusted hinges can cause doors to appear warped. A hinge adjustment will improve the fit of the door. StarMark requires the doors be tested for warpage before replacements are considered. See step four.

! STARMARK REQUIRES THAT DOORS GO THROUGH A COMPLETE HEATING AND COOLING SEASON BEFORE REPLACEMENTS ARE CONSIDERED.

4. To test a door, lay the door on a flat surface and measure, to the nearest sixteenth of an inch, the gap between the surface and the door.

Door Height	Warpage is indicated when
12" or less	gap is greater than 1/16"
13" to 24"	gap is greater than 1/8"
25" to 41"	gap is greater than 3/16"

5. If the measured gap indicates that the door is warped, please contact StarMark Customer Service.

Finish

1. For orders containing Amaretto, Antiquity, Chateaux, Cottage, Homestead, Java, Old World Distressing, Villa, Weathered, Tinted Varnish, natural finish, dark stains, gray stains, glazed finish, Rustic Alder or Rustic Hickory, a Finish Expectations form, signed by you and the client, must be secured at the time of sale and kept in your files for possible future use.
2. Before we process any no-charge warranty item, a signed Finish Expectations form must accompany the replacement order.
3. We may request an inspection by a StarMark Cabinetry Sales Representative. We reserve the option of approving field repair, arranging for return to the factory for refinish or replacement.
4. Replacement material may be invoiced at the discretion of Customer Service. Appropriate credit will be issued upon receipt of the defective item and when StarMark inspection verifies the complaint.

CLIMATE CONSIDERATIONS

Dry wood undergoes small changes in dimension with normal changes in relative humidity. More humid air will cause swelling and drier air will cause shrinkage. StarMark wood components are dried, stored and assembled in a controlled environment to minimize dimensional changes after the product leaves our plant. This means the moisture content in our product is controlled to work optimally in most US locations.

If you install our product in an extremely humid area of the country or in a building without air conditioning you can expect the cabinet components to change dimensionally. This change is usually more in width than height.

While we design our product to accommodate some of this dimensional change and we use state-of-the-art hinges with significant adjustability, slab doors—Aero, Monroe and Tempo—in extremely humid or extremely dry climates may not be advisable. In very humid or extremely dry conditions these doors can grow or shrink by as much as ⅜".

The components of cope & stick and mitered doors also change dimensionally but the full effect is mitigated by the floating center panel design. Mitered door joints can open slightly with changes in humidity level.

None of the aforementioned conditions are a quality issue and are not covered by our warranty.

If you would like to know more about the dimensional changes in wood please contact your StarMark Cabinetry Sales Representative.

EXPIRED SAMPLES

Please be aware that we DO NOT honor warranty claims when new cabinetry does not match an expired color chip or sample door. It is the dealer's responsibility to remove expired color chips and door samples from the showroom floor, and to use only current color chips and door samples when presenting finish choices to a homeowner. Every color chip and sample door leaves our factory with an expiration date. Please be aware of this expiration date when you work with homeowners.

DISCONTINUED FINISHES

Do you need to add cabinets or parts to an installation that contains a discontinued finish? Please note this:

- Immediately following the discontinuation effective date, an order containing a discontinued finish is treated as a custom color order. A sample door is required and must be approved before production begins, and a $900 net set up fee may be charged if the order does not total $20K list. See Cabinetry Specifications section for all custom color policies and fees.

PRODUCT SPECIFICATIONS

In keeping with our practice of continuous product improvement, StarMark Cabinetry may adjust specifications in design and materials as conditions require. Some components may utilize differing materials to ensure a high-quality product in all applications.

CREDIT

1. To obtain credit, please complete the Credit Application, which includes:
   - Trade references
   - Bank reference and bank release form
   - General business information, including type of business, officers, tax status and exempt number
   - Business Financial Statement (balance and income statement)
2. A Credit Application review may take 30 days to complete.
3. After your Credit Application is approved, our Sales Department will contact you. After your Display orders are approved, the Sales Department will advise you of your account number and terms.
4. To maintain a high credit standing, pay all invoices according to terms.
5. Notify our Credit Department of any changes in the ownership of your business as well as other changes that could affect your ability to pay promptly.

LIMITED LIFETIME WARRANTY

(Residential Purchaser)

MasterBrand Cabinets, Inc. ("**We**" or "**Us**") extends the following limited lifetime warranty ("**Limited Warranty**") to the first Residential Purchaser ("**You**" or "**Your**") of a cabinet, vanity, or countertop manufactured by Us (each, a "**Product**"). This Limited Warranty is only applicable to Products sold to the first Residential Purchaser and used in the applications described below within the United States and Canada. Except as allowed below or by applicable law, You may not assign or transfer this Limited Warranty.

WHO IS A RESIDENTIAL PURCHASER? Under this Limited Warranty, a "**Residential Purchaser**" means any of the following:

- a person who purchases and installs the Product in a dwelling that is owned and used by that person as a primary or secondary home;
- any person or business such as a builder, contractor or developer that purchases and installs the Product in a newly constructed or remodeled dwelling that will be used by the initial owner/purchaser of that dwelling as a primary or secondary home. In such situation, this Limited Warranty may be assigned to the initial owner/purchaser who uses the dwelling as a primary or secondary home.
- a consumer subject to the Quebec Consumer Protection Act.

Under this Limited Warranty, a primary or secondary home does not include rental property. This Limited Warranty does not apply to landlords, leasing companies or other commercial purchasers.

WHAT DOES THIS LIMITED WARRANTY COVER? Subject to the exclusions and limitations set forth in this Limited Warranty, We warrant to You that each Product will be free from defects in material and workmanship, under normal use and maintenance, for the applicable warranty period stated below. This warranty gives You specific legal rights, and You may have other rights which vary from State to State or Province to Province.

WHAT IS THE WARRANTY PERIOD APPLICABLE TO RESIDENTIAL PURCHASERS? The warranty period for Your Product (excluding certain components discussed in the following paragraph) begins on the date the Product was purchased, whether purchased by You or by a third party on Your behalf. Your warranty is only valid if you use the dwelling as your primary or secondary home and does not extend to future owners if the property is sold.
Notwithstanding the preceding paragraph, the warranty periods applicable to the following Product components that were not originally manufactured by Us are as follows:

- Vent Hoods, Blowers, and components: 1 year from the date of original purchase
- Lighting, Electronic, and Powered components: 2 years from the date of original purchase.
- Decorative Hardware: 5 years from the date of original purchase.

