

Contemporary Finishes

UltraLux Finishes

Contemporary style. At home on its own or combined with door styles and finishes from our other programs.

High-gloss solid colors and metallic-look finishes are the most scratch-resistant, high-gloss acrylic surfaces available. All high-gloss acrylic finishes are highly-reflective and make the whole room shine.

Linear finishes have a subtle graphic, UltraMattes absorb so much light they look silky, and Aluminum Laminates are brushed metal. For real.

Not all colors and finishes are available on all door styles. See designer for details. Printed materials should never be used for color matching. UltraCraft recommends ordering a sample door to see the best representation of your selected color and finish on your selected door style, before ordering cabinetry. Sample doors are more accurate than printed literature or designer's color chips.

Textured Melamine Finishes

Textured Melamine is becoming one of the most popular options for today's homeowners who want to create a warm, inviting space but prefer a wood-alternative product that can stand up to family life. These are exciting textures that simulate a variety of real woods but in a product that's easy to care for and affordably priced.

Thermofoil Finishes

Thermofoil doors bring easy maintenance, long-lasting durability and beautiful styles, colors and finishes, making this option one of the best values in cabinetry. Moisture-, chip-, and stain-resistant finishes are appealing to many busy families. For most kitchen splatters and spills, Thermofoil cabinets can be easily wiped clean with a soft, damp cloth. High-gloss and horizontal grains on a slab-style door shout urban contemporary, but solid colors on a door with a center panel capture the beauty of classic painted wood at a much lower cost.

Metal and Glass

Metal door frames with patterned or textured glass make a shiny companion to many kitchen styles.

Bring Your Imagination. Take Home the Real Thing.

Life-size samples of your favorite door/finish combinations are ready in about a week.

If the right color and finish are your priority, this poster will get you started. Narrow down your color favorites and your designer will help you select just the right door style. The combinations are virtually limitless!

Sample doors are the best way to visualize what your new kitchen will look like in your home. Printed posters and brochures, and even designers' color chips, will never be as accurate as a sample door custom-made to your specifications.

Before you order cabinets, work with your UltraCraft kitchen designer to define your favorite looks. Then order sample doors of the combinations you're most excited about. Live with the samples in your home until you know which look suits your family the best.
