\* The door and/or drawer front center panel on Maple painted doors may be constructed of Medium Density Fiberboard (MDF), except on the Whittaker door style, or when Distressing or Heirlooming is specified.

**SATIN SHEEN**

*(Top portion of door)*

Our timeless original top coat features a moderate sheen which is reflective without being too glossy. Available on all stains, glazed stains, paints and glazed paints.

**MATTE SHEEN**

*(Lower portion of door)*

Our low sheen top coat is less reflective and absorbs more light, resulting in a softer, more muted look. Available on all stains and glazed stains. Not available on paints or glazed paints.

**DISTRESSING**

Unique imperfections like wormholes, chisel marks and tiny dents and dings replicate the wear found on a well-loved piece of furniture.

**HEIRLOOMING**

Over-sanded edges and profiles expose the underlying wood to create a naturally aged appearance, lending depth and character.

This traditional cabinetry construction features a 1-1/2" wide face frame behind the door and drawer front. Regardless of the door style chosen, a portion of the frame will be visible when the doors and drawers are closed. Available on all Full Overlay and Partial Overlay door styles.

**CABINET BOX**