DISCLAIMER OF OTHER WARRANTIES: IF YOU ARE A CONSUMER SUBJECT TO THE QUEBEC CONSUMER PROTECTION ACT, THE EXCLUSION OF WARRANTIES CONTAINED IN THE IMMEDIATELY FOLLOWING PARAGRAPH DO NOT LIMIT YOUR RIGHTS AND REMEDIES UNDER SUCH ACT, INCLUDING THE RIGHT TO MAKE A CLAIM UNDER ANY OF THE STATUTORY WARRANTIES PROVIDED UNDER SECTIONS 34 TO 54 OF SUCH ACT. CERTAIN OTHER STATES OR PROVINCES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE BELOW LIMITATION MAY NOT APPLY TO YOU.

THIS LIMITED WARRANTY IS OUR SOLE AND EXCLUSIVE WARRANTY WITH RESPECT TO THE PRODUCTS. ALL IMPLIED WARRANTIES ARE STRICTLY LIMITED TO THE DURATION OF THE LIMITED WARRANTY APPLICABLE TO THE PRODUCT AS STATED ABOVE, INCLUDING BUT NOT LIMITED TO, ANY WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE.

WHAT THIS LIMITED WARRANTY DOES NOT COVER: The Limited Warranty does not apply to any Product:

(1) installed or used outdoors;
(2) used for purposes for which it is not designed or intended by Us;
(3) which has been subjected to misuse, vandalism, abuse, negligence, accident, or unauthorized modifications;
(4) which has been improperly stored (if the Product must be stored, it should be covered and stored in a humidity and temperature controlled environment, away from direct sunlight);
(5) which has been improperly installed, cleaned, or maintained (for more information regarding the proper use and care of the Product, please consult the applicable Use and Care Instructions that accompanied the Product or that can be found at www.starmarkcabinetry.com/how-to-clean-starmark-cabinetry;
(6) which has been subjected to improper temperature, moisture and/or humidity extremes (temperature outside the range of 50-85˚F (10-29˚C) and humidity outside the range of 30-55% are considered extreme);
(7) damaged by fire, flood, acts of God, or other external causes beyond our control;
(8) varying in color and characteristics due to age, sunlight, smoke, or other environmental conditions;
(9) exhibiting any effects on the color and/or integrity of the finish or appearance due to the use of abrasive cleaners, cleaners that contain chlorine, acidic cleaners, scuffing sponges or steel wool; and/or
(10) exhibiting normal wear and tear;
(11) unfinished cabinetry.

(continued)

© Copyright StarMark Cabinetry MAY 2022

In addition, natural woods may vary in color and characteristics and exhibit subtle changes as they age. For example, painted doors, drawer fronts, and face frames may eventually have visible cracking around the joint area, and cabinet colors may darken or lighten over time. These variations are considered to be the nature of the material in relation to their environmental exposure and are not covered under this Limited Warranty.

SOLE AND EXCLUSIVE REMEDY: In the event of a defect in the workmanship or materials of a Product or Product component occurring during the warranty period described above, We will, at our option, repair or replace any defective Product or Product component; provided, if it is not commercially feasible to repair or replace a defective Product or Product component, We may refund the original price paid by You for the defective Product or Product component, or provide a credit towards a similar type of product sold by Us. The foregoing are Your sole and exclusive remedies for any Product defect or non-conformity. By way of example but not limitation, the following costs and expenses are not covered by this Limited Warranty: (1) labor costs for the original installation, removal, or reinstallation of the Product, or defective part thereof; (2) labor costs or material charges for the removal, reinstallation, repainting, refinishing or replacement of any other items or building materials which must be removed, replaced, reinstalled, or refinished in order to repair or replace the defective Product or component. For example, costs associated with the following will not be reimbursed: counters, sinks, tiles, flooring, accessories, appliances or plumbing fixtures. When a claim for warpage, joint separation or wood growth is submitted, We may, at our option and after inspection, defer action for up to 12 months to allow the Product to acclimate to the installed environment. Further, We reserve the right to modify or alter any Product design, specifications or materials without obligation to make similar changes to Products previously manufactured or sold by Us.

The repair or replacement remedies offered by Us under this Limited Warranty are contingent on the current Product offerings of styles and construction options within our Product line at the time a warranty claim is made by You. If a valid warranty claim is filed for an obsolete Product, We reserve the right, at our sole option, to honor its repair or replacement obligations under this Limited Warranty by either: (1) replacing the affected Product or component with a new Product or component of the same or approximate style or color from our current Product line or offerings; or (2) replacing the affected Product or component to achieve a uniform appearance with a similar or comparable product style or approximate color of the originally purchased style. If a Product or components are replaced or repaired, We cannot guarantee an exact match with the finish or appearance of other products or fixtures installed at Your dwelling. This is due to changes that may occur during the Products' natural aging process, affecting its color and/or grain.

LIMITATION OF LIABILITY: If You are a consumer subject to the Quebec Consumer Protection Act, the limitations of liability contained in the immediately following paragraph do not release Us from the consequences of our own actions or the actions of our representatives. Certain other States and Provinces do not allow the exclusion or limitation of incidental or consequential damages, so the below limitation or exclusion may not apply to You.

The remedies described above are Your sole and exclusive remedies and our entire liability for any breach of this Limited Warranty. Our total liability shall under no circumstances exceed the actual amount paid by You for the defective product. Further, We shall not under any circumstances be liable for any consequential, indirect, incidental, special or punitive damages or losses (including lost profits), even if this Limited Warranty is deemed to have failed of its essential purpose.

HOW DO YOU OBTAIN WARRANTY SERVICE? This Limited Warranty can also be found online at www.starmarkcabinetry.com/warranty. To obtain more information regarding the Product or to make a claim under this Limited Warranty, contact one of our authorized dealers or distributors, who will arrange for inspection of the Product. A dated sales receipt as proof of purchase is required to obtain benefits from this Limited Warranty. If you have difficulty obtaining assistance, please write to:

MasterBrand Cabinets, Inc.; Attn: Consumer Affairs

PRODUCT AWARENESS

StarMark Cabinetry has a comprehensive offering of doors, species and finishes. Because our dealers work directly with homeowners to guide them through this offering, we rely on our dealers to manage expectations and educate homeowners in the specific characteristics inherent to their choices.

StarMark Cabinetry will not be responsible if a customer has not been made aware of the unique characteristics of the properties of their specific project, if those characteristics are within the standards established by StarMark Cabinetry.

Each door, each species and each finish has unique characteristics and established standards. We've supplied three tools to help you with the responsibility of managing expectations and educating homeowners.

1. Use the NOTES/CAUTIONS listed under each door style in the Cabinetry Specifications section to lead a discussion with your homeowners about what they can expect from the door they selected.
2. Use the Finish Expectations form to lead a discussion with your homeowners about what they can expect from the species and finish they selected. The Finish Expectations form not only discusses the color and distressing characteristics of each finish, it also clearly outlines the materials we use in our all-wood plywood box construction to assure the best possible finish.
3. Use the Finish Characteristics Room Characteristics charts and illustrations in Cabinetry Specifications to lead a discussion with your homeowner how distressing techniques are used throughout a room of cabinetry.

In addition, as new doors, species and finishes become available, it is your responsibility to present the characteristics for these items. Please call Customer Service if you need more information about these characteristics.

HOW TO WRITE AN ACCURATE ORDER.

We have so many ways to give your clients unique and functional kitchens. We want to make sure you get exactly what your client is expecting. To do that, StarMark must receive a complete, accurate and legible order.

DOs

- Use a current StarMark Cabinetry Order Form to handwrite your order, or submit an order generated from 2020. To indicate styling options with your computer-generated order, use a current StarMark Cabinetry Order Form as a cover sheet.

  Steps #2 - #5 of the Cabinetry Order form are very important.

- Write your handwritten orders legibly in ink or use Fill in Forms, posted on OneTouch in Forms, within the Orders section.
- Include your name and phone number so we know who to contact.
- Verify your selection by checking the Door Style Options Matrix for availability of species, door styles, and stain.
- Use correct StarMark nomenclature.

  For handwritten orders, we recommend ordering your cabinets in a clockwise fashion, first listing walls, talls, then bases, with mouldings at the end. Using this method creates a double-check system, helping to prevent potential errors. It also will help our editors when they review your order.

  For handwritten orders, we recommend you write the cabinet on one line and then on the following line, write any additional information that is a priced item (i.e. Flush Ends, Matching Decorator Panels, etc.). This will allow you to carry the pricing over for each item, lessening the probability of pricing errors.

- Submit a legible and clearly labeled floor plan.
- Submit Appliance Template Forms for cutouts and panels along with manufacturers' specifications.
- Obtain completed and signed Finish Expectations form for orders containing Amaretto, Antiquity, Chateaux, Cottage, Homestead, Java, Old World Distressing, Villa, tinted varnish, tinted varnish glaze, dark stains, gray stains, glazed finishes, natural finishes, Rustic Alder and Rustic Hickory.
- Email or fax in all orders. No phone orders will be accepted.
- Promptly check your Order Acknowledgement. Fax or email corrections or changes within the time specified at the bottom of the Order Acknowledgement.

  The Order Acknowledgement details exactly what we will build for you. It is our interpretation of your order.

  If you list your cabinets in the order we recommend, you can review your Order Acknowledgement efficiently.

  Reviewing your Order Acknowledgement is essential in ensuring that StarMark correctly interpreted and entered your order.

- Spend a few minutes reviewing:

  Header information – door style, stain, specie, etc.

  Each cabinet, paying extra attention to special cabinets. Drawings of special cabinets, cut-outs and appliance panels.

- Call if you do not receive an Order Acknowledgement within four business days.

DON'Ts

- Don't assume we know what you want – WHEN IN DOUBT, SPELL IT OUT or SKETCH IT OUT.
- Don't use other cabinet manufacturers' nomenclature.
- Don't send appliance manufacturers' model numbers and specification sheets without completing and sending StarMark Appliance Templates.
- Don't call in orders.
- Don't ignore your Order Acknowledgement.
- Don't ignore a telephone call from StarMark Customer Service requesting information that will complete your order.

YOUR ORDER MAY BE DELAYED IF…

- You use non-StarMark nomenclature.
- We cannot read the order.
- You do not submit completed Appliance Templates for cutouts and panels.
- Dimensions are not provided where required.

! IF YOUR ORDER IS NOT COMPLETE AND ACCURATE, IT COULD BE DELAYED, CAUSING IT TO MISS YOUR SHIPPING CYCLE.

HOW TO USE STARMARK CABINETRY'S DESIGN CHECK PROGRAM

Are you new to cabinetry design? Or are you new to designing with StarMark Cabinetry? If so, Design Check is a good choice for you. Design Check is a support program designed to help avoid common errors in the ordering process.

Design Check will review your final quote for the following items:

1. Price level is correct for door style selected.
2. Finish is valid choice for door style and wood species selected.
3. Finished ends and/or flush ends are used where appropriate.
4. Island/peninsula back panels including wainscot panels, FFD, or paneling with doors applied on-site are used correctly.
5. If specifications are provided, appliance openings are checked.
6. Cabinetry and moulding will fit ceiling height (if applicable).
7. Mouldings selected will work with staggered heights and depths.
8. Dimensional modifications on cabinets.
9. Functionality of staggered heights.
10. Blind corners are pulled correctly.
11. Accessory items are included.
12. General functionality.
13. Current 2020 Catalog was used.

How to utilize Design Check:

1. Email the 2020 kit file to designservice@masterbrand.com or fax the file contents (including floor plan and quote) to 877.771.4443. Please put "Design Check" in the subject line of the email or fax.
2. Plan on two business days for the review to be completed.
3. StarMark Cabinetry will send you back a list of recommended changes. You are responsible for interpreting the information and making necessary changes prior ordering.
4. There is a charge of $25 per room. This is billed to your account.

MAKE THE MOST OF STARMARK'S FLEXIBILITY.

1. Become familiar with all the modifications available to you.

One of the most useful Cabinet Box Modifications is Dimensional Modifications (block 9080). Increase or reduce depth, height, and width of most cabinets.

Dimensional Modifications are just the beginning. Combine (block 9310) or stack (block 9300) cabinets to create one beautiful cabinet with a uniform finish. (A bonus: Because it's one cabinet, not two cabinets, there are no seams, and it's easier to install at the job site.)

When your project requires something not listed in our modification section, our Technical Assistance Department is here to help. They can provide a special drawing and price quote. Call 800.551.3404.

More information can be found on page R-26 and in the Modifications section.

2. Think outside the box.

Designers have used the wine rack wall cabinet and the base island unit for storage in a bedroom suite. Although their names naturally lend themselves to kitchen and bath design, many cabinets can be useful in a laundry room, bedroom suite, home office and more. A recycle base or wastebasket base is handy in a laundry room to hold pet food, for example. Vanity Platforms can transform a standard kitchen base into a fine piece of furniture to store Grandma's dishes.

3. Create custom colors.

StarMark can create a

- Custom Stain
- Custom Stain with Glaze
- Custom Tinted Varnish
- Custom Tinted Varnish with Glaze

for your homeowner!

See the Custom Stain and Custom Tinted Varnish information in Cabinetry Specifications.

4. Make the call.

When your project requires something not listed in our reference section or modification section, our Technical Assistance Department is here to help. They can provide a special drawing and price quote.

For more information, call 800.551.3404.

5. Attend StarMark training.

Talk to your Territory Manager about Training events or visit the Training section of OneTouch for more information.

6. Use the Custom Quote Request Form.

We want to save you time. The Custom Quote Request Form will help you organize all the details involved in making a homeowner's dream come true. Information for the form is included, and we encourage you to call us if you have questions. Of course, we can't guarantee every request is approved, however, we can guarantee that we'll explore all the options with you.

See the Custom Quote Request Form, posted on OneTouch in Forms, within the Orders section.

JUST ASK!

If it's not in our Price & Reference Catalog, just ask.
Call Customer Service for assistance with complicated or custom cabinetry.

CATALOG FORMATS THAT SAVE YOU TIME AND EFFORT.

DIGITAL (Searchable) CATALOG

The StarMark Price & Reference Catalog is available as a PDF file. Designers who use the Digital Catalog (previously known as the Searchable Catalog) report that they save time designing, up to 30%. The time savings jump to 40% when you use two monitors, so 2020 is open on one monitor and the Digital Catalog is viewable on the other. (If you're using one monitor, simply minimize one program while you use another.) While you are using the search function in the Digital Catalog, you can continue designing in 2020 until the search results return.

- The Digital PDF catalog is posted on www.mbci1touch.com.

SPECIFIER CATALOG

StarMark has a Specifier Catalog for architects, interior designers, builders and remodelers who buy StarMark Cabinetry through you for their clients. It is just like the Digital Catalog, except the pricing and policies are not listed.

- The Specifier Catalog is posted on www.mbci1touch.com.

UPDATING YOUR PRICE & REFERENCE CATALOG

- When we introduce products, we email an announcement to you to let you know the information has been posted on OneTouch.
- New Construction Zone sheets are posted on OneTouch. Click on **New Construction Zone**, found on the navigation bar on the left hand side of the home page.
- Corrections to the catalog are posted on OneTouch.

FOR ASSISTANCE WITH 2020

MasterBrand's Design Services staff are fluent in 2020 and are happy to assist you with 2020 questions. For assistance, call 877.252.0022 or email designservice@masterbrand.com.

MODIFICATIONS THAT SAVE YOU TIME AND EFFORT.

Exactly what your homeowner asks for

We offer these options through our Technical Assistance department.

- Cabinets to 120" tall!
- Two-tone Spa Vanities
- Custom Hoods
- Custom Furniture pieces
- Custom Angled Cabinets

Modify our Modifications

Go ahead, modify our modifications. We do this all day long:

- Wide Stiles (Block 9110) and Extended Stiles (Block 9090) can be modified to a maximum 12" stile width. Looks great and it's installer friendly too.
- Base Extend Side and Stile Down (Block 9260) can be applied to a wall cabinet, too.
- Clipped/Angled Stiles (Block 9120) can be quoted with a 9" x 9" clipped corner.
- We flute (Block 9140) stiles and solid stock up to 12" wide x 96" high.
- Toe kick space can be added, omitted or modified.

Even our everyday stuff is extraordinary

- Our IMDP modification (Block 9060) is backed with an extra panel for a nice clean interior. Some cabinet manufacturers take shortcuts and the unattractive backs of their IMDPs are visible.
- Valance Top Rail or Valance Bottom Rail is ideal for dressing up display cabinets, and installers love how easy it is.
- Many doors can receive an Edge Treatment profile. There's no charge when a finish upcharge is added to the order.
- We have 14,000 combinations of legs, posts and feet because of our partnership with Glacial Wood Products (block 14000).
- Vanity Platforms ship with feet attached—making installation easy.
- We've partnered with Art for Everyday to bring you six distinct collections of Decorative Accents.

Powerful Modifications

- **Block 9330** Add Drawer
- **Block 9320** Add Door
- **Block 9080** Dimensional Modifications. We modify a cabinet's width, depth and height in ⅛" increments.

Good looking Modifications

- **Block 9040** Flush End
- **Block 9030** Furniture End
- **Block 9410** Finished Back

MY CLIENT WANTS a Thornton door with glass inserted into both panels, not just the top panel.

On your order, specify the lower section of the Thornton door to be a glass insert. Add the Decorative Glass Insert charge (Block 9590).

MY CLIENT WANTS an all-wood cabinet.

Specify a maple veneer interior (Block 9470) or plywood shelves (Block 9450).

MY CLIENT WANTS a cabinet 79" wide.

We build cabinets up to 84" wide. Order a partition (Block 9380) for cabinets wider than 48" to support shelving.

MY CLIENT WANTS a cabinet with glass sides.

Order a Face Frame and Door (Block 9070) on the end panel (the door can be working or fixed) and specify that it be an ID or MD door.

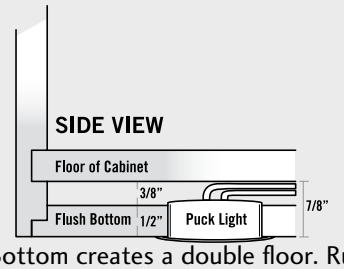
MY CLIENT WANTS a Vegetable Storage Drawer Front in a cabinet that is 36" wide.

VSDF (Block 9820) can be in cabinets up to 36" wide. We can quote that through our Technical Assistance Department.

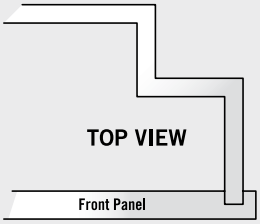
© Copyright StarMark Cabinetry FEBRUARY 2022

MODIFICATIONS THAT SAVE YOU TIME AND EFFORT.

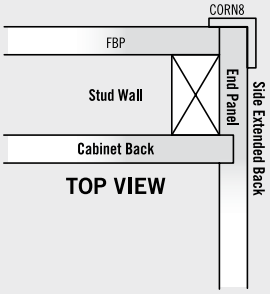
Use these mods to hide the messy stuff.



A Flush Bottom creates a double floor. Run wires between the floors to hide them. A Flush Top works the same way. Both are in Block 9190.



We can do a two-sided chase cutout as well as the three-sided shown in the Catalog (Block 9160).



A Side Extend Back (Block 9270) on cabinets will hide a stud wall behind an island.

WHAT TO DO WHEN A CABINET OR MODIFICATION IS NOT IN THE CATALOG.

When your project requires something not listed in our reference section or modification section, our Technical Assistance Department is here to help. They can provide a special drawing and price quote.

For more information, call 800.551.3404.

See the Custom Quote Request Form, posted on OneTouch in Forms, within the Orders section.

JUST ASK!

If it's not in our Price & Reference Catalog, just ask. Call Customer Service for assistance with complicated or custom cabinetry.

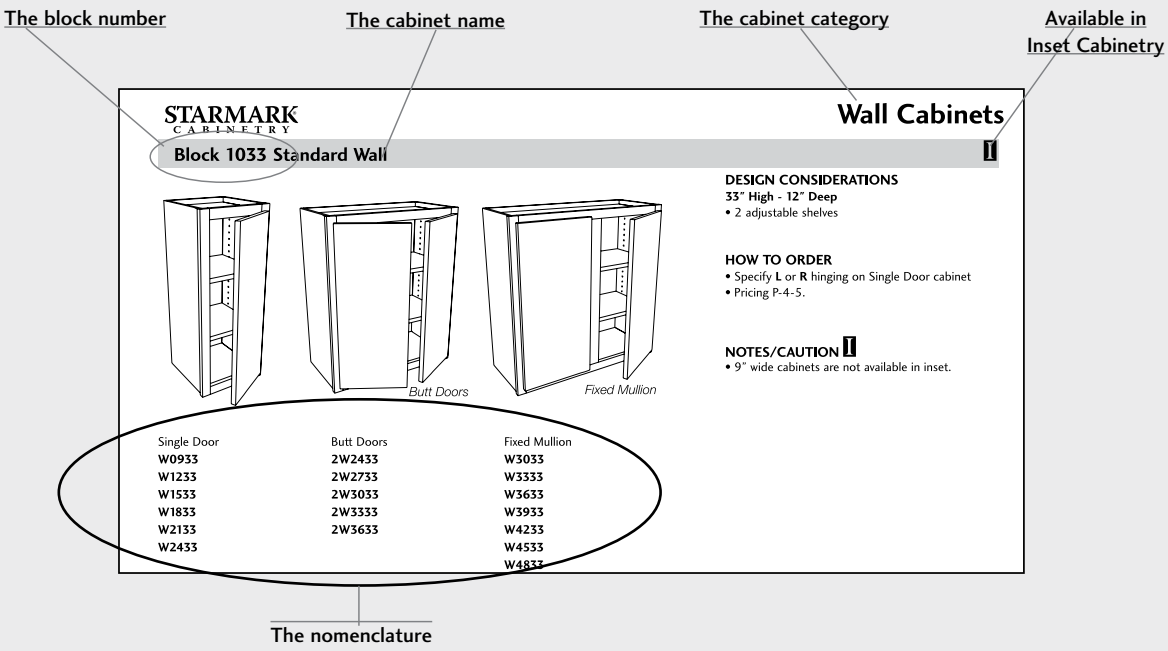
HOW TO FIND YOUR WAY AROUND A STARMARK CATALOG PRODUCT PAGE.

1. Locate the cabinet block.

StarMark and Inset are listed together in the product section. These pages start with “C”, for example, C-1.

2. Determine if the cabinet, accessory or modification is available in Inset.

Cabinets, accessories or modifications that are available in StarMark Inset are identified with a I icon. See the StarMark Inset Cabinetry section for more information.



This icon indicates that this product is illustrated in the Products in Color Section.

This icon indicates that a sales aid is available. See the SALES AID order form.

This icon indicates that this product is available in Inset cabinetry.

© Copyright StarMark Cabinetry FEBRUARY 2022

HOW TO FIND YOUR WAY AROUND A STARMARK CATALOG PRICING PAGE.

1. Locate your Door Column Pricing Pages.

2. Find the door style and species you are specifying.

Make note of the price column that is listed to the right of the door style. For example, Cherry Milan is "6", which means you need to use that price column when you price your cabinets.

The symbol ❖ indicates that the door style is available in Rustic Alder or Rustic Hickory. There is no upcharge for Rustic Alder or Rustic Hickory. All Walnut doors have a 25% upcharge.

3. Make sure you are in the right column.

To continue our example, to price a cabinet in Cherry Milan, use the prices in column 6.

KCMA ANSI A161.1 PERFORMANCE CERTIFICATION AND ESP CERTIFICATION

ANSI/KCMA A161.1

STARMARK CABINETRY IS KCMA ANSI A161.1 CERTIFIED

KCMA has certified that StarMark Cabinetry has met the requirements for ANSI A161.1 Performance & Construction Standard for Kitchen and Vanity Cabinets. More information can be found at www.kcma.org/certifications/about.

STARMARK CABINETRY IS ENVIRONMENTALLY RESPONSIBLE.

StarMark Cabinetry is a certified brand in the Kitchen Cabinet Manufacturers Association (KCMA) Environmental Stewardship Program. The program recognizes companies that demonstrate an ongoing commitment to sustainability including the use of environmentally responsible materials in cabinet products and minimized environmental impacts realized through recycling wastes and using low emission coatings. By achieving this certification, StarMark Cabinetry is going beyond minimum requirements and demonstrates leadership in growing a sustainable company.

KITCHEN CABINET MANUFACTURERS ASSOCIATION.
ENVIRONMENTAL STEWARDSHIP PROGRAM (ESP).
ALL PRODUCTS IMPACT THE ENVIRONMENT
FOR ESP PROGRAM CRITERIA, VISIT KCMA.ORG

Kitchen Cabinet Manufacturers Association Environmental Stewardship Program
All products impact the environment. For ESP program criteria, visit www.kcma.org.

STARMARK CABINETRY IS CARB II COMPLIANT.

In technical terms, this means 100% of StarMark Cabinetry's products are compliant with the California Air Resources Board (CARB) Airborne Toxic Control Measure (ATCM) to reduce formaldehyde emissions from composite wood products including hardwood plywood (HWPW), medium density fiberboard (MDF), and particleboard (PB) (Title 17, California Code of Regulations §93120-93120.12).

In laymen's terms, it means that StarMark Cabinetry complies with the nation's strictest regulations regarding formaldehyde.

StarMark's CARB II compliance coupled with its ESP certification assures our dealers and homeowners that we use environmentally friendly manufacturing materials and processes.

CHECKLIST FOR ACCURATE 2020 PRICING.

○ Are all the cabinets and parts you are ordering from StarMark Cabinetry included on the Quote you are presenting to your client?

○ Are there cabinets on the order which are modified or customized? If so, are you sure you have priced them correctly? If you are not certain, did you get a quote from our Technical Department at 800.551.3404? Did you include the quoted price AND the quote number on your order?

○ Are you upcharging for Spattering on a Stain? 10%

○ Are you upcharging for Light Chain Distressing on a Stain? 10%

○ Are you upcharging for Glaze on a Stain? 10%

○ Are you upcharging for Tinted Varnish? 5%

○ Are you upcharging for Tinted Varnish with Glaze? 15%

○ Are you upcharging for Amaretto? 15%

○ Are you upcharging for Antiquity? 15%

○ Are you upcharging for Chateaux? 15%

○ Are you upcharging for Cottage Stain with Glaze? 15%

○ Are you upcharging for Cottage Tinted Varnish with Glaze? 15%

○ Are you upcharging for Homestead? 15%

○ Are you upcharging for Old World Distressing? 15%

○ Are you upcharging for Villa? 15%

○ Are you upcharging for Walnut? 25%

○ Are you upcharging for Weathered/Weathered Snow? 15%

○ Are you upcharging for Matte Top Coat**? 5%

○ Did you discuss the optional 5-piece header option with your Client? If so, are you upcharging for 5-piece headers? ($93 List/drawer) We have found it works best to include the 5-piece header charge automatically when you are doing the pricing, as most clients request 5-piece headers on their orders.

○ Are you selecting Finished Ends for exposed cabinet ends? Select the Stained End option (block 9010) instead of Finished Ends when the end is "buried" and only a small amount of the end panel will be visible, such as next to an appliance. Stained Ends are no charge, unless 7 or more Stained Ends are specified. Then Finished End charges will apply.

○ Are you using a current StarMark 2020 Electronic Catalog? Check OneTouch for the latest 2020 catalog.

○ Did you remember to include and price all necessary moulding, especially Toe Board Trim (block 12200)?

○ Did you include the $300 or $400 Job Site Delivery net fee if the order is delivered directly to your Client's residence?

○ To indicate styling options, use a current StarMark Cabinetry Order Form as a cover sheet. A Cabinetry Order Form template is posted on OneTouch in Forms, within the Orders section.

○ If you are designing in Inset, did you select the desired hinge style?

○ If you are ordering a hood, did you also include the liner and ventilator?

○ If you are ordering a Custom Stain or Custom Tinted Varnish, did you add a $900 net setup fee if the order does not total $20,000 list?

** There is no upcharge for Matte Top Coat on a Stain with Glaze or on any finish with an upcharge already applied.

HOW TO CHECK YOUR STARMARK ORDER ACKNOWLEDGEMENT.

! THE RESPONSIBILITY FOR AN ACCURATE ORDER RESTS WITH YOU. CAREFULLY REVIEW ORDER ACKNOWLEDGEMENTS!

! YOU'RE HUMAN, AND SO ARE OUR EDITORS, SO ERRORS CAN OCCUR. DON'T ASSUME... CHECK YOUR ACKNOWLEDGEMENT!

Even though most dealers recognize the importance of the Order Acknowledgement, not all dealers understand every detail. To help you, we have included a sample Order Acknowledgement along with the following explanations.

1. **Date** Indicates the date when the acknowledgement was printed. If the order has changed it will state "Reprint."
2. **Product Line** This area indicates StarMark or StarMark Inset.
3. **Purchase Order Number** Dealer supplies this piece of information.
4. **Job Name** Dealer supplies this information; carton labels will reflect this information.
5. **Shipping Method and Code** Indicates how the item is to be shipped; 1000 numbers indicate truck, 3000 numbers indicate Standard FedEx, 4000 numbers indicate FedEx Next Day Air®.
6. **Scheduled Week of Delivery** This will always be a Monday date if the item goes by truck. Otherwise it is the date available for shipment.
7. **Door Style** Indicates which species and door style was ordered.
8. **Optional Edge** Will denote which edge if an Optional Edge was chosen.
9. **Header Style** Will reflect 5-piece header upgrade, Profiled Header or Regent Profile, if chosen.
10. **Hinge Type** Will reflect which hinge option was chosen, if applicable, or what hinge is available.
11. **Drawer System** Will reflect the drawer system ordered.
12. **Styling Options** This area indicates "yes" if Finger Routes and/or Bevel Pulls were ordered. If Furniture Pegs were ordered, this area indicates "single" or "double" peg option.
13. **Plywood Shelf** Denotes the word "yes" for plywood shelves.
14. **Plywood End Panels** Denotes the word "yes"for ¾" plywood end panel.
15. **Finishing Options** This area denotes the finish that was ordered. It also indicates whether these options will be applied: Spattering, Distressing, Cottage and Old World Distressing.
16. **Cabinet Nomenclature** For standard cabinets, this should match the nomenclature stated in the StarMark Price & Reference catalog.
17. **Hinge/Options** This will indicate hinge and any options chosen on the specified cabinet.
18. **Other Info/Sizes/Description** This will indicate any special dimensions of a cabinet, description of the option and any other specific information regarding this cabinet.
19. **Finish Upcharge** If applicable, it will be totaled at the bottom of the order.

NOTE: When there is a **draw or a non-standard cabinet,** all the options will be rolled up into the price of the item except for any finish upcharges.

! THE BEST TOOL FOR CHECKING ORDER ACKNOWLEDGEMENTS IS THE DIGITAL CATALOG. DOWNLOAD ONE TODAY FROM ONE TOUCH!

CABINETRY CARE

Preventative care

We manufacture cabinets with a catalyzed conversion varnish finish, using the best material and techniques available. However, even the best cabinetry finishes are not designed for repeated exposure to water.

Always wipe up food and beverage spills immediately after they occur.

- Do not wax your cabinets. Do not use abrasive cleaners, powder cleaners or furniture cleaners that remove wax build-up.
- Do not allow oven cleaners to touch your cabinetry.

Cleaning

Use a damp, clean, lint-free cloth that is free of loose fibers. Cloth diapers and terry cloth work well.

Don't use a cloth that you use on dishes or countertops. It could contain detergents, residue and fibers that will harm your cabinets.

If a cleanser is necessary, use a mild, liquid, non-abrasive cleaner. Murphy's Oil Soap is a good choice. Apply the cleanser to your cleaning cloth. Don't apply directly to the cabinet.

Work in small areas so you can dry the cabinet immediately with a clean, lint-free cloth that is free of loose fibers.

Removing grease

Use a clean, lint-free cloth that is free of loose fibers. Cloth diapers and terry cloth work well.

Don't use a cloth that you use on dishes or countertops. It could contain detergents, residue and fibers that will harm your cabinets.

Work in small areas so you can dry the cabinet immediately with a clean, lint-free cloth that is free of loose fibers.

Touch up

Even with normal use, you will need to touch up cabinetry. We recommend ordering a Touch-Up Kit when you order the cabinetry. Keep it in a safe place for future needs.

Climate control

Be aware that wood cabinetry installed in certain climates will take on or lose moisture, causing swelling or shrinkage of the components. Doors will swell in humid environments, especially, but not limited to, slab doors such as Aero, Monroe and Tempo. Cabinetry installed in humid locations requires an air-conditioned environment to mitigate this issue. For drier locations, or in winter where humidity is low, a humidifier should be run to maintain a moderate moisture level in the environment. While shrinkage will not generally be as significant as potential swelling, it does occur. Please note, changes due to climate conditions are not a quality issue, and are not covered by our warranty.

A Cabinetry Care brochure for homeowners is posted on OneTouch.

BUTCHER BLOCK CARE

Clean only when needed with mild soap and water. Always immediately wipe off excess water left from the cleaning process. Do not expose your butcher block top to soap or water for longer than necessary to clean it. Do not use any cleaning product stronger than mild soap. Do not use abrasive cleaners or cleaning pads on it. See Oil Treatment instructions in the Cabinetry Care brochure posted on OneTouch.

FAUX INSERTS CARE

Clean with mild soap and water, mild kitchen or glass cleaning products, or denatured alcohol. DO NOT USE ACETONE. Avoid harsh household cleaners and abrasives. Always check the active ingredients of your cleaners to be sure there are no potentially harmful chemicals.

Don't use a cloth that you use on dishes or countertops. It could contain detergents, residue and fibers that will harm the surface.

DOOR AND DRAWER ADJUSTMENT

During shipping and installation, the drawers may move from their original position. Doors may also need adjusting after installation. Overlay and Inset adjustment instructions for installers and homeowners is located on OneTouch.

! DON'T FORGET THAT THIS INFORMATION IS ON WWW.MBCI1TOUCH.COM

INSTALLING STARMARK CABINETRY

TIP **We recommend that all doors on cabinets be removed prior to installation.**

The cabinets are easier to handle when doors are removed.

Doors that are left on during installation can swing open, causing damage to the doors and hinges.

After doors are re-installed, adjust the hinges to ensure properly aligned doors.

! ALWAYS USE WOOD SCREWS, NEVER NAILS, TO INSTALL STARMARK CABINETS.

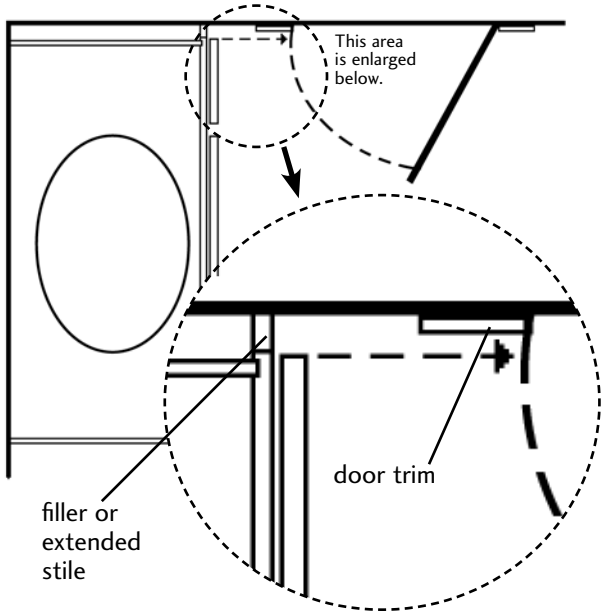
TIP **Using nails voids all guarantees, written or implied.**

Nails could allow heavy cabinets to pull away from the wall, causing damage and/or injury.

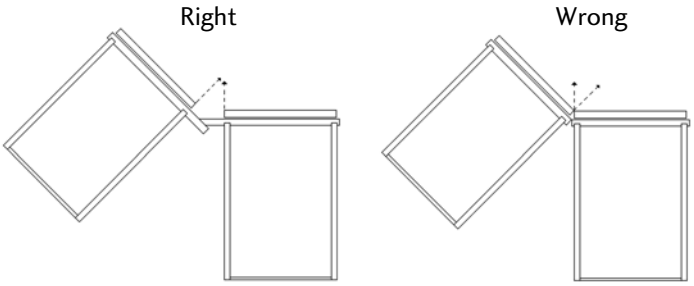
TIP **When installing wall cabinets, drill 1″ from ceiling and 1″ from the floor inside of the cabinet. Drill through nailers and into wall studs. Place screws as close as possible to the cabinet end panels.**

TIP **To prevent a drawer from opening into the door trim, use a filler, extended stile or wide stile. See illustration below.**

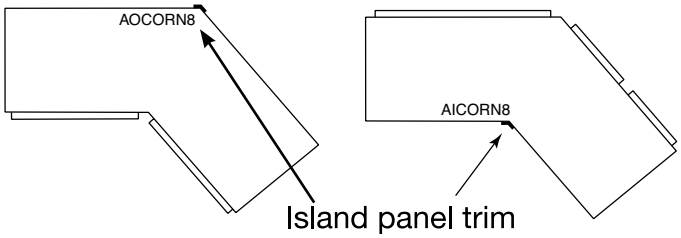
This situation occurs most frequently with Modern Overlay door styles and in small, close installations, such as baths.



TIP **To ensure proper drawer function, use extended stiles or fillers when cabinets are installed at angles to one another.**



TIP **To save time, you can square fit panels together (instead of mitering the joint) and pin AICORN8 (block 12660) or AOCORN8 (block 12670) moulding over the seam to give a professional finished look.**



TIP **When installing moulding, use scribe (FLAT, block 12680) moulding to flush out the reveal that exists where end panel and face frame meet. Or, specify Flushed Ends (block 9040) or Furniture Ends (block 9030). Either method will eliminate the need to notch the moulding around the frame.**

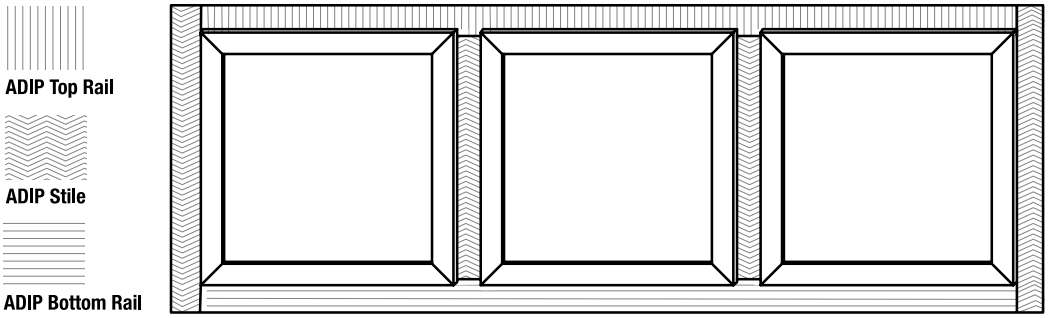
WHAT TO EXPECT WHEN YOU ORDER ADIP PANELS – BLOCK 11030

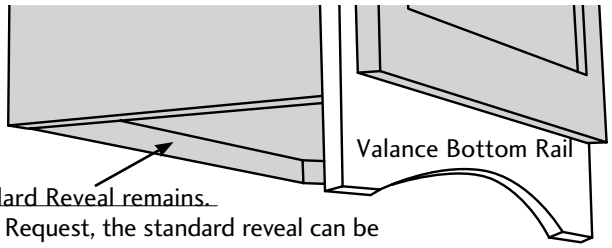


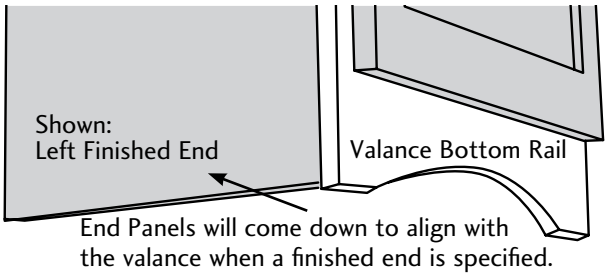
When the door Stile & Rail Size is:	then the ADIP Top Rail is:	and the ADIP Stile is:	and the ADIP Bottom Rail will be:
2¼″	2¼″	2¼″	4½″ or 7″ specify per order*
2¾″	2¾″	2¾″	4½″ or 7″ specify per order*
3⅜″	3⅜″	3⅜″	4½″ or 7″ specify per order*

*Note: For a furniture look, choose a 4½″ ADIP Bottom Rail. Choose a 7″ ADIP Bottom Rail for kitchens.

WHAT TO EXPECT WHEN YOU ORDER VALANCE BOTTOM RAILS – BLOCK 9170

When a cabinet is modified with a valance bottom rail, the standard reveal from the cabinet floor to the bottom of the back panel remains the same (⅞″). Upon request, the standard reveal can be extended to align with the valance bottom rail. End Panels will automatically come down to align with the valance when a finished end is specified.

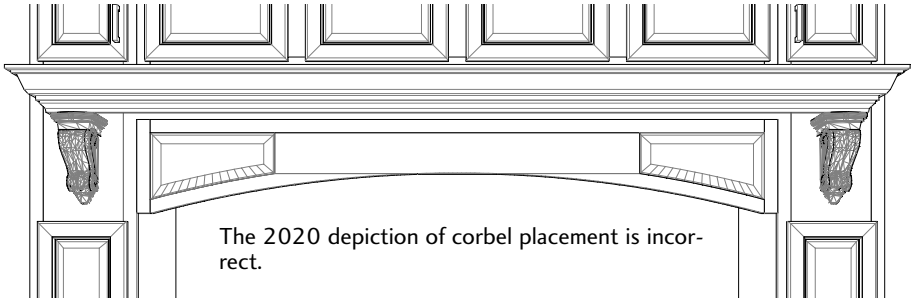




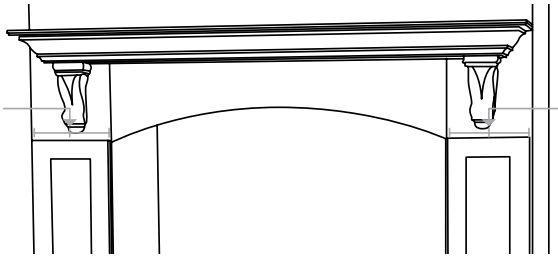
WHAT TO EXPECT WHEN YOU ORDER HEARTH HOOD STYLE B – BLOCK 2660

Hearth hood style B allows for corbels.

The 2020 software program depicts corbels as being centered above the door. The corbels are not centered.



The corbels are placed slightly off-center, as illustrated at right.

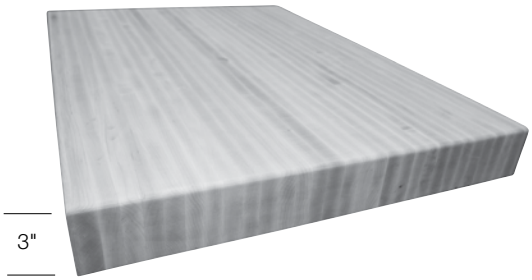


© Copyright StarMark Cabinetry FEBRUARY 2022

WHAT TO EXPECT WITH BUTCHER BLOCK TOPS - BLOCK 4420

If your homeowners are considering a butcher block top, let them know that some maintenance is necessary to keep the butcher block top in good condition.

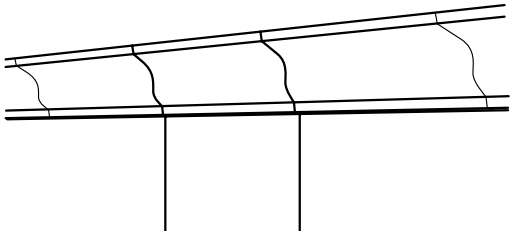
If your homeowners do order a butcher block top, direct them to the care instructions posted on the StarMark consumer website www.starmarkcabinetry.com. These instructions are also shipped with each butcher block top, and are posted on OneTouch.



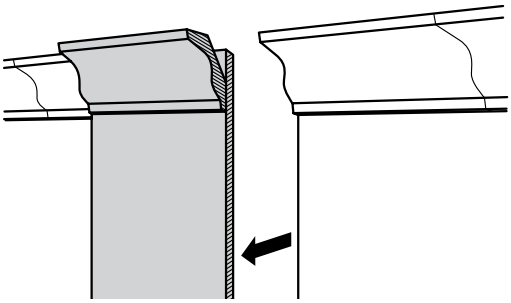
WHAT TO EXPECT WHEN ORDERING MOULDING TREATMENTS FOR PULL OUT FILLER STORAGE UNITS – BLOCK 11110, 11120

Moulding treatment for the wall cabinet pull-out fillers will have to be thought out. The front of the unit will match the height of the wall face frame next to it. Most moulding is installed on the 1” space above the door which would also be on top of the filler.

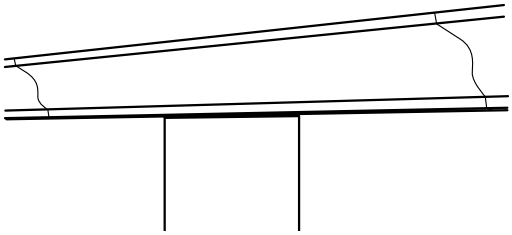
Option One



Attach moulding to the filler so that it will come out with the filler when pulled open.



Option Two



Cut down the filler below the moulding and have the moulding span the 3” or 6” space.

WHAT TO EXPECT WHEN ORDERING RAISED PANEL DOORS WITH MITERED JOINTS FOR CORNER CABINETS AND NARROW OPENINGS.

When Raised Panel doors with mitered joints do not reach a certain width, they will receive a flat center panel, or they will become a slab door. This applies to corner cabinets ASSSW, ASCW21__, ASCW__21, ASBC, LSB33, SBC33, SCW21, SLSB33, SSSW33, and SCB33FS, and also to cabinets with narrow openings due to modifications. The chart below outlines the widths at which the door is altered.

If the door's stiles and rails measure	then the door receives a flat panel below this width	and the door becomes a slab door below this width
• 2¼"	7½"	7"
•• 2¾"	8½"	7⅞"
••• 3¼"	9½"	7⅞"

Which doors are raised panel doors with mitered joints?

Arlington ••
Bell Gardens ••
Ellington ••
Glendale ••
Peabody ••
